

WaWiCo

Water Wise Controls

Investor Presentation

Revision 1.02

September, 2019

WaWiCo – Corporate Overview

- Founded and Incorporated in Monterey, California (2019)
- Intellectual Property: Proprietary method and system to measure waterflow and detect water leaks
 - US Patent Publication No. US-2018-0238765-A1, Application Publication Date: August 23rd, 2018
- Proof of Concept & Prototype Phase completed with 5 years of data collected (2014-2018)
- Beta Testing (2018 – Ongoing)
- Exhibiting at CES 2020 (Las Vegas Convention Center, Eureka Park, Booth 51129, Jan. 7th – 10th, 2020)
- Core Competencies: Electro-Mechanical Engineering, Software Development, Embedded Systems, Business Development & Sales

WaWiCo– Company Timeline

- 2014 – 2018 Inventor Max Gramespacher develops proof of concept and begins data collection to validate product potential
- Aug. 2018 Utility Patent for Method & System Application Published (US-2018-0238765-A1)
- Aug. 5th, 2019 Website Launched (www.wawico.com)
- Aug. 11th, 2019 Accepted to exhibit at Consumer Electronics Show in January 2020 (Eureka Park Start-Ups, Booth 51129)
- Aug. 20th, 2019 WaWiCo founded and Incorporated in Monterey, CA
- Sep. 2019 Added Business Development & Engineering Resources for Q4 Push

WaWiCo – Product Roadmap

Q4 2019 – Proprietary Metering Software *AQUA HUB*

-access water usage data on any mobile device from anywhere in the world (WiFi)

-open-source development platform

-software controls readily tunable for traditional water displacement meters

Q1 2020 – *AQUA VIS* – First turnkey solution for less than \$100 designed for consumers

Q3 2020 – *AQUA LENTA* – Portable handheld design for commercial and industrial applications, quick deployment and multi-node networking

WaWiCo– Key Product Features

- Precision metering that can differentiate between types of water facilities
- Leak detection within seconds
- Quickly installs onto all standard pipe diameters (½ in to 2in)
- IoT ready
- No plumbing needed
- Works with copper, galvanized steel, PVC and PEX piping
- Can be attached to any pipe that is connected to the water supply network
- No moving parts
- First affordable consumer water metering solution
- Comprehensive data to check utility bills and protect against utility fraud
- Up to the hour water usage viewable on any mobile device from anywhere in the world

WaWiCo – AQUA VIS & LENTA

VIS

LENTA

WaWiCo – Investment Opportunity

- At \$100 price point, and in quantity of 1000 units annually, margin would exceed 70% (AQUA VIS)
- Market Competitors utilize rudimentary water displacement or cost-prohibitive ultrasonic technology
 - WaWiCo IP would ideally fit existing OEM product portfolios (Licensing/Sale)
 - Transformational Market Edge
- Barrier to Market heavily mitigated by eliminating the need for professional plumbing
- Designed for consumer home, apartment, commercial & industrial applications
- Market Leading Potential for Smart Home, Home Security and Utility Providers
- Patent Licensing

Thank You
