

Turn Your Wedding Into The Dance Party of a Lifetime!

The Experience You Need To Create a Lifetime of Memories

As a former major market morning radio personality Bob Reid brings unparalleled music experience to your wedding. His music knowledge comes from years of experience on the radio actually playing the music you'll dance to at your wedding reception.

An Important Word On Our Music Versus Other DJ Services

We have access to literally millions of songs and therefore we survey you and your guests in advance to fully customize your dance sets in recognition of your guests music requests.

Many other DJ services only have a limited music library, so they may not have all the music you want for your wedding. DJ Entertainment Services has an unlimited music library from just about any music genre you care to name, so on your special day you'll be rockin' the dance floor to *all the music from any genre* and we'll customize all your dance sets to play *all the new music, current hits, hip-hop, rap, house, country, rock, pop, R & B, Motown, Soul and Rock & Roll* we can fully customize your dance sets to get you and your guests rockin' the dance floor all night long.

Our goal is to create magical wedding memories for years to come. So what are you waiting for, call us to put your wedding in the hands of the DJ and music professionals: DJ Entertainment Services.

Special Offer From DJ Entertainment Services ... FREE Wedding Upgrade!

Just Book Any of Our Packages & You'll Get a FREE Upgrade To The Next Package
