PERSONAL IMPROVEMENT VISIONARY AWARDS

Mission: The mission of the awards is to bring awareness of a woman's ability to lead others by showing what it takes to be able to show up and fight for maintaining strong mental health. The awards are meant to acknowledge a woman to feel valued for these endeavors and to award the appreciation her own efforts in providing for herself first and foremost so that she may also then provide for her family, friends, livelihood and community. It starts with being aware of your needs and desires in order to be your best self, i.e. understanding and learning what satisfies you physically, mentally, emotionally and spiritually.
