### **Professional Experience**

- **February 2019 – Present:** Psychiatric Nurse Practitioner: The Executive Center for Psychological Medicine. Voorhees, New Jersey. I have my private psychiatric practice and am credentialed with various insurance panels. My duties involve performing comprehensive psychiatric evaluation, ordering laboratory investigations as needed and prescribing medications for outpatients with mental health and substance use disorders. My collaborating psychiatrist is Dr Babatunde Adetunji MD

- **July 2017 – Present: Psychiatric Nurse Practitioner: Pinnacle Behavioral Health Institute, Marlton, New Jersey**

After completing my Doctor of Nursing program, I credentialed with DEA and the insurance organizations and started evaluating and treating patients at Pinnacle Behavioral health Institute New Jersey. My duties involve performing comprehensive psychiatric evaluation, ordering laboratory investigations as needed and prescribing medications for outpatients with mental health and substance use disorders. My collaborating psychiatrist is Dr Babatunde Adetunji MD

- **Sept. 2013 – Date: Nurse Administrator: Medikhelp Consultancy, New Jersey**

After completing my bachelors in Nursing, I proceeded to the graduate school for my Advanced Nurse Practitioner training in psychiatry. I also continue to work part-time for Medikhelp Inc. an outpatient psychiatric clinic. My job description includes performing administrative duties, assuring compliance with treatment plan, monitoring urine drug screen results, medication counseling and education as well as monitoring the states Prescription Monitoring System for the organization.

- **Sept. 2011 – May 2013: RN-BSN student at Rutgers University College of Nursing, Part-Time Registered Nurse with Medikhelp Consultancy Inc. Haddonfield, New Jersey**

- **Jan. 2008 – Sept. 2011: Registered Nurse: PACT Team. Steininger Behavioral Services. New Jersey**

My duties included clinical assessment of clients, identifying and prioritizing individual client's needs, developing personalized achievable goals and devising interventions that promote self-reliance, medication monitoring and administration, medication counseling and education. I also worked with other team members to link clients to appropriate external providers and advocated for clients and family members to access necessary services.

- **Oct. 2007 – Jan. 2008: Registered Nurse: CFG / Maxim Health Staffing, Cherry Hill, New Jersey**

I passed my NCLEX-RN examination in July 2007 and started working for Maxim Health Staffing Solutions on a per diem basis. I worked in an Intensive Residential Program for children and adolescents. My duty involved administration of medications, assessment of patient's psychiatric status and needs, planning and evaluation of care. I was also a member of the multidisciplinary team.

- 2006 – 2007: Case Manager-Mental Health: Steininger Behavioral Care New Jersey**  
 Between May 2006 and May 2007, I was a Case Manager with Steininger Behavioral Care Services (SBCS). This was a full-time position where I provided community outreach support to adults with serious & persistent mental illness. My duties include psychosocial assessment, service planning, counseling, & advocacy.
- 2002 – 2006 Behavioral Nurse Consultant: LINK Community Care, UK**  
 This job involved utilization of case management skills: This involved total supportive and interventional care of patients. I carried a caseload of about 10-15 clients with severe and persisting mental illness. I do home visits, medication administration as well as psychosocial programming. I was also involved in the coordination of case conferences where the individualized needs of patients are identified along with members of their families.
- 2000 – 2002: Registered Nurse: Edward Road Psychiatric Rehabilitation Home, UK.**  
 In this job, I provided professional counseling for clients with chronic mental illness both in the in-patient and outpatient setting. As part of my work in a rehabilitative unit that cared for Clients with chronic and persistent mental illness, I provided one to one individual therapy to clients. I also provide family therapy to families of clients with mental illness.
- 1999- 2000: Registered Nurse: Ladywell Psychiatric Unit, Lewisham Hospital, London. England**  
 This is an acute psychiatric in-patient unit that cares for patients with schizophrenia, bipolar disorders, severe anxiety disorders, substance abuse etc. As a nurse, I was involved in administering medications and devising individualized care plans. I coordinated Care Plan Approach with patient's families and was involved in setting up appropriate out-patient follow-up in the community
- 1996 – 1999: Higher Diploma in Nursing Trainee: Middlesex University, England**  
 This was a 3year undergraduate Nursing education in England. After completion, I was registered by the Nursing and Midwifery Council of England as a registered nurse
- 1994 – 1996 Mental Health Counselor: Learning Disability (LINC) UK**  
 Living Independent Network Community (LINC), UK. LINC provides respite care for clients with developmental disability. As a health care counselor, my job involved day-to-day care and improvement of activity of daily living. It included bathing, brushing, feeding the clients. I also took them on mini-vocations, like to the movies or to the mall. I developed therapeutic relationship with each individual and their family members.

- **1993 – 1994: Mental Health Counselor: Greenwich District Hospital, England.**  
I was involved in day-to-day care of in-patients. Supervising their activities of daily living. I was also involved with the Treatment team in developing individualized care plan and liaising with families of patients. This job was obtained through Planned Personnel Agency, England.
- **1991 – 1993: Masters in Educational Psychology: Vrije University, Brussels, Belgium.**
- **1987 – 1991: Graduate Teacher of English Language, Nigeria.**  
This was after qualifying as a professional High School teacher with Bachelor's Degree in Education. The knowledge I acquired here has served as a template for my ability to help clients with severe and persisting mental illness as well as clients with developmental disability.

### **Teaching Experience**

Teaching and outcome evaluation: Teaching, mentoring and assessing newly qualified registered nurses, care assistants and mental health workers in residential home and community mental health settings.

### **Other Professional Activities/Trainings**
