#### LINE OF CREDIT BALANCE COMPUTATION

We figure the interest charge on your account by applying the periodic rate to the "average daily balance" of your account. To get the "average daily balance" we take the beginning balance of your account each day, add any new advances, and subtract any payments, credits, unpaid interest or other finance charges, and unpaid insurance premiums. This gives us the daily balance. Then, we add up all the daily balances for the billing cycle and divide the total by the number of days in the billing cycle. This gives us the "average daily balance."

#### WHAT TO DO IF YOU THINK YOU FIND A MISTAKE ON YOUR LINE OF CREDIT STATEMENT

While we investigate whether or not there has been an error, the following are true:

- We cannot try to collect the amount in question, or report you as delinquent on that amount.
- The charge in question may remain on your statement, and we may continue to charge you interest on that amount: But, if we determine that we made a mistake, you will not have to pay the amount in question or any interest or other fees related to that amount.

#### LINE OF CREDIT BALANCE COMPUTATION

We figure the interest charge on your account by applying the periodic rate to the "average daily balance" of your account. To get the "average daily balance" we take the beginning balance of your account each day, add any new advances, and subtract any payments, credits, unpaid interest or other finance charges, and unpaid insurance premiums. This gives us the daily balance. Then, we add up all the daily balances for the billing cycle and divide the total by the number of days in the billing cycle. This gives us the "average daily balance."

#### WHAT TO DO IF YOU THINK YOU FIND A MISTAKE ON YOUR LINE OF CREDIT STATEMENT

If you think there is an error on your statement, write to us at the address shown on the reverse side of the statement.

In your letter, give us the following information:

- Account Information: Your name and account number.
- · Dollar amount: The dollar amount of the suspected error.
- Description of Problem: If you think there is an error on your bill, describe what you believe is wrong and why you believe it is a mistake.

You must contact us within 60 days after the error appeared on your statement,

You must notify us of any potential errors in writing. You may call us, but if you do, we are not required to investigate any potential errors and you may have to pay the amount in question.

While we investigate whether or not there has been an error, the following are true:

- We cannot try to collect the amount in question, or report you as delinquent on that amount.
- The charge in question may remain on your statement, and we may continue to charge you interest on that amount. But, if we determine that we made a mistake, you will not have to pay the amount in question or any interest or other fees related to that amount.
- · While you do not have to pay the amount in question, you are responsible for remainder of your balance.
- · We can apply any unpaid amount against your credit limit.

#### LINE OF CREDIT BALANCE COMPUTATION

We figure the interest charge on your account by applying the periodic rate to the "average daily balance" of your account. To get the "average daily balance" we take the beginning balance of your account each day, add any new advances, and subtract any payments, credits, unpaid interest or other finance charges, and unpaid insurance premiums. This gives us the daily balance. Then, we add up all the daily balances for the billing cycle and divide the total by the number of days in the billing cycle. This gives us the "average daily balance."

#### WHAT TO DO IF YOU THINK YOU FIND A MISTAKE ON YOUR LINE OF CREDIT STATEMENT

If you think there is an error on your statement, write to us at the address shown on the reverse side of the statement.

In your letter, give us the following information:

- Account Information: Your name and account number.
- Dollar amount: The dollar amount of the suspected error.
- Description of Problem: If you think there is an error on your bill, describe what you believe is wrong and why you believe it is a mistake.

You must contact us within 60 days after the error appeared on your statement.

You must notify us of any potential errors in writing. You may call us, but if you do, we are not required to investigate any potential errors and you may have to pay the amount in question.

While we investigate whether or not there has been an error, the following are true:

- We cannot try to collect the amount in question, or report you as delinquent on that amount.
- The charge in question may remain on your statement, and we may continue to charge you interest on that amount. But, if we determine that we made a mistake, you will not have to pay the amount in question or any interest or other fees related to that amount.
- · While you do not have to pay the amount in question, you are responsible for remainder of your balance.
- · We can apply any unpaid amount against your credit limit.

#### In Case of Errors or Questions About Your Electronic Transfers

Phone or write to us at the telephone number or address listed on reverse side.

