

SECURE COMMUNICATIONS

Automated Precinct Reporting

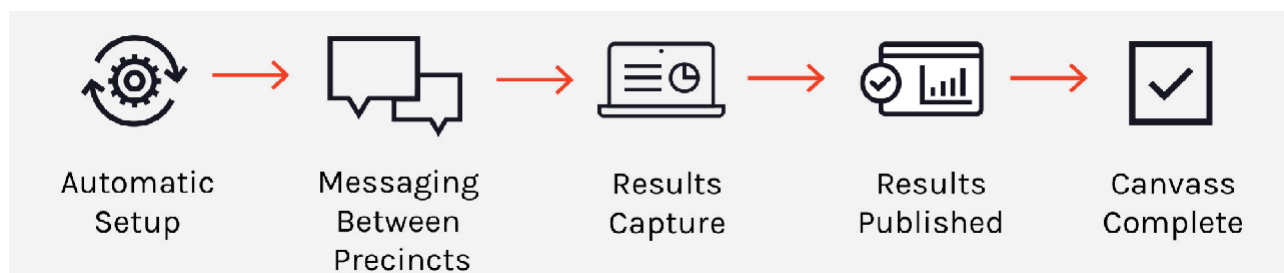

The Calvacere Precinct Reporting solution automatically delivers information directly from Precincts and Vote Centers to Election Central and public websites.

DELIVER RESULTS WITH A MOBILE DEVICE

Leveraging our proprietary technology to blueprint pdf ballots, our Precinct Reporting solution produces results in ballot order, reducing reporting time and increasing accuracy. And, poll workers can quickly share results electronically using mobile devices.

HOW IT WORKS

DRIVE SPEED & ACCURACY

The power of our platform is rooted in our proprietary technology to automate any election. Managed controls allow you to ensure all voting locations provide accurate, speedy, reliable results, eliminating human error.

AN END-TO-END REPORTING SYSTEM

Our combined solutions create a complete system for collecting and publishing accurate election results.

ELECTION STAND-UP

Automated contest and candidate creation, and election channel integration.

PRECINCT COMMUNICATION

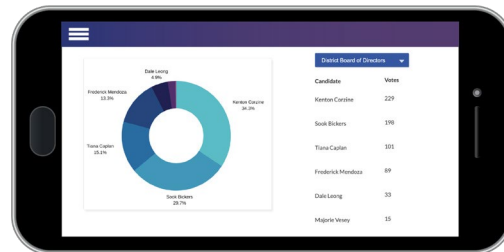

Continuous messaging, election results, and dashboard controls.

ELECTION NIGHT REPORTING

Accurate election results shared in real time from the precinct to the web.

CENTRAL DASHBOARD

An intelligent dashboard provides real-time information on every precinct or vote center during the election cycle. Integrated controls allow officials to manage data, workflows, and publication all in one place.

360 SECURITY

Calvacere has invested heavily in policy-based automated deployments built on best practice security principles. This is complemented by full audit capability and 24/7/365 continuous monitoring of event data from systems, environments, and leading security tools.
