PRODUCT GUIDE

PRIME TIME

PRODUCT GUIDE

A division of the well-respected BCI Acrylic Baths brand line, Prime Baths is swiftly establishing itself in the North American bath remodeling industry. Prime Baths represents top quality products and services. As THE bathroom specialists, we offer custom-fitted acrylic tubs and showers in a wide variety of selections. Because everyone wants their remodeling done yesterday, our certified installation teams can complete the job in as little as one day. Our mold resistant acrylic is easy to clean and inhibits mildew growth. We're revolutionizing the bath industry with beautiful, yet affordable products.

Take a moment to review the catalog selections and see for yourself why our clients love us.

BATH CARE AND MAINTENANCE INSTRUCTIONS

HOW TO CARE FOR PRIME BATHS PRODUCTS:

The following cleaning instructions have been compiled for proper hassle-free maintenance.

GENERAL CLEANING INSTRUCTIONS:

For normal everyday cleaning, Prime Baths suggests using mild dish soap and water accompanied by a soft wash cloth. Use of scouring pads or abrasive cleaners will dull the surface. If using a product not listed below, test on a small area in the corner of the skirt before applying to the entire bathtub liner. Always review individual cleansers' instructions and always rinse thoroughly after cleaning.

RECOMMENDED CLEANERS:

- Dawn Dish Soap and water
- Formula 409
- White vinegar and water may also be used to soften mineral deposits
- Use 1/2 cup Clorox Bleach per gallon of water as a disinfectant.

DO NOT USE*:

- Original Clean Shower
- Clean Shower for Plastic Showers & Glass
- Ammonia
- Aerosol cleaners
- Acetone
- Soft Scrub
- Dow disinfectant cleaner
- Scrub Free
- Fingernail polish remover
- Scouring pads
- Lestoil
- Lysol disinfectant cleaner

Use of these chemicals will cause a dull surface and chemical cracks. This will void your product warranty.

There is no need to use abrasive cleaners. Abrasive cleaners dull the gloss over a period of years. In extreme cases where the recommended cleaners do not work, use a Chore Boy or 3M Sponge pad. Make sure you use only the ones recommended for Teflon or non-stick surfaces.

DRAIN CLEANER:

CAUTION: Liquid drain cleaners are recommended over powders and/or crystal; however, when using liquid drain cleaning agents, bail the standing water out of the bathtub and remove the drain plug. Use a funnel to prevent spills and apply the chemicals directly down the drain. Always make certain that chemicals do not come in contact with the acrylic surface. Use drain cleaners sparingly, so that they do not boil out and attack the acrylic surface.

LIFETIME LIMITED WARRANTY

Prime Baths warrants its acrylic wall surrounds, shower floors/bases, replacement bathtubs, tubliners, shower liners and acrylic accessories (collectively referred to as "Product") against defects in materials or workmanship for as long as the residential Customer (buyer) owns the home where the Prime Baths product was installed. For commercial/nonresidential Customers, the term of the warranty is five (5) years. This warranty also applies to the following non-acrylic products so long as they are installed by an approved Prime Baths Dealer: shower doors, shower valves, grab bars and seats. This warranty also applies to all seals, provided Prime Baths Dealer inspects and maintains the seals every five (5) years. Customer must contact Prime Baths Dealer to arrange this scheduled maintenance. Prime Baths warrants that the surface of the Product will not materially fade, yellow, crack, bubble, or peel under normal use and when cared for under the guidelines set forth by Prime Baths. This warranty expressly prohibits the use of unapproved cleaners, and expressly excludes damage resulting from the use of same. In addition, this warranty is void if damage is caused by contact with any of the following: dyes, paints, inks, certain cosmetics, or cleaning agents, abrasive pads, pigments, certain foods, paint remover, fingernail polish remover, solvents or other chemicals, cigarettes or other sources of extreme heat, or abuse of any kind whether intentional or unintentional. Additional exclusions include shower heads, escutcheon plates, valve handles, hand-held shower head hoses and other materials not manufactured by Prime Baths (in which case the normal manufacturer's warranty of each product applies).

In the event of a failure under these terms, Prime Baths reserves the right to partially repair, completely replace, or provide a full or partial refund, whichever Prime Baths deems appropriate in its sole discretion.

