

WE ARE THE FIRST WEB3 PROJECT INCUBATOR

We offer an educational academy where members learn professions within the new digital economy and receive weekly rewards in SOLANA (SOL), all through a smart contract, while developing high-demand skills.

MISSION

We provide high-quality, flexible, and personalized education through an innovative platform that fosters continuous and accessible learning for everyone.

VISION

To educate over 1 million users in the next 5 years with an innovative, accessible, and personalized platform, positioning ourselves as the "Netflix of Education."

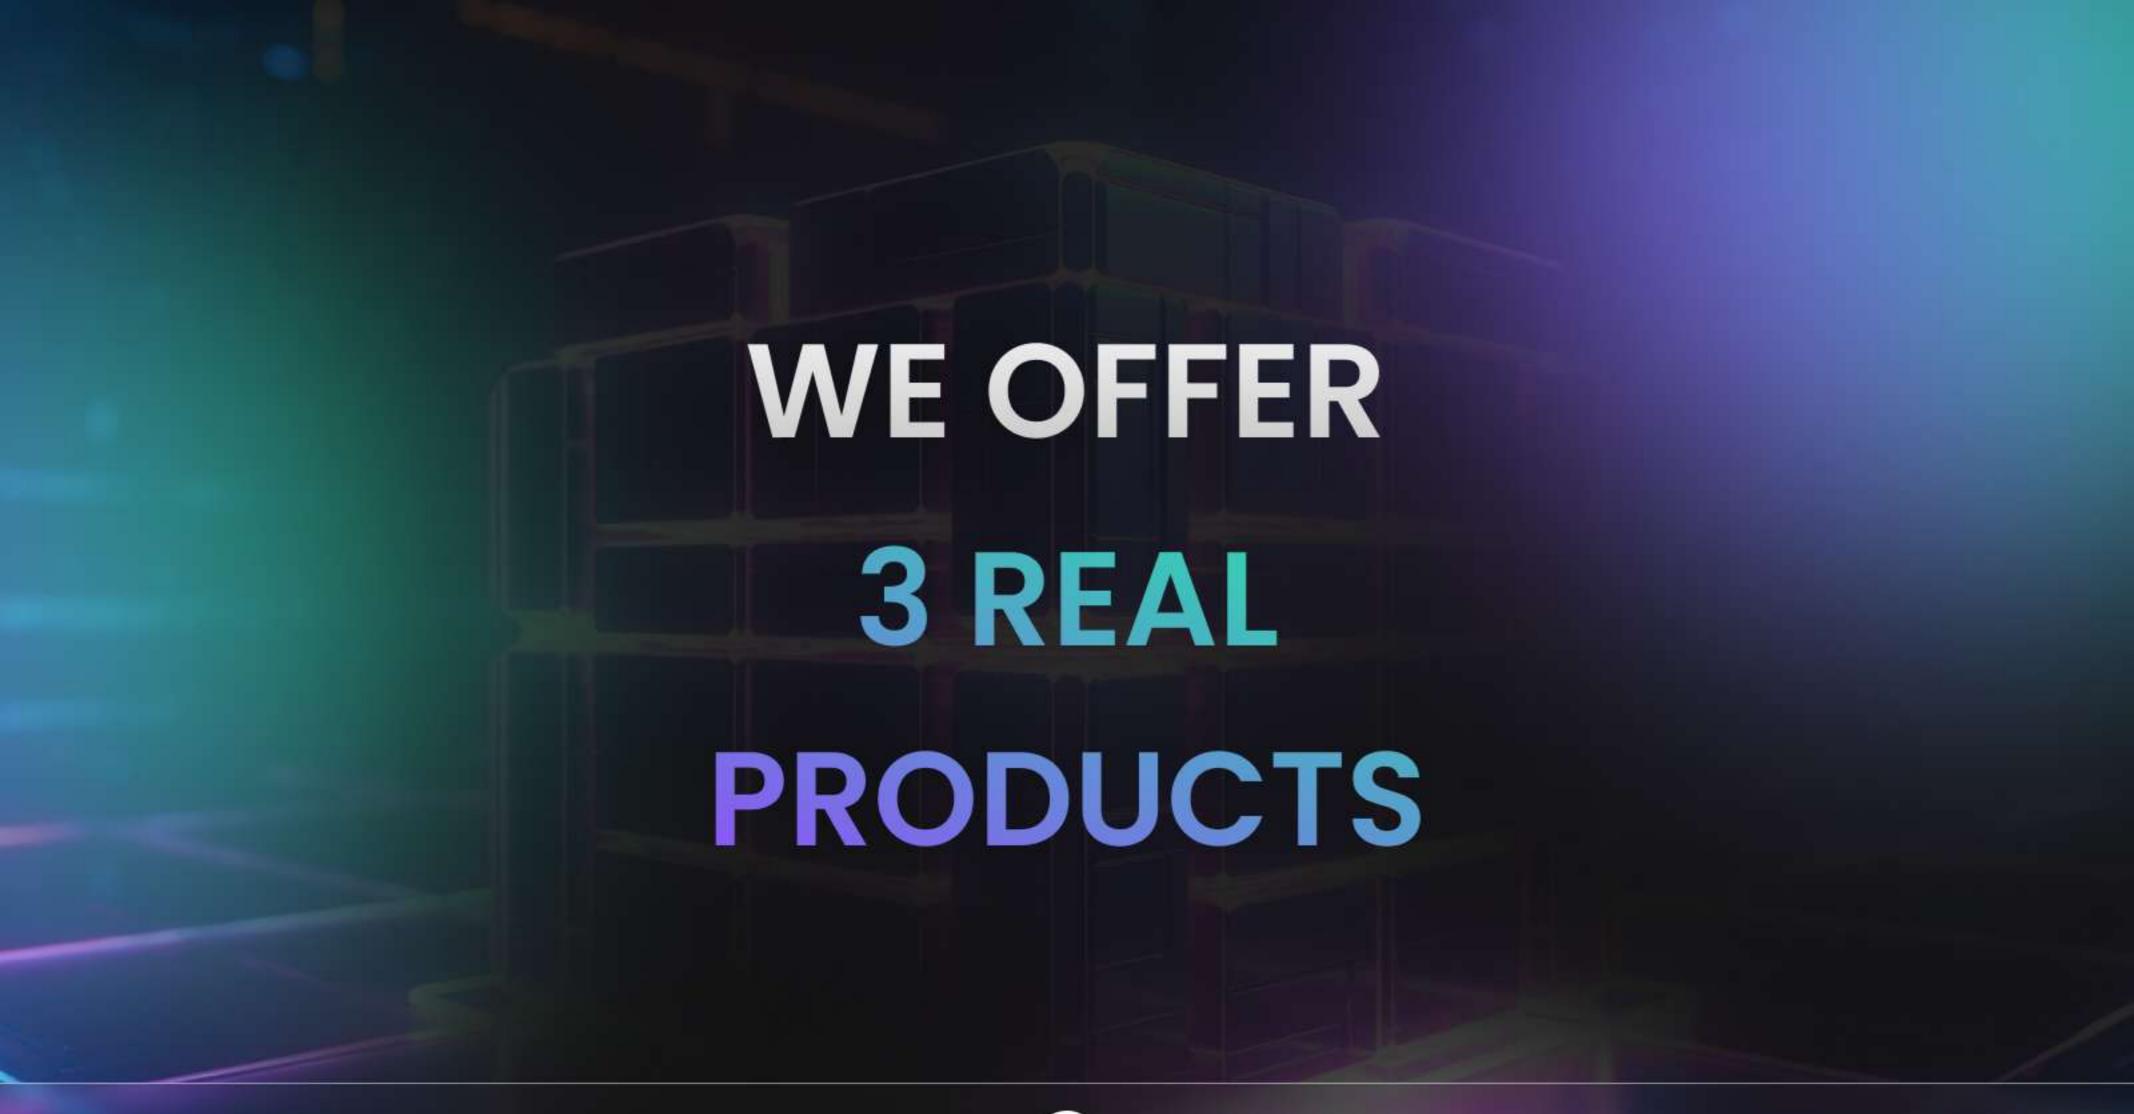

HOW DO WE DO IT?

We have 2 liquidity pools on the SOLANA (SOL) blockchain:

