

MC/DJ – Rules and Regulations

The purpose of this document is to be crystal clear about the rules and regulations you're required to follow, without exception. None of this should be a surprise as you should have signed an MC/DJ agreement with Mountain View Manor before arrival.

You are here as a paid vendor of the Bridal Party and guest of Mountain View Manor. We are under a temporary use permit by King County which has jurisdiction over the sound levels and timing of our permit. The Bridal Party's Day/evening, damage deposit, and our permit will not be jeopardized by you or your company not adhering to these very simple rules.

If you are asked to turn down any aspect of your sound, bass, vocals, speaker position, etc., it will be done without question or dispute. If you're asked a second time, know that we will be involving the Bridal Party, the ones that hired you. If you receive a third warning, you will be jeopardizing the Bridal Party's security deposit and the event being shut down for non-compliance.

It is our deepest desire that we can work closely and not have any issues as it relates to your time on our property. If you've not received a DP check 30 min prior to the start of the event, please contact us by phone or text.

To be respectful of our neighbors surrounding Mountain View Manor, we ask that the following guidelines be followed at all times.

- The last call for alcohol will be at 8:30 PM and all music must end by 9:00 PM.
- The volume levels and bass levels need to be measured at the soundcheck. The Venue Manager will assist with the soundcheck to make sure the decibel levels are understood.
- The decibel level is not to exceed 75 decibels at 50' from the sound source.
- The decibel level is not to exceed 55 decibels at the northeastern edge, near the parking lot area.
- All amplifiers and speakers must be placed, facing towards the west or the home, and cannot be facing the ceremony lawn with the only exception being during the ceremony.
- Once the event begins, sound levels will be measured and recorded occasionally by the Venue Manager.

Thank you for your cooperation on this very important topic.