Please notify us as soon as you can if you think your statement is wrong or if you need more information about a transfer listed on the statement. We must hear from you within 60 days after we sent the FIRST statement on which the problem or error appeared.

- 1. Tell us your name and account number.
- Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe it is an error, or why you need more information.
- 3. Tell us the dollar amount of the suspected error.

We will investigate your complaint and will correct any error promptly. If we take more than 10 business days to do this, we will recredit your account for the amount you think is in error so that you will have use of the money during the time it takes us to complete our investigation.

#### LINE OF CREDIT BALANCE COMPUTATION

We figure the interest charge on your account by applying the periodic rate to the "average daily balance" of your account. To get the "average daily balance" we take the beginning balance of your account each day, add any new advances, and subtract any payments, credits, unpaid interest or other finance charges, and unpaid insurance premiums. This gives us the daily balance. Then, we add up all the daily balances for the billing cycle and divide the total by the number of days in the billing cycle. This gives us the "average daily balance."

#### WHAT TO DO IF YOU THINK YOU FIND A MISTAKE ON YOUR LINE OF CREDIT STATEMENT

If you think there is an error on your statement, write to us at the address shown on the reverse side of the statement.

In your letter, give us the following information:

- Account Information: Your name and account number.
- Dollar amount: The dollar amount of the suspected error.
- Description of Problem: If you think there is an error on your bill, describe what you believe is wrong and why you believe it is a mistake.

You must contact us within 60 days after the error appeared on your statement.

You must notify us of any potential errors in writing. You may call us, but if you do, we are not required to investigate any potential errors and you may have to pay the amount in question.

While we investigate whether or not there has been an error, the following are true:

- We cannot try to collect the amount in question, or report you as delinquent on that amount.
- The charge in question may remain on your statement, and we may continue to charge you interest on that amount. But, if we determine that we made a mistake, you will not have to pay the amount in question or any interest or other fees related to that amount.
- · While you do not have to pay the amount in question, you are responsible for remainder of your balance.
- We can apply any unpaid amount against your credit limit.

#### In Case of Errors or Questions About Your Electronic Transfers

Phone or write to us at the telephone number or address listed on reverse side.

Please notify us as soon as you can if you think your statement is wrong or if you need more information about a transfer listed on the statement. We must hear from you within 60 days after we sent the FIRST statement on which the problem or error appeared.

- 1. Tell us your name and account number.
- Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe it is an error, or why you need more information.
- 3. Tell us the dollar amount of the suspected error.

We will investigate your complaint and will correct any error promptly. If we take more than 10 business days to do this, we will recredit your account for the amount you think is in error so that you will have use of the money during the time it takes us to complete our investigation.

It's Easy to Balance Your Account - Follow the instructions and use the reconcilement form below.

Sort the checks numerically or by date issued and check off each paid check on your checkbook stub.

Be sure that all checks and debits listed in the checking account section on the reverse side have been subtracted from your checkbook balance and that all deposits and credit items have been added.

List and total under "Checks Outstanding" all checks not paid by the bank before the end of this statement period. Fill in the ending balance shown on this statement, add the deposits made after the close of this period, deduct the checks still outstanding, and the result should be the same as the balance remaining in your checkbook.

#### LINE OF CREDIT BALANCE COMPUTATION

We figure the interest charge on your account by applying the periodic rate to the "average daily balance" of your account. To get the "average daily balance" we take the beginning balance of your account each day, add any new advances, and subtract any payments, credits, unpaid interest or other finance charges, and unpaid insurance premiums. This gives us the daily balance. Then, we add up all the daily balances for the billing cycle and divide the total by the number of days in the billing cycle. This gives us the "average daily balance."

### WHAT TO DO IF YOU THINK YOU FIND A MISTAKE ON YOUR LINE OF CREDIT STATEMENT

If you think there is an error on your statement, write to us at the address shown on the reverse side of the statement.

In your letter, give us the following information:

- Account Information: Your name and account number.
- Dollar amount: The dollar amount of the suspected error.
