

**\$BoBi Blockchain**  
Connect together

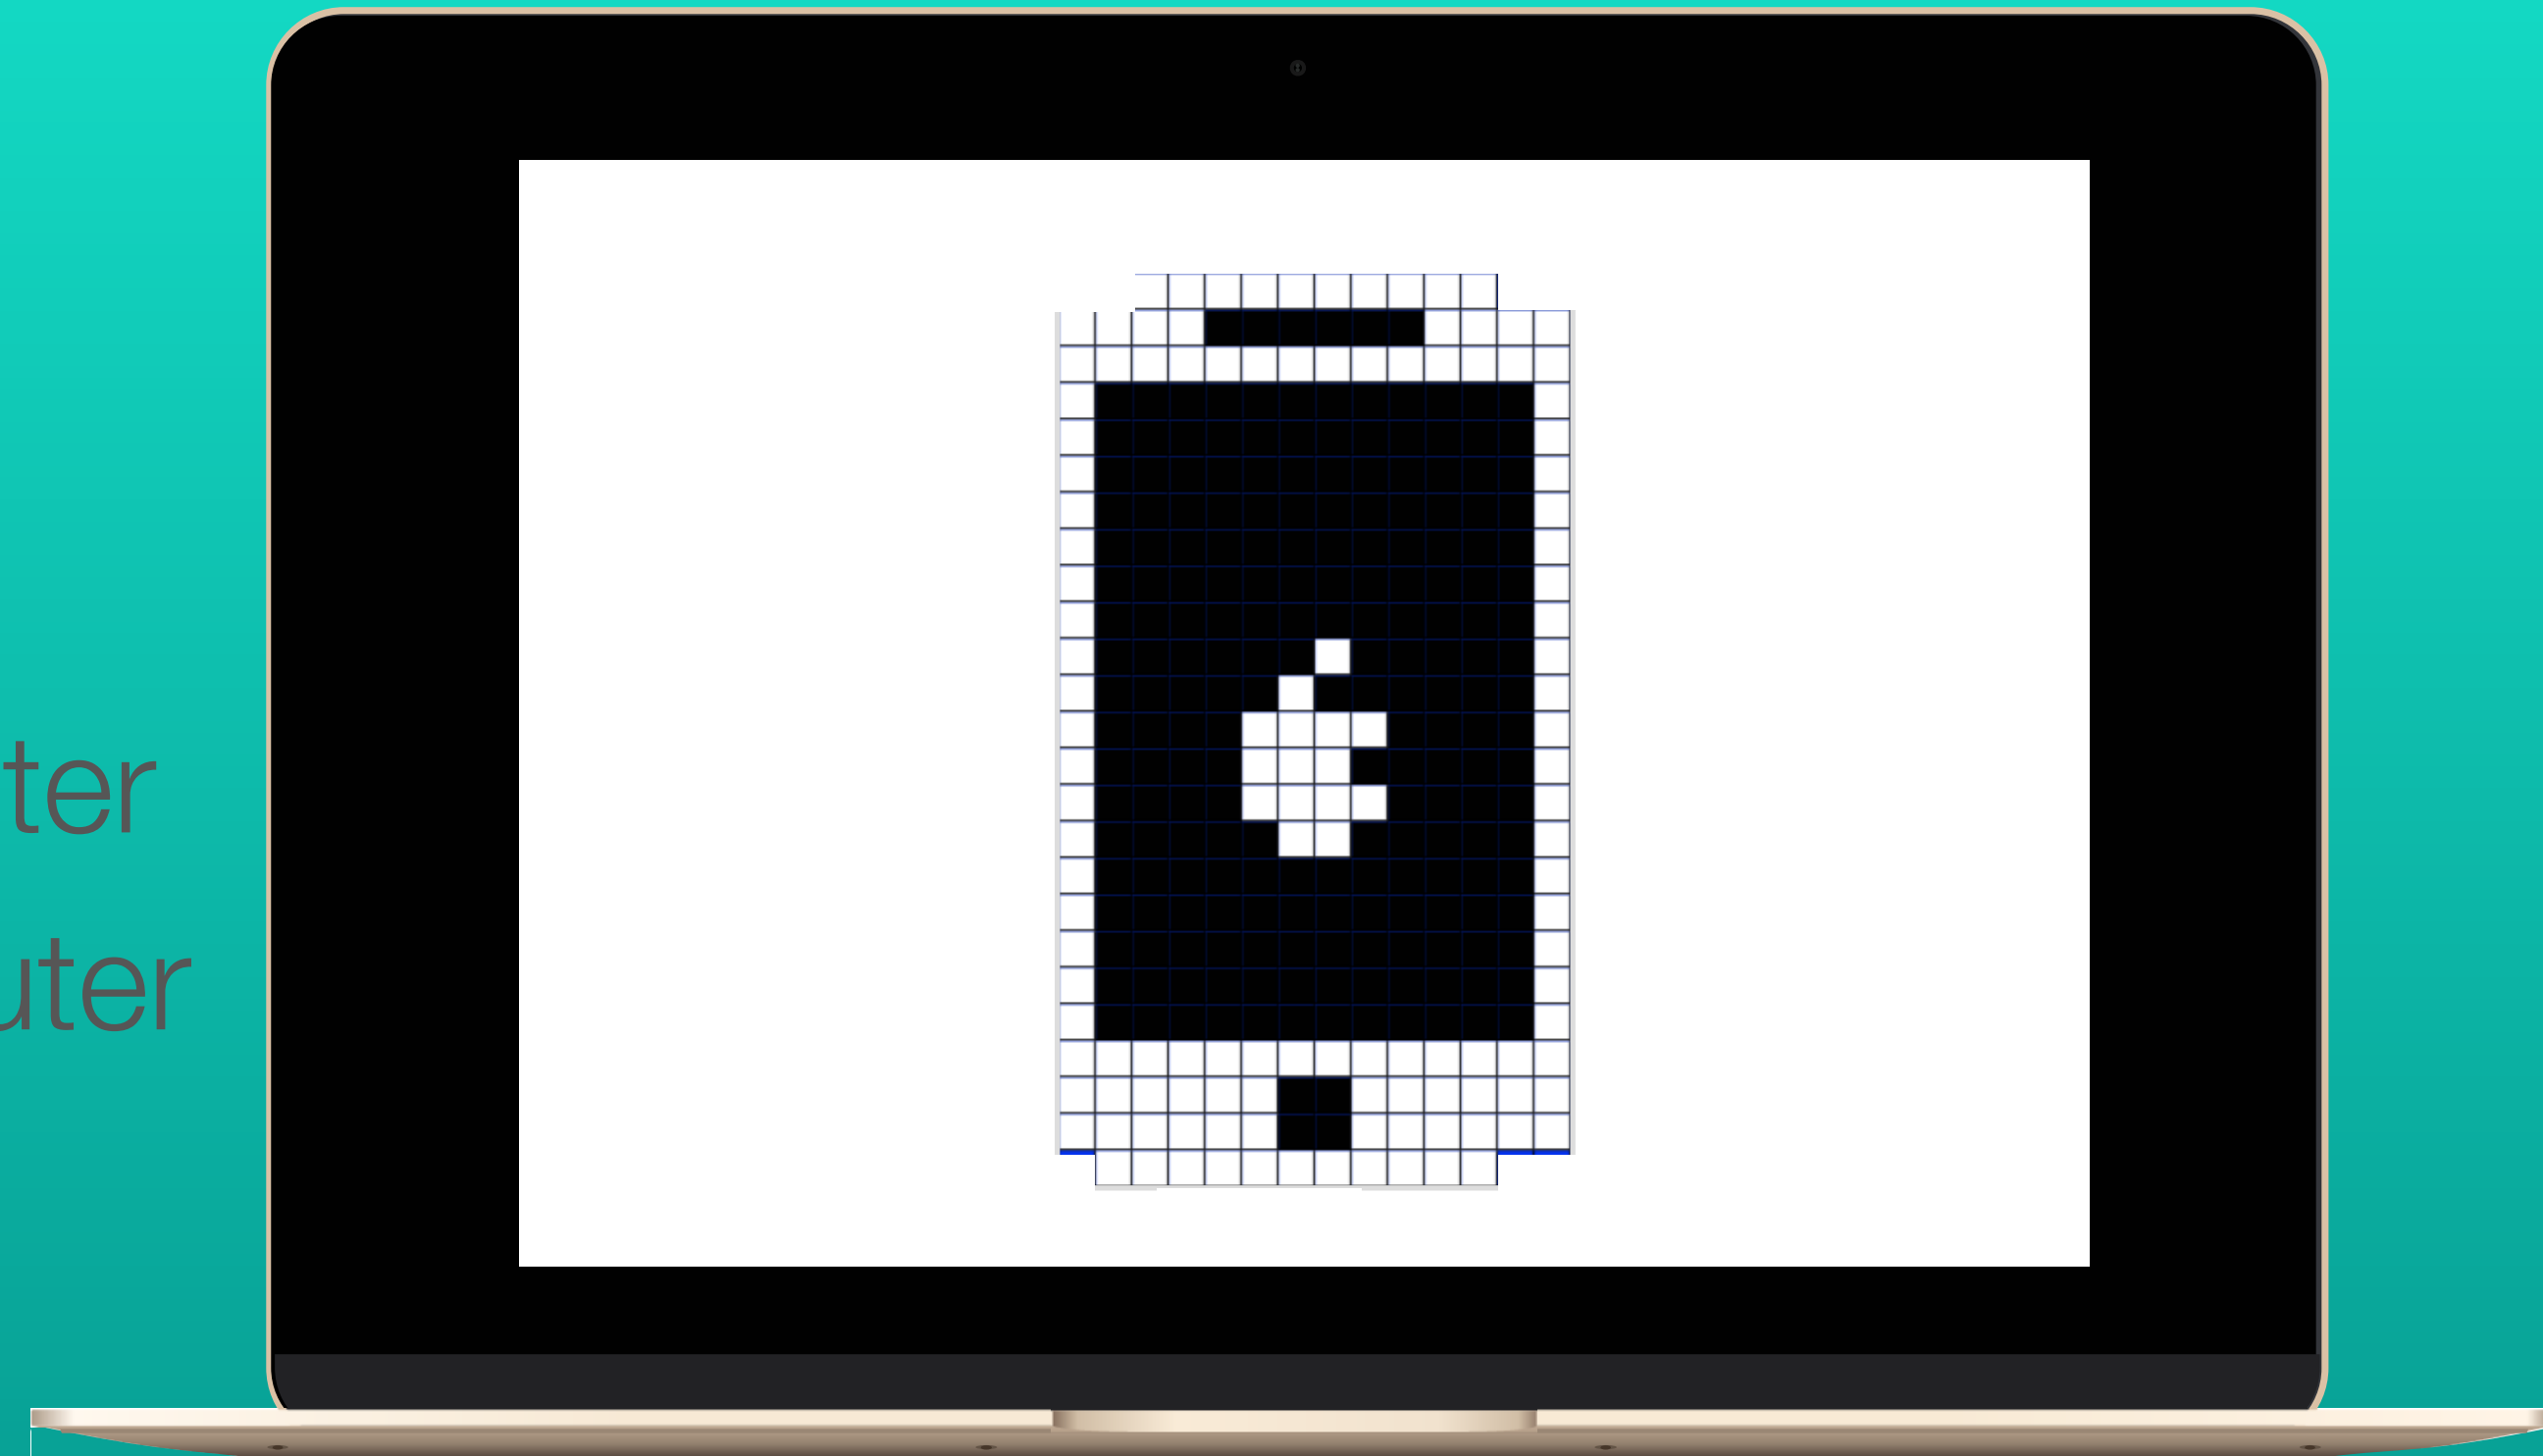

Let us make your life easier with blockchain automation

IBM revolutionized the computer

Apple revolutionized the personal computer

