ULTIMATE VALVE

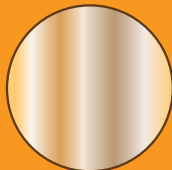

A shorter, permanent, ultra-low profile valve stem to avoid valve issues up front.

- 1/2" shorter than our other valves
- Fits most standard .453" wheel openings
- Socket (7/16") or wrench required for installation

THE BEST VALVE STEM ON THE PLANET

Installs from the outside of the wheel

Quality 360 brass components

Installs in about 1 minute on-location

20X stronger than standard valves

Made in the USA