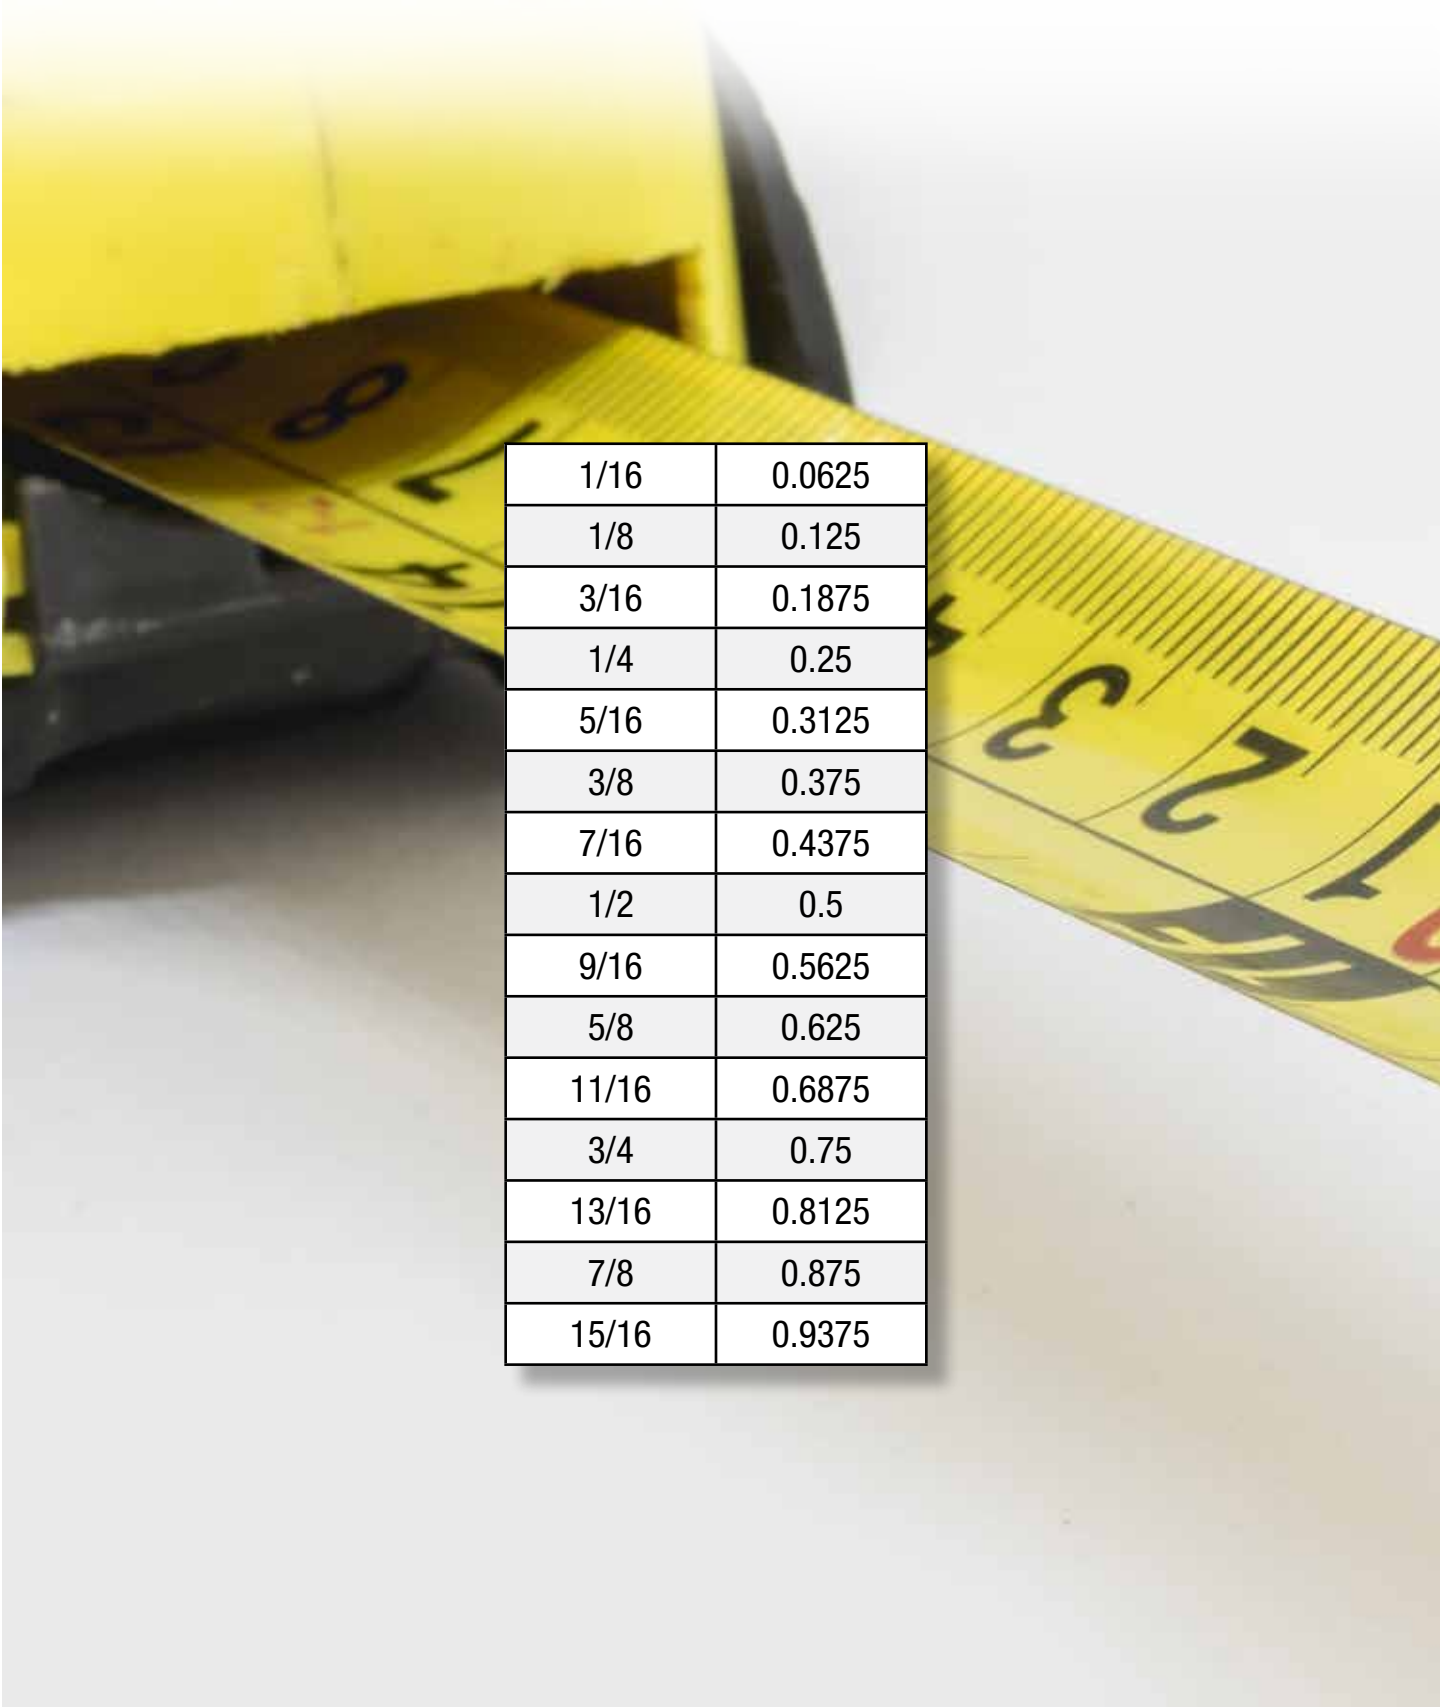

This warranty is transferable to a buyer of the original Customer's residence, provided the buyer completes the acquisition of the residence within two (2) years after the completion of installation, and provided the warranty has not been voided under any term noted herein.

Customers may make a warranty claim in writing with the Prime Baths Dealer with which they originally contracted for service. Upon learning of any warranty claim, Prime Baths will take steps to assess the claim, determine a course of action and effectuate repair or other remedy under the terms of this warranty for covered repairs. Any repair work is subject to then current lead times and then current product availability. Should the Prime Baths Dealer from which the customer originally contracted for service no longer be in business, or should the customer not be able to satisfactorily resolve a warranty issue with the Dealer, the customer should make a warranty claim in writing with Prime Baths.

This warranty is in lieu of all warranties, expressed or implied, and is in fact the only warranty offered by Prime Baths. Under no circumstances will Prime Baths be liable for incidental, indirect, special, punitive, exemplary or consequential damages (including but not limited to damage to personal property, legal services, loss of time or travel) under this warranty. This warranty expressly excludes loss of value, loss of use, stigma and diminution in value related to any covered failure claimed under this warranty. In no way shall the total liability of Prime Baths exceed the total amount paid by the customer for the remodel. The residential buyer specifically waives the warranty for fitness for a particular purpose.

This warranty gives you certain legal rights. Some states or provinces do not allow limitations or implied warranties or consequential damages, so these limitations may not apply to you. However, this warranty does apply all such limitations to the fullest extent allowed by law in each applicable state or province in which the warranty applies. Any warranty obligations of Prime Baths are not activated unless and until all work is paid in full.
