

Bowenwork

Module 4

**This Class reviews
Foundation Moves
And build on them
With specific applications**

Prerequisites: The modules must be taken in sequence, follow timing guidelines to provide enough time for practice: single modules= >30 days apart (one per month) or, with combined pairs of modules (e.x., 1&2, 3&4, 5&6), >2 months between each set. Bring your first 10+ completed log hours and 3 Case Studies.

In this four-day hands-on learning class, we will review and enhance the foundation moves of Bowenwork and learn more specific moves for various issues, problems, injuries. You will study, physically receive and learn to perform- these Bowen moves:

Module 4:

Ankle Procedure (with Strapping)
Upper Respiratory/TMJ Procedure
Bowenwork seated
Procedures for Babies and Children
Hammer Toe Procedures (with Strapping)
Bunion Procedure
(also- Tom Bowen's Home Remedies)

**\$450 if paid 22 days pre-class;
\$480 if paid later.
Includes manuals with photos & anatomical illustrations.**

CEU's may apply for RN's & Massage Therapists. Ask for details.
