

COMMERCIAL & INDUSTRIAL SANITIZING & DISINFECTING

We work with our commercial and Industrial clients to develop plans and actions to minimize the spread of germs and viruses.

Our team has vast experience in GMP's and regulated industries, and our Technical and Medical Advisors have multiple patents across industry and are published on Infectious Diseases.

We provide services for a wide variety of clients:

A large, light gold shield with a dark gold border and rivets, serving as a background for a list of client types.

COMMERCIAL & INDUSTRIAL SANITIZING & DISINFECTING

We use non-hazardous disinfectants and sanitizers that are effective against a broad spectrum of micro-organisms and have been approved for COVID-19 by the CDC.

The products we use are US EPA Registered Broad Spectrum Disinfectants, Virucide and food contact surface sanitizers requiring no wipe or rinse:

- ✓ Kills C. difficile spores, TB, Salmonella and more in less than 5 minutes
- ✓ Kills Norovirus, Hep A Virus, Hep B Virus, Hep C Virus, H5N1 (Flu), H1N1 (Swine Flu) and HIV-1 in 1 minute.
- ✓ Sanitizer for Food Service Applications
- ✓ Kills Canine Parvovirus.

Will not harm floor finishes, safe on colorfast fabrics.

- 🛡️ **EPA REGISTERED BROAD SPECTRUM DISINFECTANT AND SANITIZER**
