

## Candidate Questionnaire

1. What is the purpose of education?
2. What do you believe the role of the Federal government should be in education?
3. Explain your knowledge of the Common Core Standards.
4. What is your opinion regarding current standardized testing practices?
5. Do you support School Choice? Please explain your answer.
6. What would you say is the number one problem facing public schools and what would you do to address this problem?
7. Do you think curriculum content in schools should be nonideological? If so, do you think curriculum is nonideological for most of the schools in your state? Please provide a few examples to support your position.
8. What education legislation, if any, do you think needs to be proposed and passed?
9. Before you propose or co-sponsor education legislation, who would you consult for advice?
10. Do you support the election, or the appointment of the State Superintendent of Education? Please explain your answer.
11. Would you support tax increases to provide more funding to local school districts? Why or why not?
