My puppies are sold as members of the Family, meaning they will live in the house as family members, never be left outside, unsupervised for long periods of time; never put in an outdoor pen with a dog house and never tethered to an outside line. If the dog is properly trained, there is never a reason for any of that. Any dog that is not properly trained can become a nuisance and we want to avoid that at all costs with proper training.

Please supply 2 references that we may contact regarding your ownership of a new puppy:

How did you hear about Raya Golden Retrievers? _____

Thank you for completing this long questionnaire. I take all information into consideration about you, your family's life style and what you are looking for in a new Golden when I am evaluating them prior to your picking up your new family member. I pick the puppy best suited to your family wants and needs based on temperament testing and overall structure. Pet puppies from Raya Golden Retrievers are sold to all homes on an AKC limited registration. This means no breeding will be allowed, although you can do all AKC events with your dog except conformation.

If at any time you would like to try showing your dog in conformation, I am willing to evaluate your puppies structure and temperament and help to

guide you towards that goal. Your AKC registration would need to be changed at that point from limited to Open.

I require all new puppies and owners to attend a basic puppy obedience class and the AKC Canine Good Citizen Class. These are great tools for puppy socialization as well as the building blocks for proper house manners. The beginning training classes will help you bond with your pup and begin a wonderful life of companionship. You are encouraged to try many of the fun AKC events like Dock Diving, Rally, etc. You can find out more information at your local dog club and on AKC.org (events).

Once again, Thanks you for your interest in one of my puppies.
