

In business since 1988, Bitimec has pioneered the field of mobile washing machines for on-road and on-rail vehicles. We make more models and sell more machines than all of our competitors combined!

Our cost effective mobile machines are designed to make jobs easier and faster while using far less labor, water and time than conventional methods.

No matter what you need to wash, we will offer you the easiest solutions on the market, affording you the fastest ROI.

Wash Bots A225 CH

Entry level gasoline-powered mobile washer made for 24/7 operation

The A225-CH is an autonomous mobile washer available with electric start gasoline or diesel engines. This model has 2-speed hydrostatic traction which allows the machine to turn on a dime and be operated on any paved surface. Hydraulic oil drives the water pump and extra wide 48" diameter-brush.

A custom trailer allows distributors and contact washers to transport this and other suitably equipped Wash-Bots models to be used for demos or contract cleaning. Setup time takes only 5 minutes.

Technical Features

Power supply	Gasoline/Diesel
Engine power	7 HP (4.5 kW)
Traction power supply	Hydraulic
Brush rotation power supply	Hydraulic
Brush Inclination	0° - 10°
Weight Empty	926 lbs. (420 kg)
Weight Loaded	1984 lbs (900 kg)
Standard brush diameter	41" (1030 mm)
XL brush diameter	48" (1220 mm)
Water tank capacity	98 Gallons (370 L)
Brush Rotation	100 RPM
Washing speed	0-112 ft./min (20 m/min)
Base Size	42" x 48" (107cm x 122 cm)
Overall Height	8-15' (240-440cm)
Effective wash height	8-15'*
Standard Brush Fiber	UV resistant, feathered polyethylene

* 13'6" wash height in stock. Custom wash heights available.
