BARGE LOADOUT APPS

An **app** for barge loadouts planned or on the fly that anyone can use and create a professional **Transportation and Stability Report** Save time and money with the Barge Loadout App.

180 CLASS BARGE	COMING 2023	COMING 2023
250 CLASS BARGE	*(Apple App Store QR code)*	*(Google App Store QR code)*
	Apple App Store	Google App Store
300 CLASS BARGE	COMING 2023	COMING 2023

The **APP** performs intact and damage stability to IMO and DNVGL stability criteria and produces stability report to submit to client.

Personnel can quickly perform loadout caculations and make modifications in the field with a tablet or smart phone. Streamline the barge loadout process without requiring an engineer to calculate every change.

The number of revisions and time required for review by an engineer will be significantly less, thus decreasing costs and increasing efficiency.