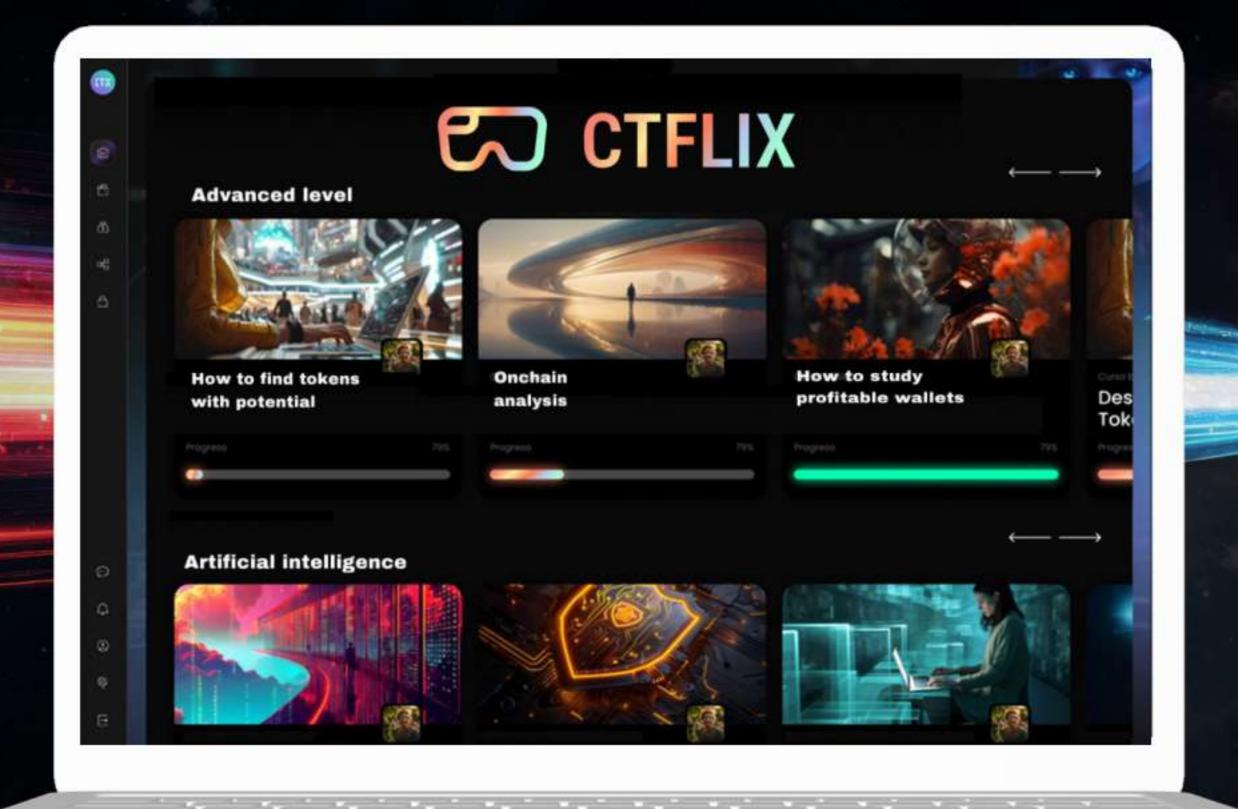

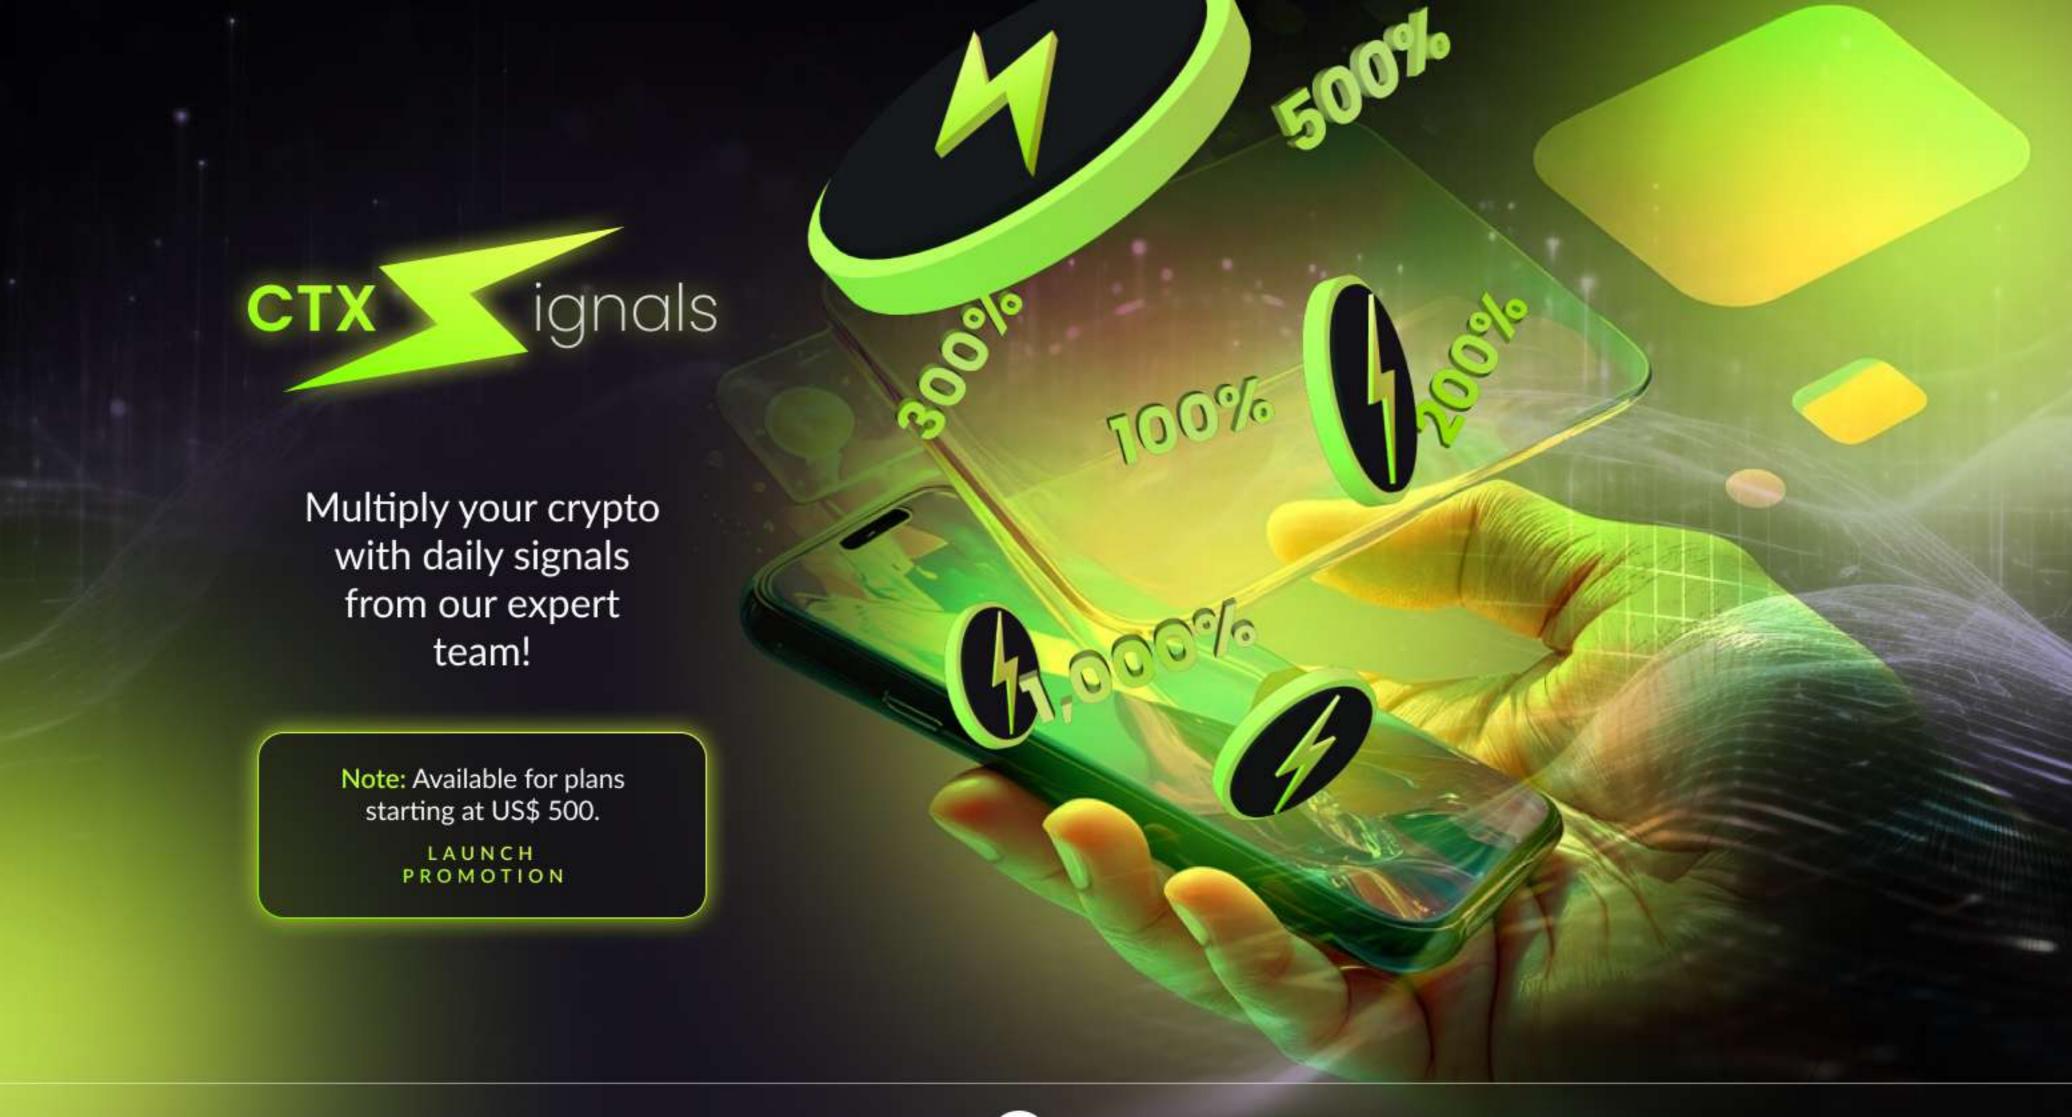

to distributing payments in SOLANA (SOL) through the CTX rewards system.

