Company Background: Founder and owner David Brezler has nearly a decade worth of experience in multi-billion-dollar construction project/program management, procurement, and public administration in the NYC area market. During the pandemic, he acquired skills in Tableau Data Visualization and began Brezler, LLC in 2021. Our company is a consultancy focused on workforce development and project management in the construction, energy, logistics spaces with experience in programs/projects and data analytics. We apply the PMP methodologies to any industry.
