

OPPENHEIMER SCIENCE AND ENERGY LEADERSHIP PROGRAM

Cohort 6

**"Good people from diverse fields
working together can make major
scientific discoveries that are
denied geniuses working in
isolation."**

- Alvin Weinberg, Director, ORNL

OSELP NLDC CAPSTONE

Achieving “big science” requires people trusting people, embracing innovation and diversity

Agenda

Panel 1: Mission and Operations

Break

Panel 2: People

Why now? What is different?

Urgency

- ❖ NNSA weapons modernization
- ❖ OCED timelines

DOE Interest

- ❖ NNSA initiation of EMDI
- ❖ FY24 LOB initiative

Recent Progress

- ❖ Lab response to EMDI
- ❖ RWG, HR Benefits Toolkit

Recommendation 1 (already started)

Work with the NLDC/LOB to summarize what DOE/labs have done in response to previous reports to address inefficiencies:

What worked, what didn't, and why?

Why now? What is different?

Urgency

- ❖ NNSA weapons modernization
- ❖ OCED timelines

DOE Interest

- ❖ NNSA initiation of EMDI
- ❖ FY24 LOB initiative

Recent Progress

- ❖ Lab response to EMDI
- ❖ RWG, HR Benefits Toolkit

Many staff don't fully understand the FFRDC model

Recommendation 2

Work with the NLDC/LOB to organize a workshop with lab and federal staff to discuss recommendation 1 findings, continue momentum

Generative AI Driven Operational Excellence Across the National Lab Complex

Amanda Stegen (PNNL), Katya Le Blanc (INL), Emily Smith (Ames), Bert de Jong (LBNL), Stefan Vogt (ANL), Teresa Baily (LLNL), Michelle Slovensky (NREL), Andres Castaneda (PPPL), Joe Stoffa (NETL), Mark Barnes (SRNL), Moises Smart (SLAC), Marianne Francois (LANL)

DOE Organization Challenge

Major innovations must take place this decade to bring new technologies to market in time so DOE must replicate **TEAM SCIENCE** to approach audacious challenges

Industry needs access to entire laboratory complex

Productive integration of all DOE Program areas are critical

The Proposal

Accelerate maturity of technologies and adoption through evolved governance structures, utilizing the real-world settings of National Lab campuses with signature capabilities in partnership with industry.

