***USPIE* awards North Dakota Superintendent Dr. Rupak Gandhi with May's Millstone of the Month**

'The Millstone of the Month Award' is given to individuals actively working to negatively harm children with woke propaganda

COLUMBIA, S. C. — *United States Parents Involved in Education's (USPIE)* announces that the "[Millstone of the Month Award](#)" for May goes to North Dakota's Fargo Public Schools Superintendent [Dr. Rupak Gandhi](#) for bypassing state law prohibiting schools from keeping families in the dark about students' gender identities. The Millstone of the Month is a monthly recognition of an individual who is actively working to deceive, indoctrinate, or negatively impact children with leftist, anti-God propaganda. The name of the award is taken from Matthew 18:6, which says "Whoever causes one of these little ones who believes in me to sin, it would be better for him to have a great millstone fastened around his neck and to be drowned in the depth of the sea."

Dr. Gandhi is facing serious backlash from local parents for his anti-parent approach towards education. Gandhi also cited perceived conflict between state and federal law on the issue, arguing the district should continue to advocate for students who identify as transgender. "We will not openly out any student because of one law if we know that that's going to cause harm to that child," Dr. Gandhi said recently, causing many parents to realize the tragic truth — America's government education system is actively looking to undermine and remove parents from the lives of their own children.

"This month's Millstone Award recipient is well-deserved," said USPIE Founder and President Sheri Few. "Dr. Gandhi clearly believes that he knows these children better than their parents. Government schools have been trying to oust parents out of their own child's education for years, but this superintendent is openly flouting the law in his quest for a 'woke' badge of honor. What sort of precedent is he setting for the children in the district he represents — that the law can be disregarded on a whim? The law is the law for a reason, and it is not up to individuals to pick and choose what they will follow.

"Educators who don't have either the child or the parent's best interests at heart must be removed from government schools before it is too late."

USPIE's feature film, "[Truth & Lies in American Education](#)," uncovers the tragic truth about America's education system. Today's children are being indoctrinated by critical race theory, explicit sexual education, anti-American ideologies, and Marxism — all without the permission or knowledge of their parents. "[Truth & Lies in American Education](#)" delves into the toxic propaganda being taught to America's children and gives concerned parents and citizens the tools necessary to impact meaningful change right at the heart of America's schools.

“Truth & Lies in American Education” is available for streaming on [SalemNOW](#), as well [available on DVD](#). For more information about ***“Truth & Lies in American Education,”*** [click here](#).

United States Parents Involved in Education (USPIE) is a nonprofit, nationwide coalition that seeks to return education to its proper local roots and restore parental authority over their children’s education by helping parents and local communities to escape federal and other national influences. It is the vision of ***USPIE*** to create a culture where parents, empowered with the authority to choose what and how their children learn, are the undisputed primary educators of their children, where local schools operate in support of families, and where education is unencumbered by federal mandates.
