

POLLING STATION MANAGEMENT, SIMPLIFIED

Electronic Polling Station

ePollTAB the Calvacere Polling Station Manager is a complete polling station management system that empowers poll workers through every step of the voting process – tailored to each jurisdiction's rules, systems, and capabilities. It's a simple, modern secure solution for ensuring the election runs smoothly.

HOW IT WORKS

CAPABILITIES

WORKFLOW

- Custom Workflow Engine
- Ballot On-Demand
- Real-Time Messaging
- Real-Time Alerts
- Same-Day Registration
- Integrated Support
- Hardware Agnostic

VETTING

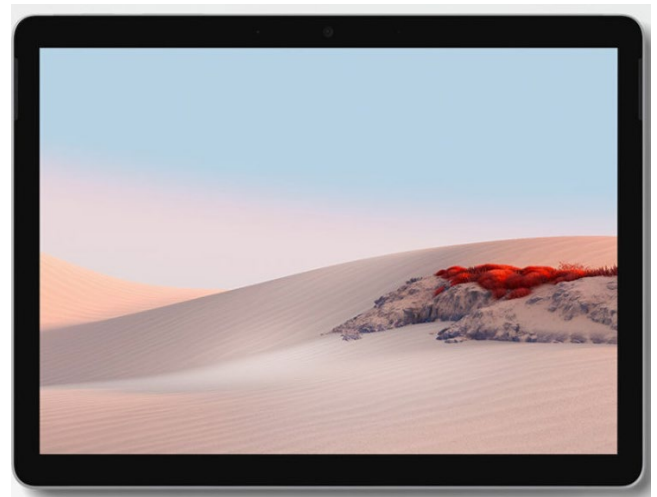

- Voter Authentication
- ID Scan and Verification
- Database Integration
- Signature Capture & Compare
- Address Verification

DATA SHARING

- Instant Synchronization
- Real-Time Analytics
- Intelligent Dashboard
- Custom Reports

A CUSTOMIZABLE EXPERIENCE

A versatile workflow engine allows jurisdictions to create custom check-in experiences and exit polls. An intelligent dashboard makes it easy to analyse wait times, voter turnout, and much more – in real time.

SYNCHRONIZED IN REAL TIME

Data from each device in the secure network is instantly shared with all others – across the entire jurisdiction. This real-time synchronization allows for unprecedented levels of efficiency, authentication, recovery, and analysis.

KEY FUNCTIONALITY & FEATURES

Scalable: Ideal for individual polling locations and entire county/ metropolitan boroughs, unitary authorities alike.

Adaptable: Easily accommodates legislative changes.

Compatible: Has an open API and runs on any device and operating system.

Customizable: Able to meet the unique rules and requirements of any jurisdiction.

Configurable: Allows for a variety of user-configured workflows and reports.

Accessible: Meets current Web Content Accessibility Guidelines (WCAG) and is continuously tested to ensure ongoing disability compliance.

SECURITY IS CENTRAL

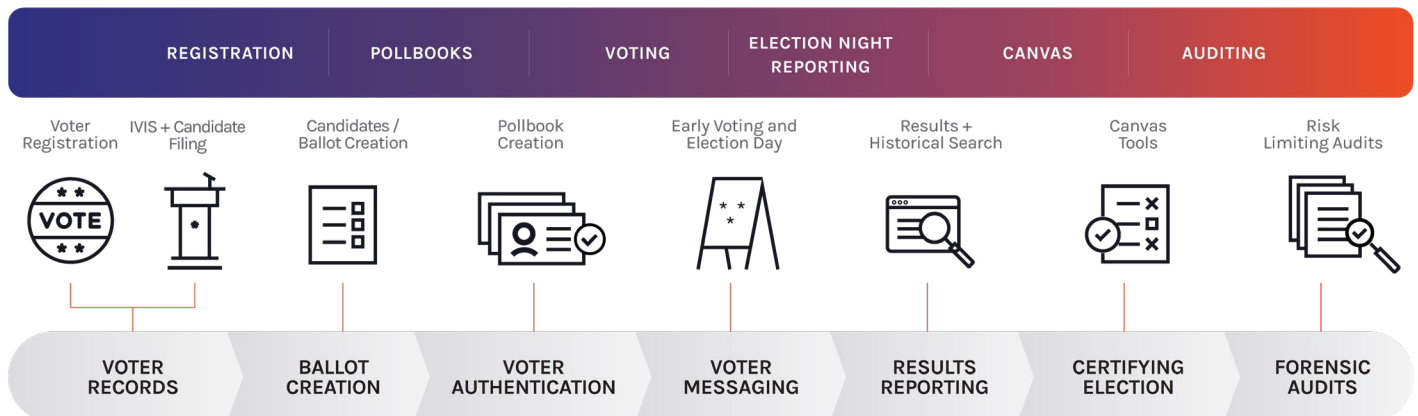

Security is at the center of our e-Pollbook solution's architecture, which includes multiple layers of security that must all work together to operate. This is complemented by full audit capability and 24/7/365 continuous monitoring.

SECURE CLOUD ENVIRONMENTS

We offer our technology products on cloud regions designed to host sensitive data, and regulated workloads, and address the most stringent U.K. government security and compliance requirements.

Powering the Election Process

THE CALVACERE E-POLLTAB IS PART OF OUR SUITE OF MODULAR SOLUTIONS THAT COMBINE TO CREATE AN END-TO-END ELECTION MANAGEMENT SYSTEM.
