# **USPIE's November Millstone of the Month goes to a Florida teacher for proclaiming that parental rights are “gone” in government schools**

*As the government goal to brainwash children becomes even more clear, USPIE urges parents to protect their children and remove them from harm’s way in America’s schools*

**COLUMBIA, S.C. —** *United States Parents Involved in Education (USPIE)* awards the November [Millstone of the Month Award](#) to Jenna Barbee, [a Florida teacher](#) who declared that parental rights are “gone” in government schools, arguing that parents who send their children to government schools surrender their rights to teachers and the system. Parents across the nation are growing increasingly afraid of the tragic truth — government schools no longer have student (and parents) best interests at heart. This negligence is happening both on a national and regional level, with reports of [teachers covering up the infiltration of critical race theory](#) (CRT) in their classrooms despite pledging to teach standard curriculum.

Despite these horrifying realities, parents do not have to give up their rights to the government agenda. **USPIE** has been leading the fight for parental rights for decades. Parents should never surrender their children to a system that is designed to brainwash them, according to **USPIE Founder and President Sheri Few**.

**“Parents are the ultimate authority over their children,” said Few. “Government schools and teachers are brazenly indoctrinating students while parents are unsure of how to save their children. The answer is simple — remove your children from**

***government schools! They can't brainwash your kids if they don't have access to them. However, many parents are unsure of how to start."***

To educate and empower parents on how they can exert their parental rights, **USPIE** recently released a documentary, "**[Truth & Lies in American Education](#)**." To address some of the most glaring issues in the American education system and equip parents to make a change in their local school district, **USPIE** dove into the toxic propaganda being taught to America's children through the eyes of **Few**'s own daughter-in-law, April.

The **[Millstone of the Month Award](#)** is a monthly recognition of an individual who is actively working to deceive, indoctrinate, or negatively impact children with leftist, anti-God propaganda. The name of the award is taken from Matthew 18:6, which says, "Whoever causes one of these little ones who believe in me to sin, it would be better for him to have a great millstone fastened around his neck and to be drowned in the depth of the sea."

***"There is no denying that America's students are under attack. Government officials aren't even attempting to cover up their subterfuge anymore. Parents must look out for the welfare of their children before it's too late. If we don't work to re-establish parental control over our own children, the future of America will be lost to the liberal agenda," said Few.***

"**[Truth & Lies in American Education](#)**" addresses questions such as:

- Are standardized tests being used for data collection?
- Is there a federal education scheme to control the nation's economy?
- Why is the study of history so often anti-American and anti-Christian?
- Are children being taught to become political activists?
- What is the true aim of "comprehensive" sexuality education?
- How much transgender influence is there in government schools?
- What about critical race theory and the 1619 Project?

"**[Truth & Lies in American Education](#)**" is available for streaming on **[SalemNOW](#)**, as well **[available on DVD](#)**. For more information about "***Truth & Lies in American Education,***" **[click here](#)**.

***United States Parents Involved in Education (USPIE)*** is a nonprofit, nationwide coalition that seeks to return education to its proper local roots and restore parental authority over their children's education by helping parents and local communities to escape federal and other national influences. It is the vision of **USPIE** to create a culture where parents, empowered with the authority to choose what and how their children learn, are the undisputed primary educators of their children, where local schools operate in support of families, and where education is unencumbered by federal mandates.
