

VIRTUAL CARE

Improve Your Health. Control Your Care. Save Your Money.

Virtual Care gives you 24/7 access to your care team made of doctors, nurses and health advisors. It helps you to improve your health, control your care and reduce your medical expenses.

HOW IT WORKS

Improve Your Health

Our program efficiently collects intelligent health data, designs your desired health road map, and personalizes your health management.

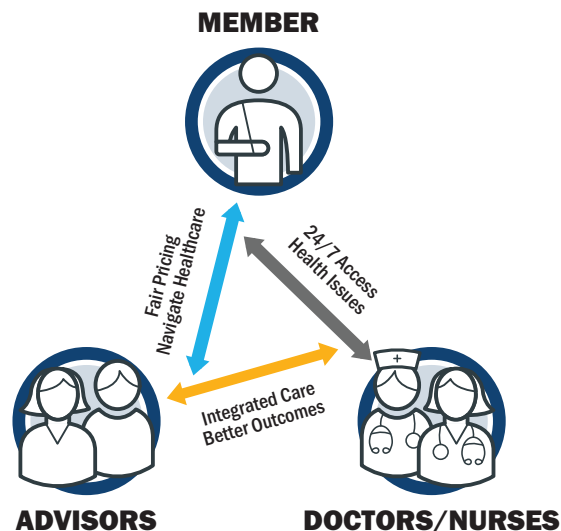

Control Your Care

Our program makes it possible for you to get what you need, when you need it and how you want it. Video appointments, electronic prescriptions and medical advice 24/7 through your personal device keep you in control of your care.

Save Your Money

Unnecessary medical services and unreasonable medical bills drain your budget. Our advisors save you money by helping you with shoppable services that make up the majority of your in-patient and out patient needs.

24/7 VIRTUAL ACCESS

Your care team can be accessed by phone or smart device. Your medical records are always available.

- Video Appointments
- Secure Messaging
- Centralized Electronic Medical Records
- Electronic Prescriptions
