***USPIE* awards California Governor Gavin Newsom with December's Millstone of the Month**

'Nefarious fiends in government realized decades ago that the best way to enact widespread indoctrination across America is to radicalize the nation's children'

COLUMBIA, S.C. — As the government looks to tighten its grip on the nation's schools — and its children — many state legislatures are following suit, much to parental displeasure. *United States Parents Involved in Education (USPIE)* announced that the "[Millstone of the Month Award](#)" for December goes to California Governor Gavin Newsom for [signing Assembly Bill 1078](#). This bill allows complaints to be filed directly with the State Superintendent of Public Instruction against local educational agencies rather than leaving local school districts to investigate complaints and concerns themselves. Many parents are concerned about increased government interference in local schools, disrupting day-to-day education and inserting unsavory educational models.

For parents looking to assert their God-given parental authority when it comes to their children's education, *USPIE* has powerful resources that equip concerned citizens to fight back against indoctrination happening in government schools. *USPIE's* latest film, "[Truth & Lies in American Education](#)," uncovers what is actually being taught inside government schools, such as critical race theory, Marxist ideology, and anti-American ideals.

"Nefarious fiends in government realized decades ago that the best way to enact widespread indoctrination across America is to radicalize the nation's children," said Sheri Few, USPIE president and founder. "Since then, the government has been working diligently to attack this country's ideals through its children. The only difference now is that they aren't really trying to hide it anymore. Policies and bills like this one in California are just the tip of the iceberg as government officials — both federal and state — attempt to wrest control away from local authorities. These politicians don't know what is best for other people's children! They need to get out of the way and restore parental and local control of education."

Few has been on the forefront of the fight for educational reform for decades and has been one of the most passionate voices for parental and local control against. "[Truth & Lies in American Education](#)" actually follows *Few's* own daughter-in-law, April, as she learns about the horrors of the American school system. "[Truth & Lies in American Education](#)" addresses questions such as:

- Are standardized tests being used for data collection?
- Is there a federal education scheme to control the nation's economy?
- Why is the study of history so often anti-American and anti-Christian?
- Are children being taught to become political activists?

- What is the true aim of “comprehensive” sexuality education?
- How much transgender influence is there in government schools?
- What about critical race theory and the 1619 Project?

“[*Truth & Lies in American Education*](#)” is available for streaming on [SalemNOW](#), as well [available on DVD](#). For more information about “*Truth & Lies in American Education*,” [click here](#).

United States Parents Involved in Education (USPIE) is a nonprofit, nationwide coalition that seeks to return education to its proper local roots and restore parental authority over their children’s education by helping parents and local communities to escape federal and other national influences. It is the vision of *USPIE* to create a culture where parents, empowered with the authority to choose what and how their children learn, are the undisputed primary educators of their children, where local schools operate in support of families, and where education is unencumbered by federal mandates.
