

Oppenheimer Science and Energy Leadership Program

2023 Schedule of Activities

Oppenheimer Science and Energy Leadership Program

2023 DRAFT SCHEDULE OF ACTIVITIES

Schedule Overview

Oppenheimer Fellows participate in a year-long series of site visits at the National Labs and DOE, covering the spectrum of DOE's missions and operations. Participants also collaborate on the development of "think-pieces" aimed at tackling major organizational, policy, scientific other challenges confronting the entire National Lab system.

The 2023 OSELP schedule of activities will consist of a hybrid approach to site visits, Cohort meetings, and other program activities. For in-person site visits, Cohort members generally arrive at the destination on Sunday and depart in the mid-afternoon on Friday.

Candidates shall commit to full participation in one or both of the following schedules (Cohort 6A and Cohort 6B, below) in their nomination packages. Circumstances may require modifications to the schedules. In such cases, it is understood that Fellows may not be able to participate due to pre-existing conflicts.

If only one of the following schedules is suitable for a candidate, the submitted materials should make this clear. Once admitted to the program, a Fellow will be assigned to one of these schedules.

See below for the 2023 OSELP Schedule of Activities.

OSELP 2023 Schedule of Activities

Cohort 6: Group A Schedule

Week Of	M	T	W	TH	F
1/22/2023	Full Cohort 6 Kick-Off Meeting and Site Visit 1: Groups A and B