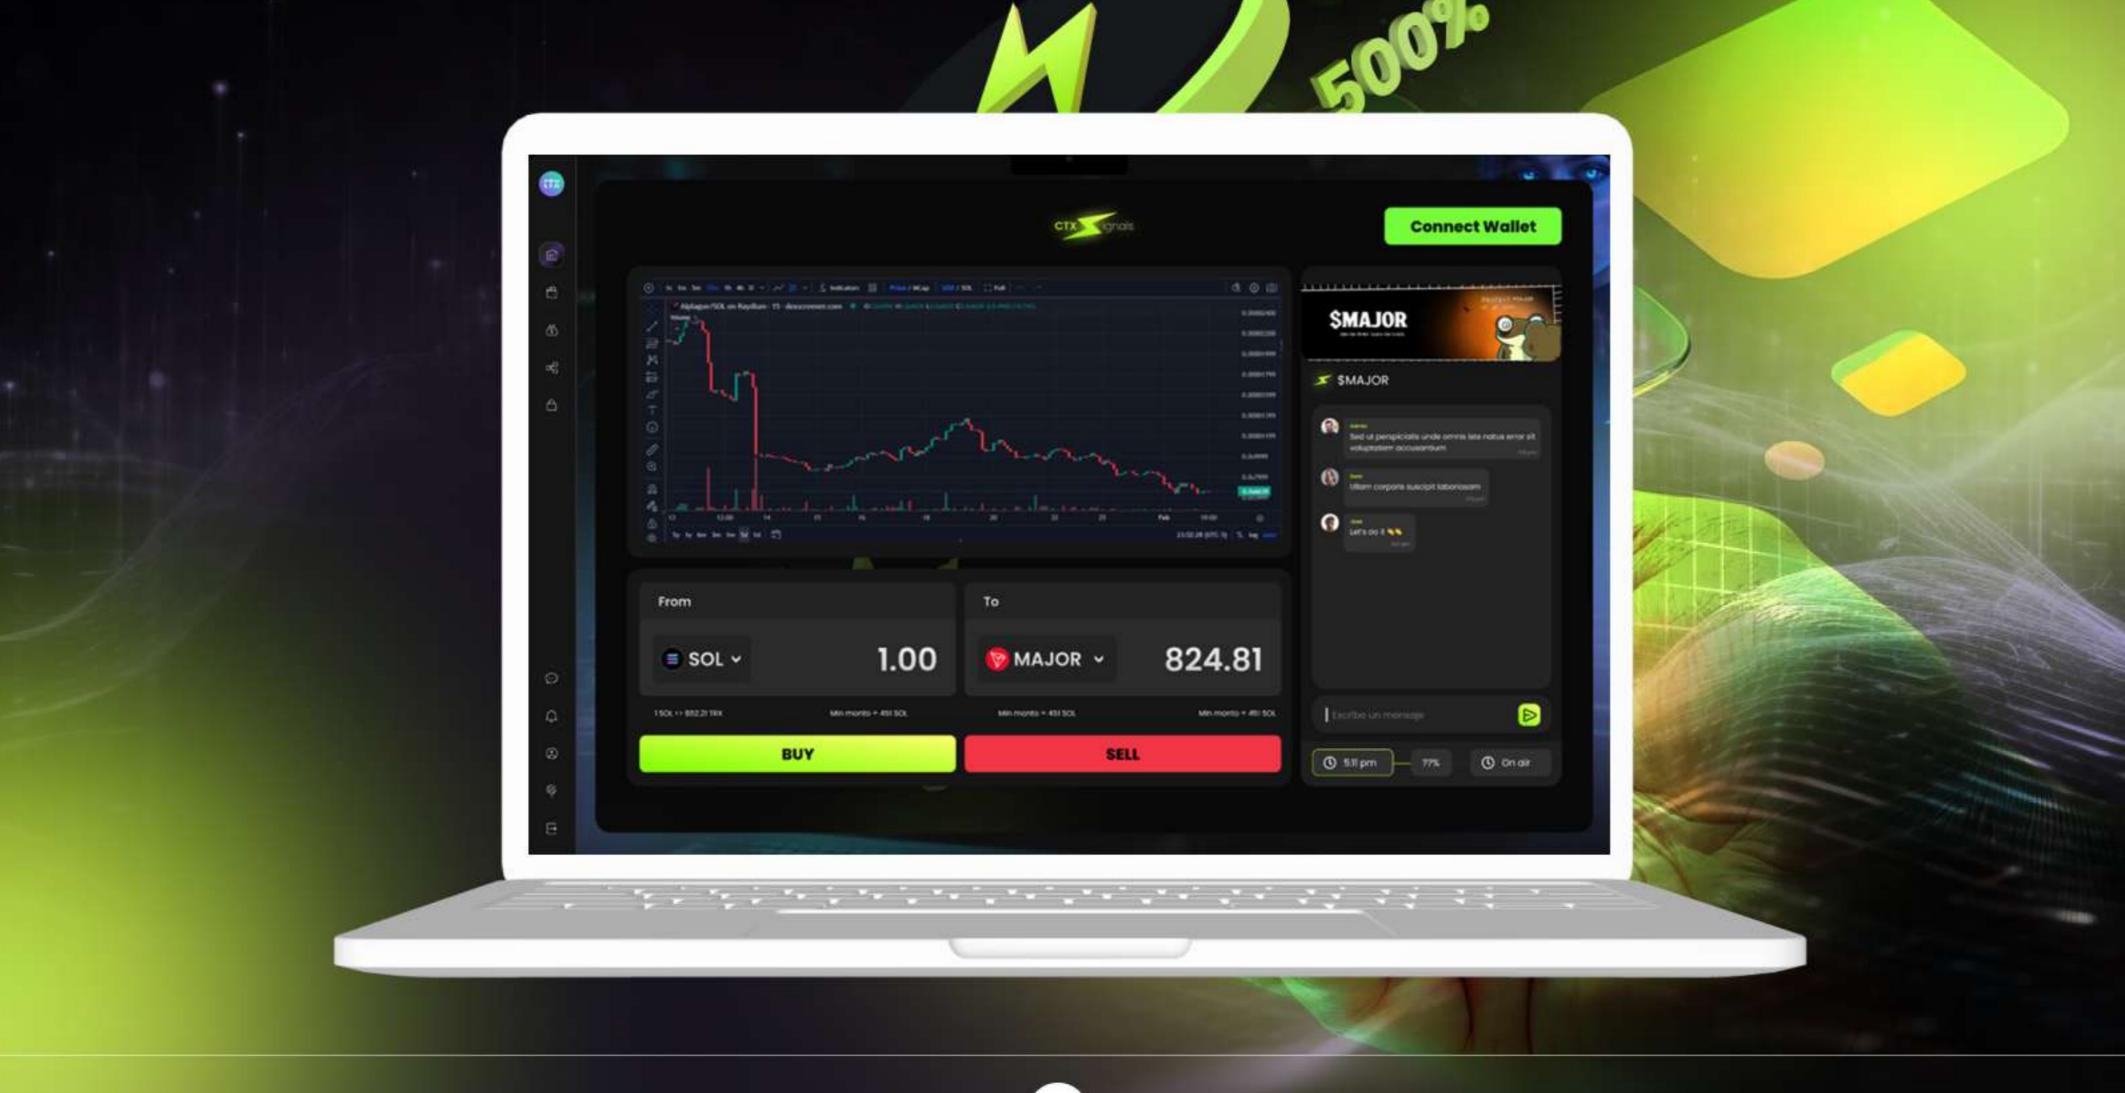

The 40% pool funds crypto investments, marketing, and token creation, with full transparency through weekly reports showing every auditable transaction on the blockchain.