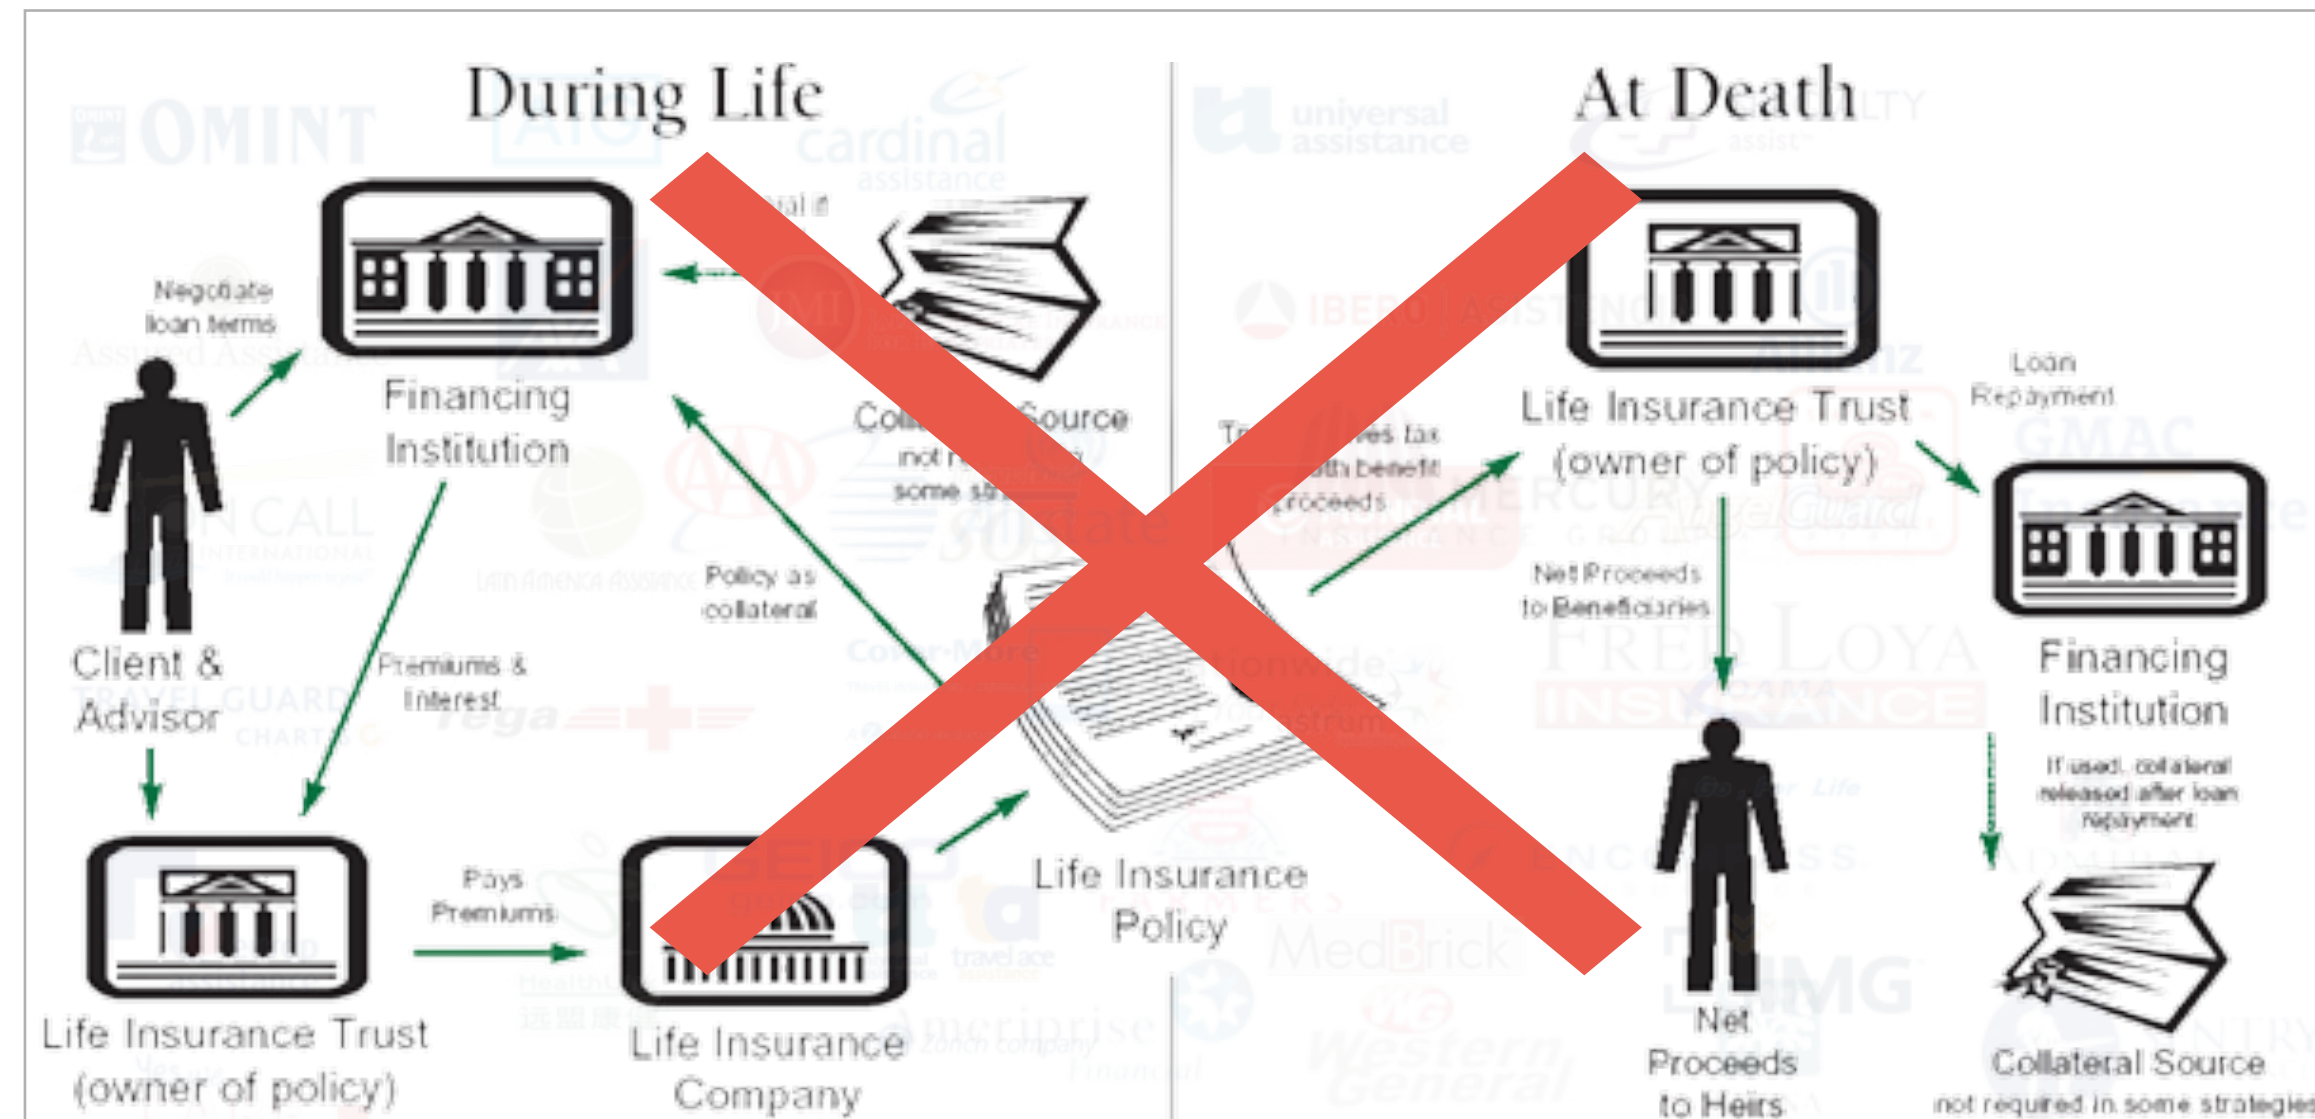

BoBi is revolutionizing the internet computer

### Mission

Thanks to BoBi, you now have a one-stop-shop for buying, selling, transferring Real Estate, Digital Assets, & Insurance in one place. We have a directory of thousands of businesses all connected on the blockchain for a seamless process to supply anyone with daily necessities that life requires.

