***USPIE* awards March Millstone of the Month to program leaders of an LGBTQ program operating in Dallas schools without consent**

*“Teachers should be focused on educating their students with age-appropriate curriculum, not becoming ‘allies’ in a war against basic biology,” says **USPIE Founder Sheri Few***

COLUMBIA, S.C. — An LGBTQ program in the Dallas region has been caught [working with district schoolteachers without consent](#) from Dallas Independent School Districts (ISD) officials. The Out for Safe Schools program is designed to connect teachers with a transgender-affirming clinic called the Resource Center and educate them on how to be “allies” to trans-identifying students. Despite an initial conversation about a partnership, no agreement was ever signed by ISD officials, making the program’s presence in the district highly inappropriate and unwarranted.

This extreme overreach is a prime example of the underhanded programming happening in government schools. This is the reason *United States Parents Involved in Education* ([USPIE](#)), a leader in the fight for parental rights and government removal from education, awards the March [“Millstone of the Month Award”](#) to the Out for Safe Schools program leaders Mahoganie Gaston and Rafael McDonnell. The Millstone of the Month Award is given to the person or organization involved in government schools who has committed the most egregious acts against children.

*“The fact that these programs even exist in government schools is bad enough, but now they are even appearing without the districts’ consent,” said **USPIE Founder and Executive Director Sheri Few**. “This underhanded attempt to indoctrinate teachers and students with the LGBTQ agenda reveals how depraved these activists truly are. Teachers should be focused on educating their students with age-appropriate curriculum, not becoming ‘allies’ in a war against basic biology. Even as we fight to end the horrors happening in government schools, parents must remain a step ahead and remove their children from this insidious influence.”*

For parents wondering how to save their children from the toxic propaganda in government schools, *USPIE* offers powerful resources that equip concerned citizens to fight back against indoctrination happening in government schools. *USPIE*'s latest film, "[Truth & Lies in American Education](#)," uncovers what is being taught inside government schools, such as critical race theory (CRT), Marxist ideology, and anti-American ideals. "[Truth & Lies in American Education](#)" actually follows *Few*'s own daughter-in-law, April, as she learns about the horrors of the American school system. "[Truth & Lies in American Education](#)" addresses questions such as:

- Are standardized tests being used for data collection?
- Is there a federal education scheme to control the nation's economy?
- Why is the study of history so often anti-American and anti-Christian?
- Are children being taught to become political activists?
- What is the true aim of "comprehensive" sexuality education?
- How much transgender influence is there in government schools?
- What about critical race theory and the 1619 Project?

"[Truth & Lies in American Education](#)" is available for streaming on [SalemNOW](#), as well [available on DVD](#). For more information about "[Truth & Lies in American Education](#)," [click here](#).

United States Parents Involved in Education (USPIE) is a nonprofit, nationwide coalition that seeks to return education to its proper local roots and restore parental authority over their children's education by helping parents and local communities to escape federal and other national influences. It is the vision of *USPIE* to create a culture where parents, empowered with the authority to choose what and how their children learn, are the undisputed primary educators of their children, where local schools operate in support of families, and where education is unencumbered by federal mandates.
