

In business since 1988, Bitimec has pioneered the field of mobile washing machines for on-road and on-rail vehicles. We make more models and sell more machines than all of our competitors combined!

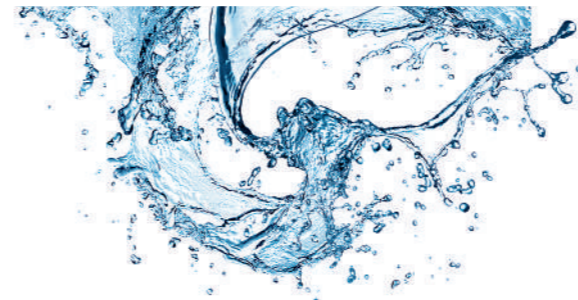

Our cost effective mobile machines are designed to make jobs easier and faster while using far less labor, water and time than conventional methods.

No matter what you need to wash, we will offer you the easiest solutions on the market, affording you the fastest ROI.

Diesel Powered

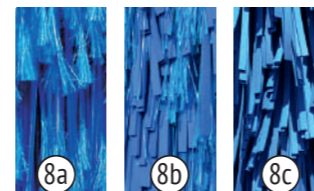

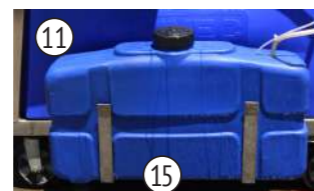

Wash Bots A225 EZ

The brand new, faster, top-of-the-line machine all operators will love! The EZ Drive 4WS (Easy Drive four wheels steering) A225 makes washing vehicles easier than ever, and faster than ever. An absolute innovation in single-brush bus and truck washing, the integral extra-smooth steering system includes central drive wheel, four steering wheels, and two full-function steering controls. The interaction of these components provides absolutely smooth steering with total control of the machine in both directions, allowing this model to wash better and faster than ever.

- 1 Two full-functioning push-button EZ controls for safe working in two directions. Keeps operators dryer.
- 2 Stainless-Steel frame and base with lifetime warranty.
- 3 Patented Brush-Only inclination system.
- 4 Easy quick removable plastic nozzles.
- 5 Quick disconnect couplings.
- 6 Kohler® 7hp Diesel engine.
- 7 Height adjustable stainless steel spray pipes.
- 8 Three types of brush fibers: 8a – Polyethylene, 8b – Hybrid, 8c – All-Foam.
- 9 Custom height fabrication.
- 10 Patented center mounted traction wheel.
- 11 112 gal. rinse water tank.
- 12 Heavy-duty double bearing 8" caster wheel with grease fitting.
- 13 Engine control panel with hour meter and warning lights.
- 14 EZ-Drive 4 wheel steering.
- 15 All machines available with nebulizing or dema-venturi soap systems.

Technical Features

Power supply	Diesel
Engine power	7 HP (5 kW)
Traction and steering	Central motorized wheel and rudder control steering
Brush Inclination	0° - 10°
Inclination system power supply	Electric 12V
Brush Rotation power supply	Hydraulic
Traction system	Hydraulic
Weight Loaded	2024 lbs. (918 kg)
Weight Empty	1100 lbs. (500 kg)
Overall height	8-15' (240-440cm)
Wash height	8-15' *
Base size	41" x 48" (107cm x 122 cm)
Brush diameter	41" (105cm)
Water tank capacity	112 gallons (424 L)
Brush RPM	100
Washing/travel speed	0 - 112 ft/min (20 m/min)
Brush Standard	UV resistant, feathered polyethylene brush
Brush Bus-Lite	Closed-pore foam
Brush Hybrid	50/50 mixture of standard and bus-lite
Brush Custom	Custom brushes made to order

* 10'10"-12'6"-13'6" wash heights in stock. Custom wash heights available.