# The Problems

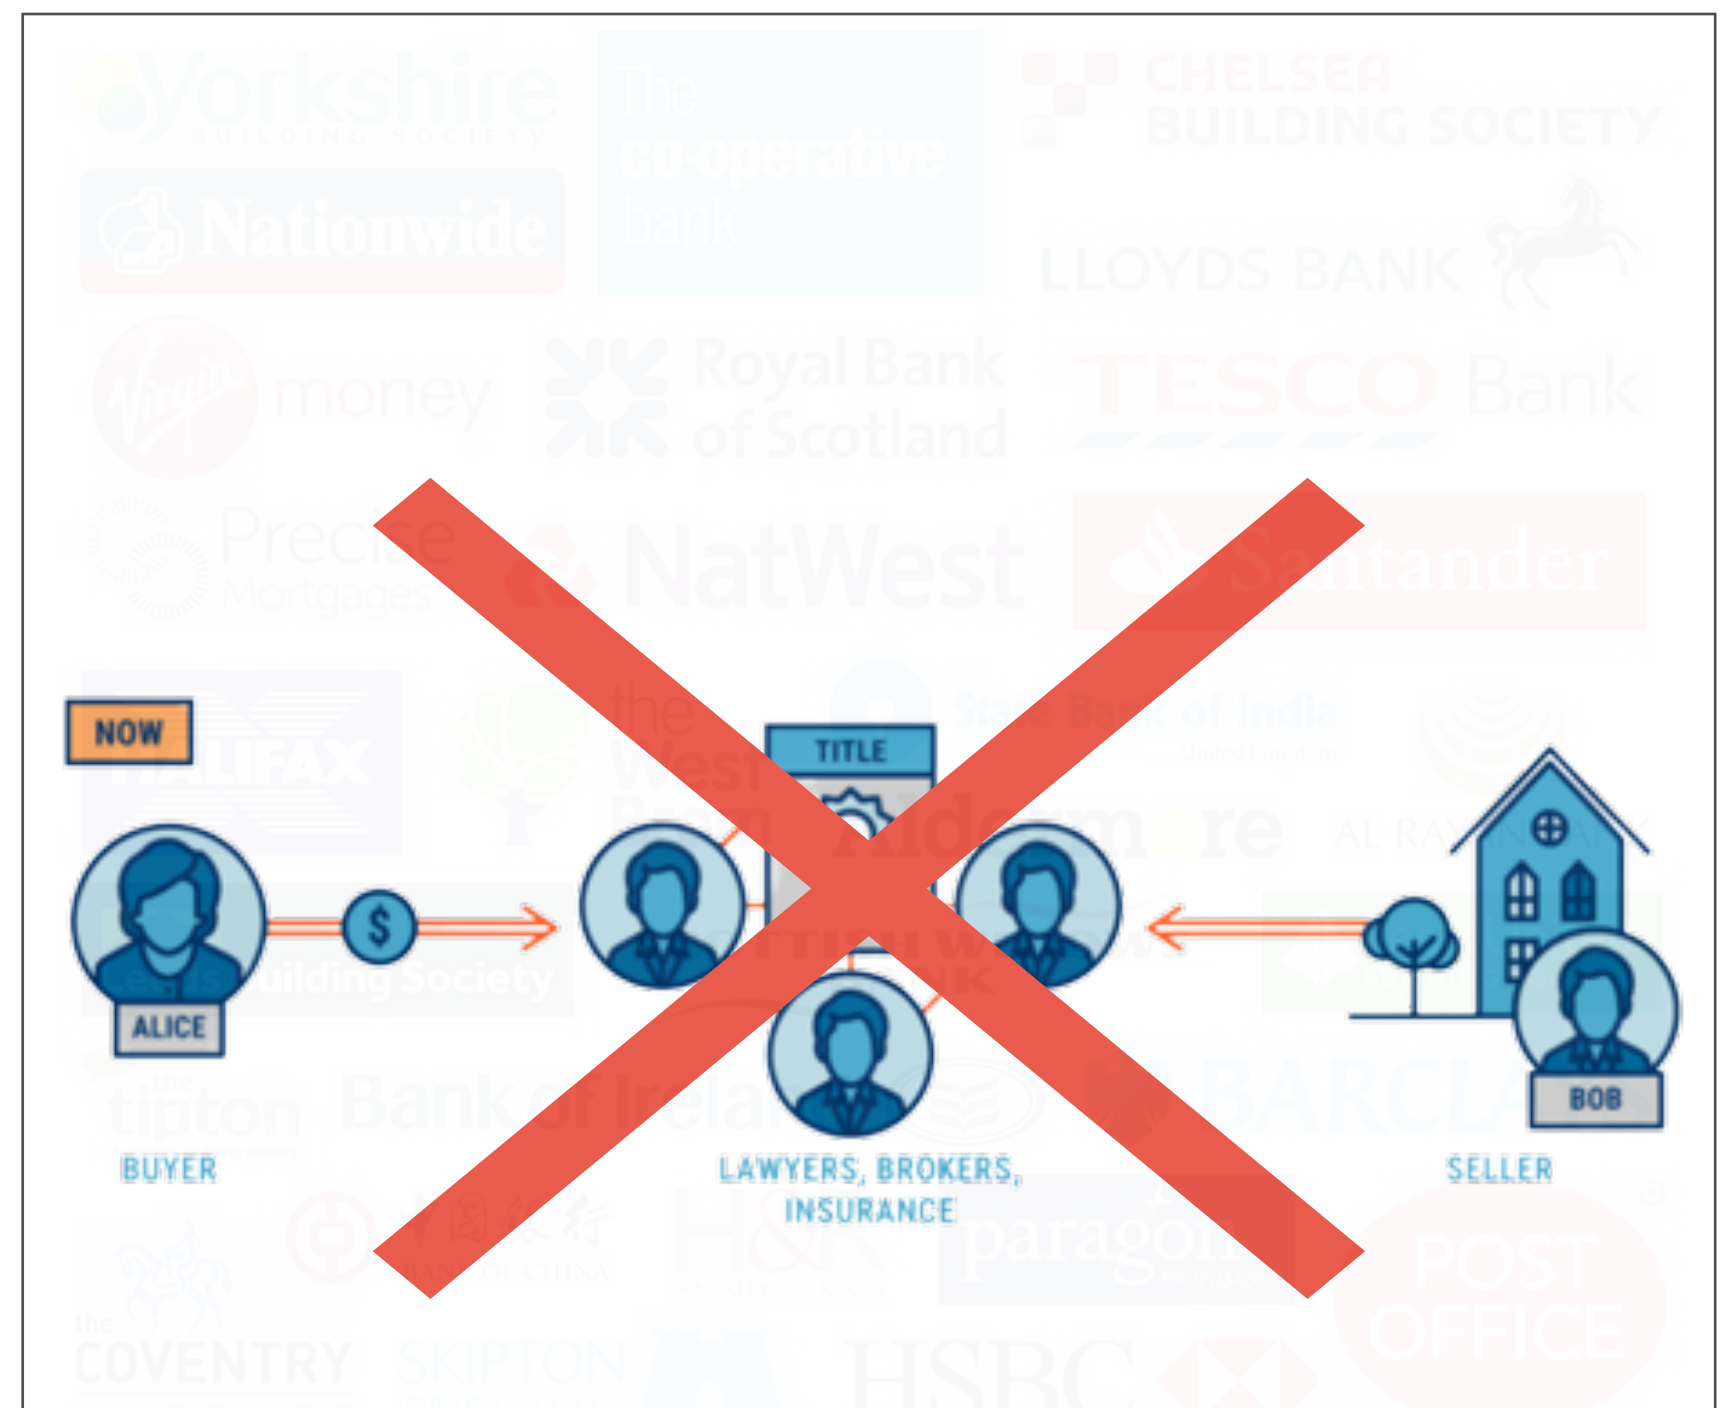

## Insurance

Overlapping policies, insolvency concerns, changing regulations

Non-transparent documentation

“Have you ever needed to know what your policy covers from healthcare to life insurance?”

## Real Estate

Outdated practices, Multiple middle men

Lack of privacy

Non-transparent documentation

“Have you ever tried to pull up a report for a home from 1965? we all know how extraneous that is.”

Why it doesn't work

