

Thank you to all the supporters and donors who have made our mission to support the Franklin Township area eateries and the Front Line at the New Brunswick hospitals possible. We appreciate your generosity more than you can imagine, and your suggestions are always noted and taken into consideration.

FLAG of Somerset strives to support as many neighborhood restaurants and Front Line personnel as our funding will allow. The equitable distribution of the meals that we arrange to have delivered is left to the discretion of the hospital staff, in an effort to focus on the area they feel has the greatest need. We also schedule donations according to the available times that we are given at each hospital.

The hospital staff members that we have been blessed to work with during these trying times have an enormous amount of scheduling needs to consider. These amazing men and women have been coordinating various donations not only from FLAG of Somerset, but also from numerous businesses, groups, and individuals.

So rest assured in knowing that everyone is in this together, doing their best to nourish as many members of the Front Line as possible.

Thank you and stay safe!
