The End of TV Is Here

As the final few holdouts (like the Oscars) ink streaming deals, a monumental shift in the way Hollywood works is underway.

BY ALEX WEPRINFEBRUARY 12, 2025

Internet Protocol television

Urban Information Network

Internet Protocol television (IPTV), also called **TV over broadband**,^{[1][2]} is the service delivery of [television](#) over [Internet Protocol](#) (IP) networks. Usually sold and run by a [telecom provider](#), it consists of broadcast [live television](#) that is [streamed](#) over the Internet ([multicast](#)) — in contrast to delivery through traditional [terrestrial](#), [satellite](#), and [cable](#) transmission formats — as well as [video on demand](#) services for watching or replaying content ([unicast](#)).^[3]

Local Channels

We Are In The Community
THEY ARE IN THE CLOUDS

UIN's internet localization is the connection to communities throughout the **US** and **Africa**.

Boots on the ground representatives, **sales teams**, **content creators**, **influencers**, **talent**, **tastemakers**, and **trendsetters**, provide a decided advantage over other streamers.