# Today's Solutions

## How blockchain will change insurance

Fraud Protection

Policy Creation & Claims Processing

Streamline Routine Interactions

Risk Protection

Reinsurance

Micro Insurance

P2P Protection

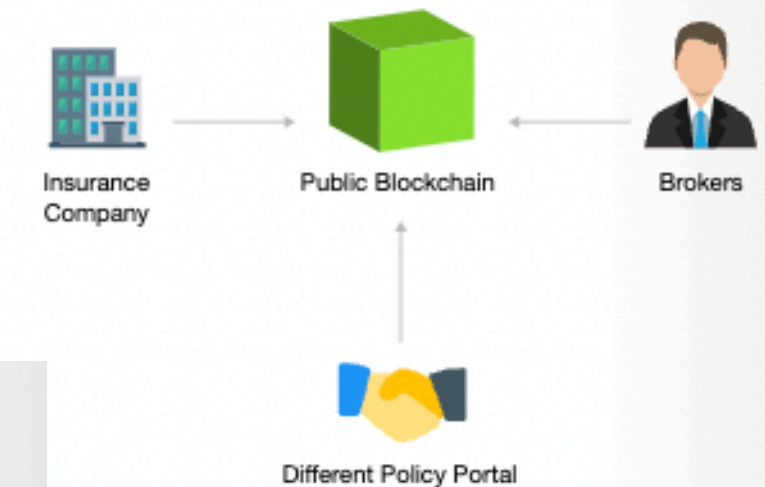

Today, we can facilitate insurance policies with Smart contract systems starting with a layer 1 Blockchain. Through encryption every transaction will be visible only by those authorized to see Documents related to their business.

