AiRIS

AI-POWERED PROCUREMENT HUMAN-LED RESULTS

AiRIS is a commercially available, government -ready acquisition platform built by seasoned contracting officers, procurement analysts, and policy advisors.

COMPANY OVERVIEW

AiRIS is an AI-powered procurement platform designed for government and regulated industries. Built by acquisition experts, it automates intake, clause mapping, and compliance workflows — combining smart technology with real human support to streamline pre-award processes and reduce risk.

WHAT IS AIRIS?

Built by Acquisition Professionals. Refined by Use.

AiRIS (Artificial Intelligence for Responsible & Integrated Sourcing) is a powerful, ready-to-deploy platform that transforms the full intake-to-submission process for acquisition teams managing complex procurement requirements. Designed specifically for government and regulated industries, AiRIS combines intelligent automation, policy-aware workflows, and real-time support from acquisition experts. By replacing outdated templates, manual processes, and compliance uncertainty, AiRIS delivers greater speed, precision, and structure — helping teams reduce delays, avoid errors, and stay audit -ready from day one.

KEY DIFFERENTIATORS:

Automated Pre-Award Workflows:
Streamlines intake and documentation with minimal manual entry

Real-Time Policy Integration:
Ensures compliance with FAR, DFARS, and agency -specific rules

Performance Analytics:
Tracks cycle times, adoption rates, and compliance gaps

Policy Auto-Mapping:
Customizes workflows to agency thresholds, roles, and approvals

Configurable COTS Platform:
Ready to use without costly custom development

Built by Experts:
Designed by acquisition pros with 25+ years in government and commercial procurement

Live SME Support
Live acquisition SMEs provide onboarding, reviews, and policy QA

FLEXIBLE PLANS
FOR ANY MISSION

AIRIS PLATFORM

Covers full intake-to-submission workflow, analytics, and live expert support.

Optional add-ons available for post-award tools, vendor collaboration, and advanced QA.

OPERATIONAL GAINS DELIVERED:

Now, AiRIS delivers the same results through automation plus human guidance — scaling the success we achieved agency by agency.

65% — FASTER SOW AND J&A DEVELOPMENT

Civilian agency pilot: Accelerated timeline via structured prompts and pre-configured templates.

200+ — LABOR HOURS SAVED PER CO PER YEAR

Replaced duplicative clause libraries with a centralized, policy-aligned repository.

90% — COMPLIANCE QA ACCURACY ACROSS SUBMISSIONS

Flagged risks and ensured readiness before routing — increasing CO confidence and reducing delays.

FEWER BRIDGE CONTRACTS DUE TO EARLY PLANNING TRIGGERS

Smart alerts and deadline workflows improve planning lead time and reduce -8 clause reliance.

3X — INCREASE IN FIRST-PASS APPROVALS

Smart intake forms and pre-validation workflows helped eliminate common rework.

17% — REDUCTION IN CLAUSE-RELATED PROTEST RISKS

Improved clause accuracy and version control reduced post-award disputes.

STRONGER SMALL BUSINESS COMPLIANCE VISIBILITY

Built-in prompts guide socioeconomic set-aside strategies at the intake stage.

WHY IT MATTERS?

Procurement is mission-critical.

AiRIS supports acquisition teams facing tight timelines, limited staff, and changing policies — reducing risk, rework, and delays.

AiRIS helps you:

- Streamline intake, clause selection & market research
- Ensure compliance with real-time QA & alerts
- Minimize protest risks & bridge contracts

OPTIONAL ADD-ONS

Enhance your AiRIS experience with expansion modules:

CPARS Integration (in development)

Link pre-award docs with post-award performance insights

Vendor Collaboration Portal

Secure messaging & intake to streamline vendor engagement

Post-Award Admin Toolkit

Simplify mods, extensions & obligation tracking just like pre-award
