

SECURING THE 2026 MIDTERM:

The President Needs Proof of Widespread Illegal Votes

Realamerica.Vote Has the Evidence:

1. Synthetic Identity Fraud in registration and votes counted
2. Address Fraud in votes counted
3. SSN Fraud in votes counted
4. Votes counted with no voter

RealAmerica.Vote has sampled fraud in elections ranging from 7.9% (Westchester County, NY 2024) to 21.1% (Orange County, CA 2024).

Confirmed fake identities being allowed to vote in massive numbers is the evidence the President needs to shut down fake elections and save America.

Realamerica.Vote Will Pull 10,000 Fake Voters from Certified Elections in Three Stages:

1. PROOF OF CONCEPT

- a. This stage runs mail-in voters against all voters to detect differences in synthetic identity fraud rates by cohort
- b. 3,000 identities will be "run to ground"
- c. Completion in one week
- d. **\$250,000 fulfillment need.**

2. AUTOMATION STAGE

- a. This stage tests automation code against human analysis to detect result gaps, cutting costs for the final stage
- b. Approximately 30,000 identities will be examined
- c. Expected pull of 1,200 fake voters and 1,800 additional fake votes
- d. Completion in ten days
- e. **\$850,000 fulfillment need**

3. FULL STUDY

- a. 250,000 identities will be verified
- b. Expected pull of 10,000 fake voters and 15,000 additional fake votes
- c. Completion in three weeks
- d. **\$4 million fulfillment need**

This giant *statistical* study will be used to mandate Voter ID and other critical reforms on an emergency basis, ***if we start NOW.***

RealAmerica.Vote is the leader in analyzing & litigating voter roll data against Civil Rights law, National Security anchors, the US Constitution, and Supreme Court rulings. Our framework threads the challenging needle of emergency Executive authority over elections.