We have utilized **Hyperledger Technology** to make our integration possible. You can start a policy on Ethereum, Bitcoin, Solana, or Eden with our cross-chain technology Proof of Authority system.

Signup through our mobile application & get insured today with dozens of available brands.

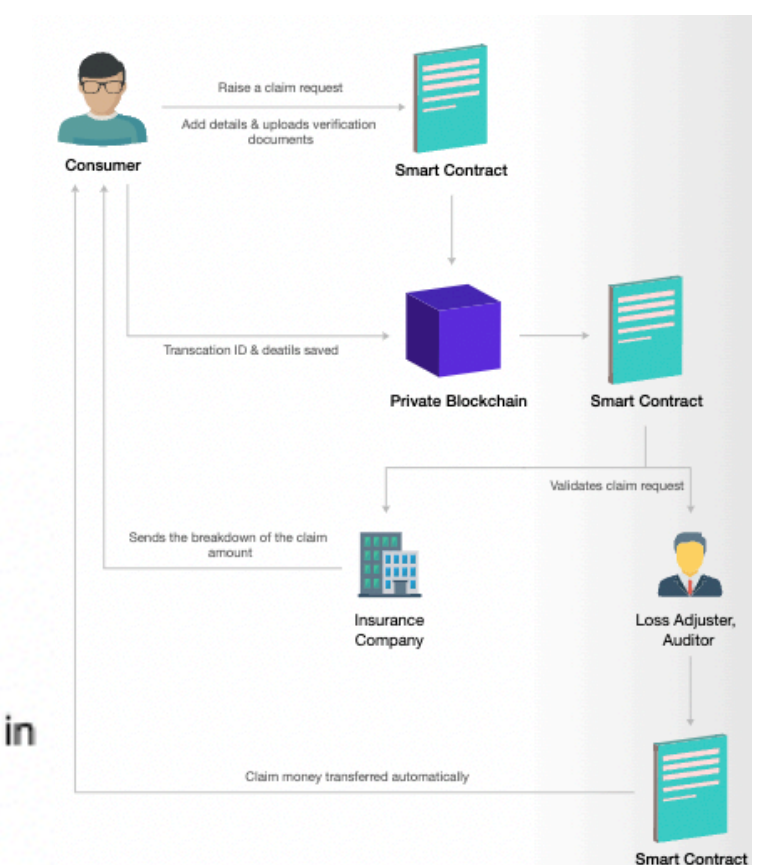

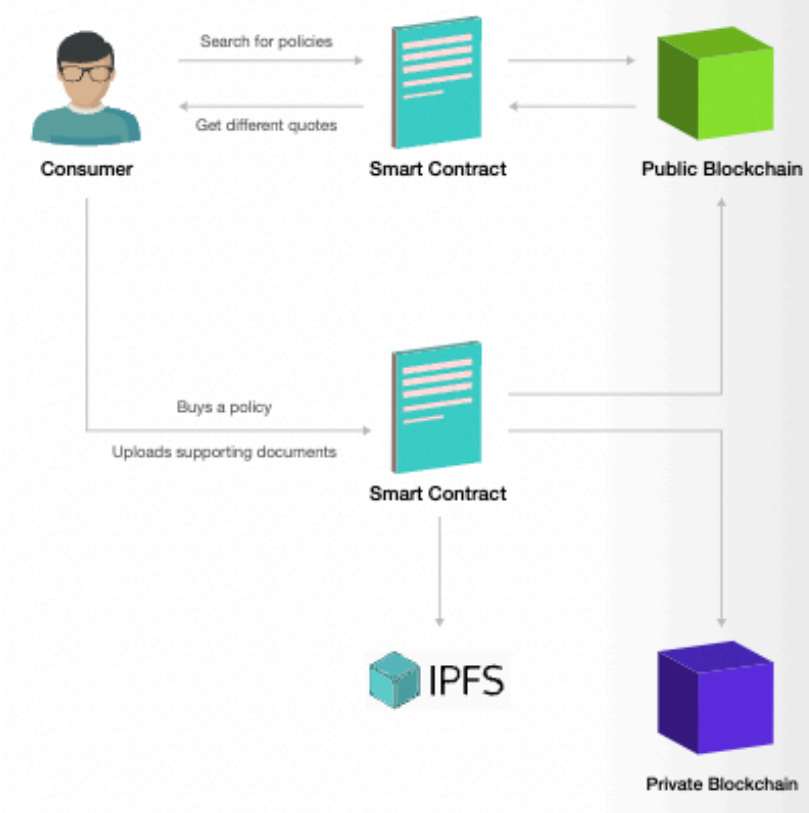

## 1 Authorized insurance providers register on public blockchain

Adds information related to the insurance plans and saves it on the blockchain

## 2 Buying & Searching Policies

A consumer searches for the insurance plan and buys it by submitting supported documents

## 3 Claim Request Procedure

A consumer raises a claim request in case of any accident or damage through blockchain

