

## BoBi Coin Distribution

A proven **commodity** providing the essential building blocks of a sustainable infrastructure shifting the ideology of financial growth to **benefit** the community.

## **BoBi.Blockchain**

### **ICO Initial Coin Offering**

ICO is a crowdfunding scheme where cryptocurrency/token is offered to the public in exchange for funds to develop the business.

### **STO Security Token Offering**

An STO is a fundraising mechanism through crowdfunding in exchange for tokens backed by real assets. STOs, different from ICOs, come with the promise of solid returns for businessmen and investors alike

### **DeFi**

Decentralized Finance (DeFi), also called Open Finance Development, is one of the most revolutionary concepts that blockchain technology brings to the table.

### **Staking:**

Tokens will be used to incentivize validators and nominators, based on the Nominated Proof-of-Stake reward distribution mechanism.

### **Slashing:**

Tokens also play a role in the slashing protocols designed to disincentivize attacks or adversarial behaviors.

BoBi Blockchain stable coin system 1 to 1 ration

BoBi coin total supply of 1.2B

Total Raised	1.5M	4.2M	8M	12.5M	2.107M

We are committed to providing the best staking returns to all our validators and scarcity. will decrease with time, but rewards in the form of the transaction fees will be increased in that proposition.

Validator Rewards = Block Rewards + Transaction fees

Rewards are distributed to the on-chain pools in time slots called eras and each era lasts for 5 days, at the end of each era period rewards will be distributed to validators pools.

In that era, Block rewards, as well as transaction fees, will be submitted.

Our PoS rewards will depend on how much value staking compared to the total circulation supply. after that, it will decrease based on the governance system.

DISCLAIMER : THE TOKENOMICS ARE SUBJECT TO CHANGE BEFORE THE IDO (AFTER THE MATHEMATICAL MODELS ARE TESTED IN THE TEST NET.)

## Funding The Treasury

In order to maintain sustainable growth, the treasury will be supported through transaction fees, slashing, & referral fees. we are keeping 1% of the total allocation for the treasury and keep it partially funded using transaction fees.

Initial Distribution of transaction Fee: 65% Treasury + 35% Validators

With time, the percentage for the validators will increase, and decrease for the treasury.

Every quarter 2% will be shifted from the treasury and added to the validators rewards.

Eg:

Q1 - 30% Validators + 70% Treasury Q2 - 32% Validators + 68% Treasury

## Distribution

	Distribution
Team	6%
Treasury	4%
Reserve	3%
Influencers	3%
Advisors	5%
Charity Fund	3.5%
Locked Liquidity	10%
Marketing	14%
Foundation	3.5%
Future growth until 2032	10%
Staking/Community Mining	18%
Sale	20%
