

For Sale:

1999 Mazda Miata – 5 speed – Caged race car built for Enduro Elite racing series

Current owner: Chuck Carvalho / Email: chuck@enduroelite.ca

Price: \$17,500 (Price includes 1-Endurance entry fee to Enduro Elite)

Items include:

- Hard Top
- Sparco seats (driver & passenger)
- Intercom for driver-passenger communication
- Bilstein B6 suspension with lowering springs
- Lightweight Flywheel
- 4.78 LSD differential
- Racing Beat exhaust headers
- Upgraded aluminum radiator
- Stock brake calipers with new Hawk DTC-60 front pads and DTC-30 rear pads
- Hood/Fender vents
- Front Dam & DIY Spoiler
- Solid motor mounts
- Coolant re-route kit
- Cold-air intake
- Upgrade sway bars with adjustable links
- Steering quick-release
- Brand new hardwired transponder with 1-year subscription which has not been activated yet

Safety Equipment:

- Full roll cage installed
- LifeLine Fire-Suppression system installed (New/Valid)
- LifeLine seat-belt/harness installed for driver (New/Valid for driver only. Passenger belts still in great condition for lapping/practice use).

Spares:

- New Exedy clutch

Notes:

The car was plated and used for lapping until the last winter when it was caged. It is not a perfect show car, but it IS a perfect candidate for a very competitive race car.

The car is on roller-tires so needs a fresh set of your choice of rubber put on.

Photos may show cracks in windshield but the car will be supplied with a brand-new/installed windshield for purchase price.

All safety equipment needed to race with Enduro Elite is included with the sale, the only thing you need to provide yourself (besides your desired setup/alignment) is the radios/harness and also activate your transponder subscription.

I was building this car to be the second car in my operation for additional rental drivers but due to some recent life changes I have decided against having two cars.