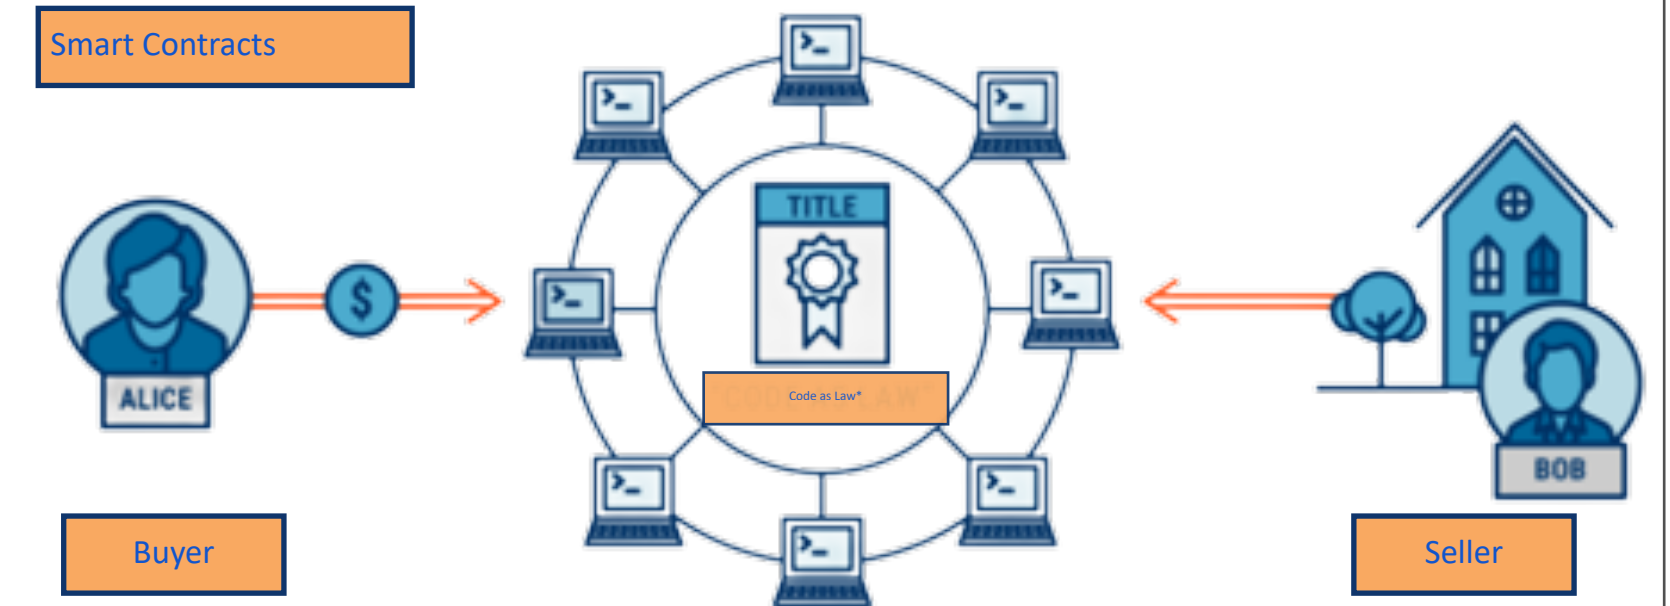

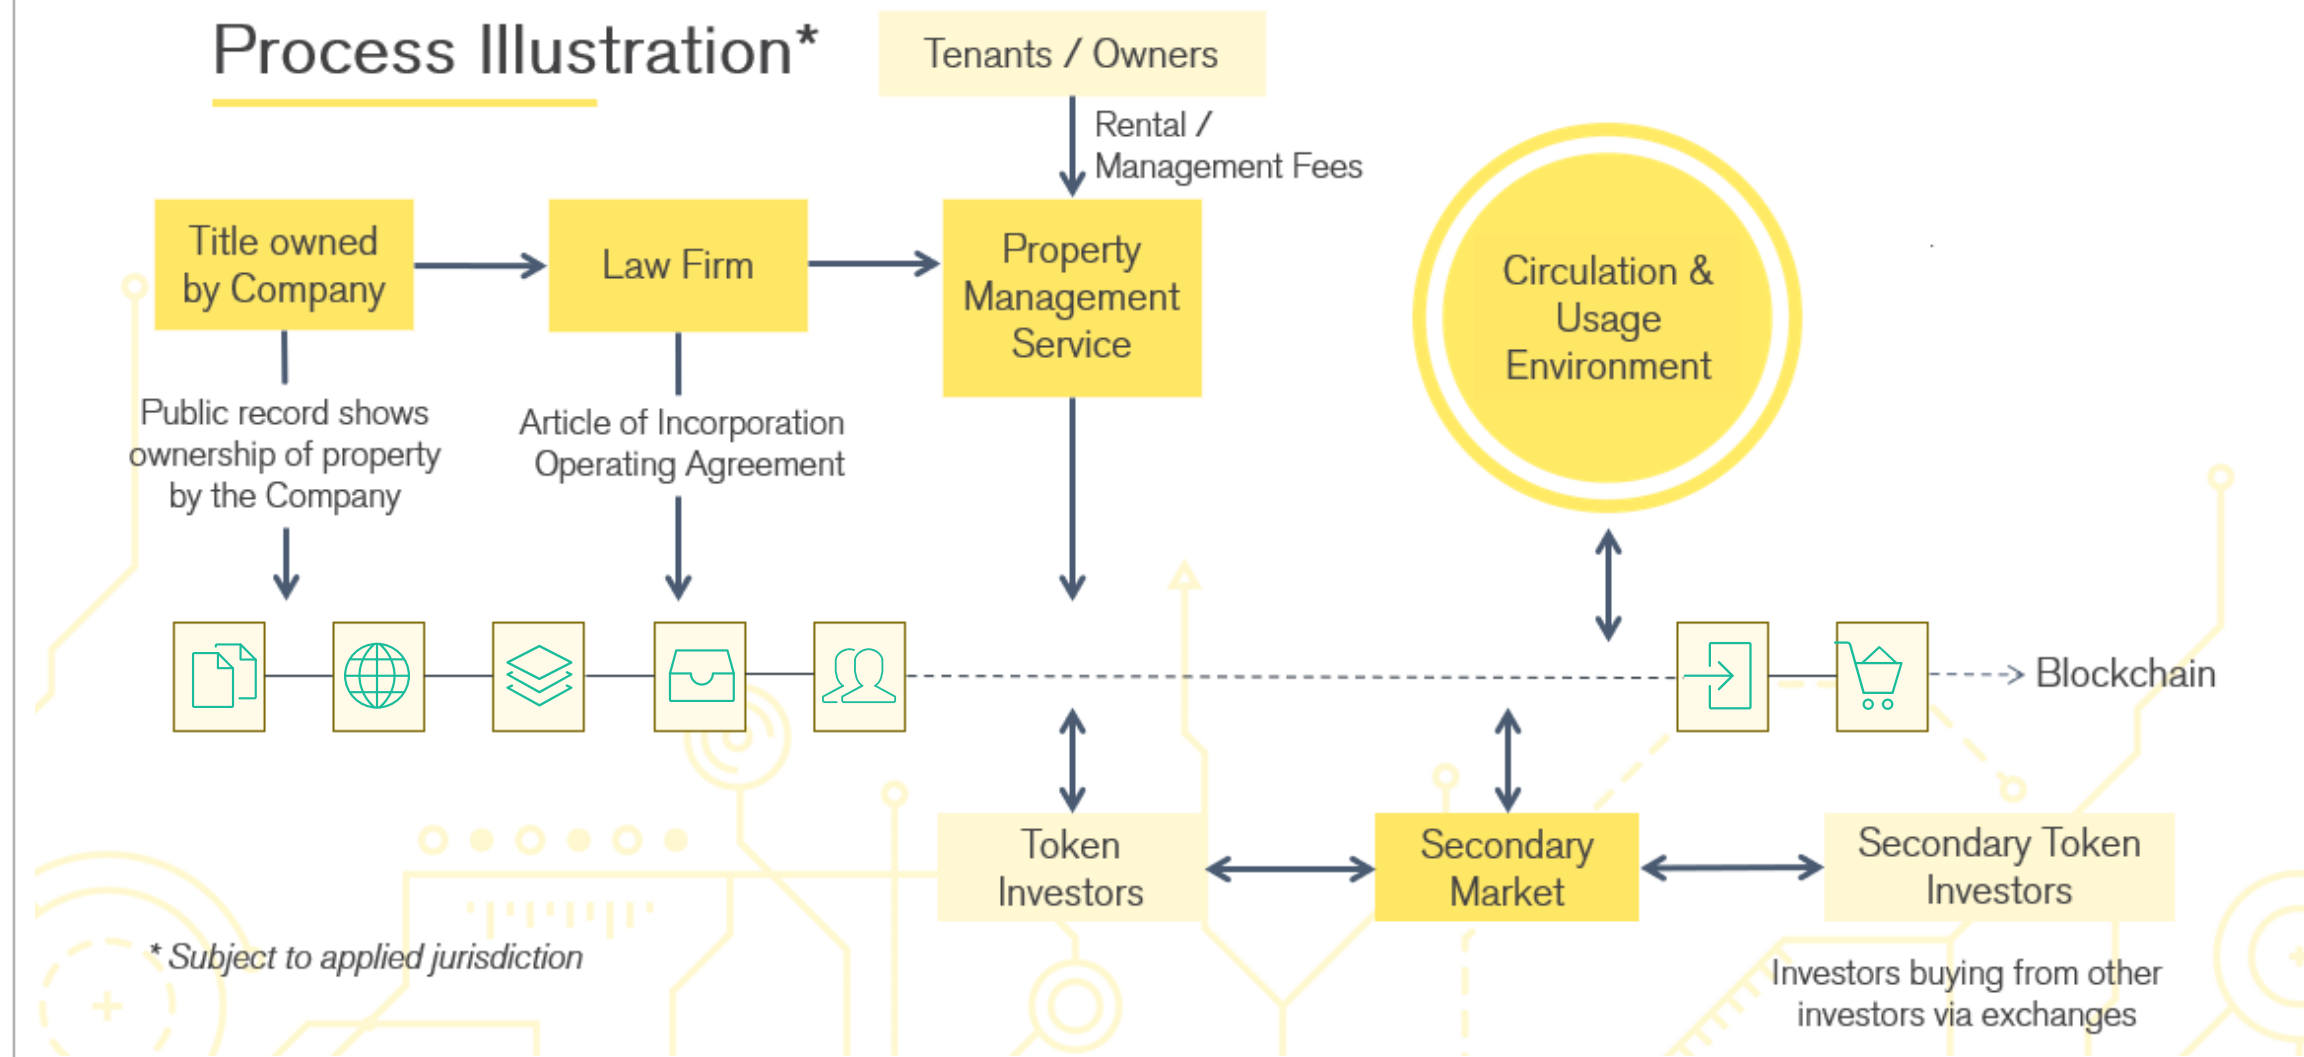

# Today's Solutions

Option to trade Digital Asset with Native Coin  
Transparency & Immutability on Proof of Authority  
Deliverables Synchronization  
24/7 global marketplace for settling transactions  
Transferrable digital shares  
Cross-chain trade admittance for other assets  
Automation

## REAL ESTATE TOKENIZATION

### Process Illustration\*

## Blockchain Benefits

Faster property Search  
Reduces the amount of intermediaries  
Privacy Smart Contracts  
Safer property transactions  
Improvements on due diligence  
Accurate appraisals for profitability  
Higher customer engaged marketplace  
Faster liquidity processing  
Tax Benefits

Two Demographic Marketing Groups

# History of Inventors

**Race - US Population vs. Founders**  
(Internet Seed & Series A - Jan to June 2010)

The truth is I'm a minority founder and the leading statistics say that less than 3% of a 17 trillion dollar industry go towards African American & Women founders. As this the case, we have developed a real use case that will bring immediate action into the

With the strike of a pen   , we can utilize Eden as the stepping stone for changing the national narrative for current black & minority entrepreneurs in tech.

Eden will bring a new Harlem Renaissance back in America as it desperately needs it.

Which one of you sharks would like to join us in the Blockchain Revolution!

**GREAT PITCH, AMAZING PRODUCT**

**I'M OUT**