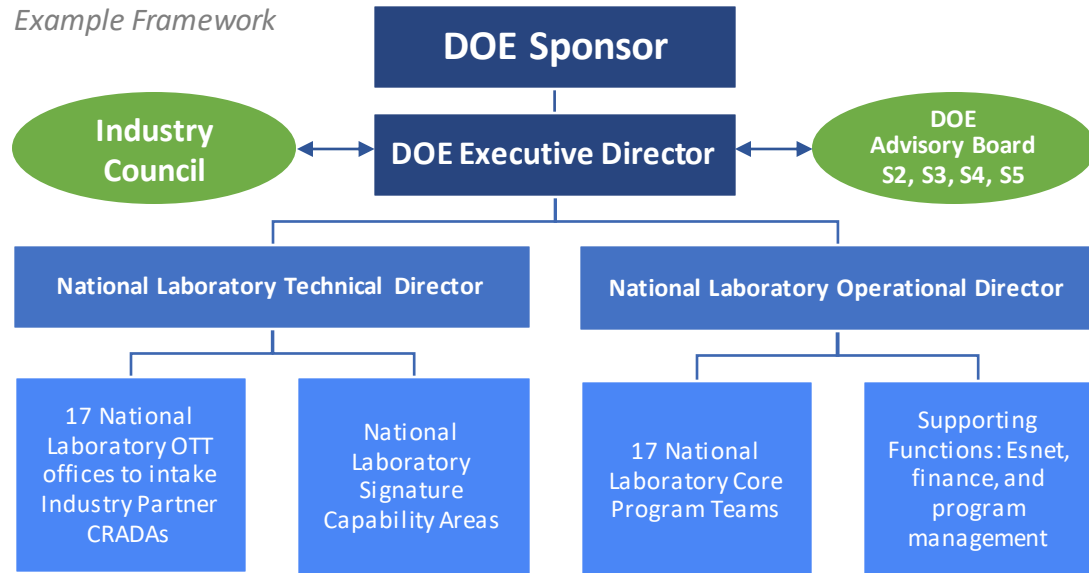

- Connected Virtual Test-Beds for technology proving grounds
- Improve pace of innovation by addressing integration and operational issues earlier and at lower cost
- Supports RD&D activities outline by BIL/IRA, CHIPS, 2023 Consolidated Appropriations, and Energy Act of 2020

Governance Structure

- Program Agnostic
- Bridge to connect DOE Complex challenges
- Testbed spans multiple mission sectors
- Conducts efficient process for use of assets
- Accelerates awarding and conducting the work

Example Framework

Host a Workshop

Bridge the 4 DOE Program Offices to deliver impact

- **Governance Structure**

Explore typology framework

- **Mission Use Case**

Identify a working group for pilot

- **Partnership Vehicle**

Create umbrella CRADA

- **Industry Access**

Socialize patent R&D library

- **Collaboration**

Apply change management approach

NLDC Ask: Approval to convene a working group to create vision and agenda to facilitate workshop with DOE

Mission and Operations Integration

Reimagining the Implementation of the FFRDC Model

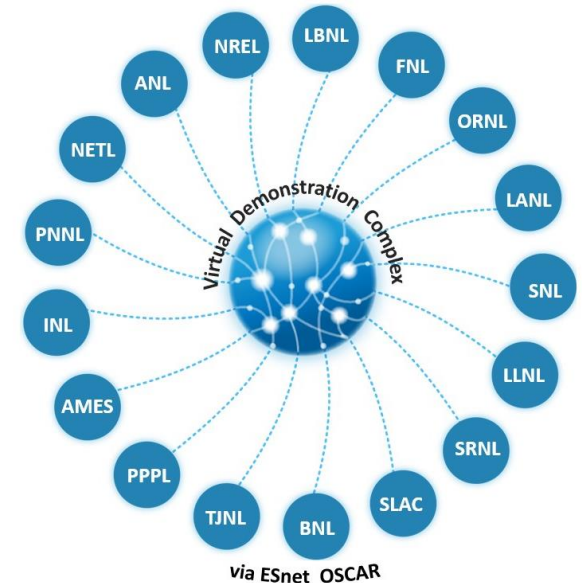

- ❖ Recent efforts to improve FFRDC model
- ❖ What worked? What didn't, and why?
- ❖ How to encourage broader adoption
- ❖ Workshop with NLDC / LOB on ideas

Generative AI Driven Operational Excellence Across Nation Lab Complex

- ❖ Harness AI for mission
- ❖ Operational focus
- ❖ Create Community of Practice

Governance to Accelerate CLEAN Energy RD&D

- ❖ Virtual test beds
- ❖ Leverage complex
- ❖ Straw governance model
- ❖ Workshop to explore

Panel 2: People

Moderator, Emily Smith (AMES)

Spotlight, Lorena Basilio (SANDIA)

Discovering the National Laboratory Ecosystem (where you fit in the complex)

Mark Barnes (SRNL), Christian Petrie (ORNL), Lori Basilio (SNL), Bert de Jong (LBNL), **Daniel Stephens (PNNL)**, Emily Smith (AMES), Josh Schaidle (NREL), Ale Hakala (NETL), Barbara Harrison (PPPL)

Future of Work Reinvented

National Lab Values

Panel 2: People

Foster a culture that supports a sense of belonging for everyone in the national laboratory complex to generate a competitive advantage by:

Putting diversity, equity, inclusivity and allyship at the forefront in all that we do

Adapting to the needs of today's workforce

Personalizing the importance of everyone's role in mission achievement.

