

PERFORMANCE INSOLES

PROVEN TO HELP ATHLETES RUN FASTER, JUMP HIGHER, AND TRAIN SMARTER.

Most insoles are made from plastic and foam acting as a cushion. VKTRY Insoles are made from ultra-lightweight, aerospace-grade **carbon fiber** and have a comfortable foam top. "VKs" are available in 5 flexibility levels **customized for the athlete** (body weight & sport) to optimize performance & protection.

THE START & THE SCIENCE

Certified Podiatrist Matt Arciuolo originally developed this technology for the US Olympic Bobsled Team to help generate more **explosive starts** – and to help them win gold for the first time in 62 years (2010).

These groundbreaking insoles work for all sports involving ground contact. The harder you can push against the ground, the faster you can run, and the higher you can jump.

The patented VKTRY design stores the athlete's energy that would ordinarily be wasted and then redirects it to **maximize energy return!**

GAME CHANGING INJURY PROTECTION & RECOVERY

Added support, stability & shock absorption helps with injuries like turf toe, plantar fasciitis, stress fractures, tendonitis, and shin splints

41% less foot injuries and 22% less lower leg injuries

Research Study: 263 athletes used VKs during full season at 4 major NCAA Football programs

GARY VITTI: NBA

Former Head Athletic Trainer

"The best way to treat an injury is to protect yourself from one."

"VKs are the best combination of injury protection & performance I have ever seen in insoles."

Dr. Doug Casa, PhD

CEO Korey Stringer Institute

"After an extensive 6-month research study by KSI, it is clear that VKTRY Insoles improve lower body biomechanics, stability of the ankle and knee during running, and shock absorption during landing. VKs can help safeguard athletes by providing injury protection."

JAMES CREPS: MLB

Senior Physical Therapist

"For the first time, athletes can experience stabilization, shock absorption and propulsion in a device that is specifically tailored to their size and weight."

"VKTRY Insoles are a game-changer."

GAME CHANGING PERFORMANCE

"VKTRY Insoles give me an instant speed & power boost, helping me explode out of my cuts and separate from defenders. With VKs, I feel like no one on the field can stop me."

Jonathan Taylor, NFL Leading Rusher

"Exploding vertically is important in Volleyball and VKs give me that extra edge on the court. I love that VKs help to protect against injuries from the countless jumps I take."

Jordan Larson, USA Volleyball

"Power starts from the ground up. I can feel that return of energy that the carbon fiber provides. VKTRY has completely changed the way I train, compete and recover."

Julio Rodriguez, Seattle Mariners

"The more I workout in VKs the more I'm convinced that this is a one of a kind product. ...more height at takeoff in the long jump...more explosive out of the starting blocks."

Tianna Bartoletta, 3X Olympic Gold

"My son plays AAU ball and he loves VKs for the extra vertical and explosiveness he gets. As a guy who played 15 years in the NBA, I love the stability and shock absorption."

Tracy McGrady, NBA Hall of Famer

TEST RESULTS

VKs have been independently tested by 77 college and high school athletes. Results were measured with laser timing and digital force plates. SCSU in New Haven CT completed a 12 month, PhD-led, independent research study with statistically significant benefits.

+9.3% Average Increase in Explosiveness