Panel 2: People

Moderator, Emily Smith (AMES)
Spotlight, Lorena Basilio (SANDIA)

Discovering the National Laboratory Ecosystem (where you fit in the complex)

Mark Barnes (SRNL), Christian Petrie (ORNL), Lori Basilio (SNL), Bert de Jong (LBNL), **Daniel Stephens (PNNL)**, Emily Smith (AMES), Josh Schaidle (NREL), Ale Hakala (NETL), Barbara Harrison (PPPL)

Use Cases

Connecting OSELP Alumni—Marlo Maxson (SNL)

Strategic Action Network—Alexandra Hakala (NETL)

Strategic Peer Review—Colin Judge (INL)

Connecting OSELP Alumni

*Presented by Marlo Maxson
on behalf of Cohort 6*

Goal: Collectively address emerging challenges; share best practices; support the priorities of the NLDC and DOE; and leverage, sustain, and advance trusted relationships that have been built within OSELP.

Benefits

- **Bringing leaders together** – Share best practices, lessons learned, and identify opportunities.
- **Access to experts** – Increases awareness of OLN experts.
- **Support NLDC's committees**
- **Accelerates the success of lab-directed or lab-funded leadership initiatives.**

Activating the Oppenheimer Leadership Network (OLN) Expertise

Continue to promote and mature the Oppenheimer Leadership Network that was established in 2019.

- Develop a plan for future collaboration with the OLN and other leadership program.
- Establish a comprehensive skills list.
- NLDC Subcommittees share their annual priority list.
 - Connects current and former think pieces
 - Provides feedback on their priorities

Sustaining the DOE-Lab Complex Collective Brain Trusts

Strategic Action Network

How do we play offense against unexpected technology disruption or events?

Alexandra Hakala on behalf of OSELP Cohort 6 Think Piece

Framework for the DOE S.A.N.

Complete a stocktake of the S.A.N. response framework to determine the readiness level of response to future disruptive events

Immediate Decisions

Is it a “black swan” ?

Identify management team

Align Networks (OLN!)

Funding & Authorization

Active S.A.N.

Information Sharing Capability at All Levels

Developing SME team across DOE

Collaboration beyond DOE

Utilizing S&T Resources

Provide input for short term guidelines

Long-Term Considerations

IP Protection

Liability Protection (Methods & Results)

Establish Longer-Term Working Group

Exercise capability with simulated disruptive event/technology

Opportunity to leverage disruptive technology for positive benefit

Leveraging OSELP Alumni: Pilot a Strategic Peer Review

Colin Judge on behalf of OSELP Cohort 6 Think Piece

Pilot Strategic Peer Review: Data for Decisionmakers

Why a Strategic Peer Review (SPR)?

- ✓ Leverages Existing Framework (Battelle Continuous Commissioning Review)
- ✓ Provides early review of new mission or expanded mission area
- ✓ Complements other assessments, audits, and external advisory committees
- ✓ Delivers broad DOE National Laboratory perspective

Identifies blind spots and opportunities

Provides supplementary data needed to make strategic decisions and investments

Strategic Peer Review Approach: Focused on Mission Areas

Proposal

Requesting Laboratory:

- Specifies focus areas
- Selects team
 - ✓ Tailored to meet specific need
- Team observations & recommendations provided
 - ✓ No findings or required action
 - ✓ Can inform investment planning

Leverage & Engage Alumni

- Unique expertise
 - Ecosystem
- New perspectives

Accelerate Mission
Outcomes

“Big science”
is
People trusting people while embracing innovation and diversity

A word cloud featuring various terms in different colors and sizes. The most prominent words are 'mission' (red, largest), 'challenges' (blue, large), 'people' (yellow-green, large), and 'leadership' (red, large). Other visible words include 'relationships', 'science', 'unique', 'network', 'trust', 'passion', 'breadth', 'opportunity', 'appreciation', 'grateful', 'incredible', 'amazing', 'impact', and 'relationships'.

grateful
relationships leadership
impact science people incredible
unique trust. passion. breadth
