School Year 2025 - 2026

Dear Parents,

We are excited to welcome you to Little Seedlings Christian Preschool and Kindergarten's 2025-2026 school year! I will be keeping in touch with you by email as we prepare for the first day of school! Please review the following information and enclosed forms. If you have any questions, don't hesitate to contact me.

Forms Required by Maryland State Department of Education - Early Childcare Division:

*Health Inventory - Completed by your Child's Doctor.

*Maryland Department of Health Blood Lead Testing Certificate - Completed by your Child's Doctor.

*Immunization Record – All immunizations must be up to date. The Doctor's office can give you a copy of their record or a computer generated report. If your student is on a delayed immunization schedule or you have a religious objection, this must be clearly indicated on the Health Inventory form.

*Emergency Form — Please be sure to have <u>at least one</u> local emergency contact person. It's also important that we have your child's doctor's name, address and phone number on the Emergency Contact Form.

Forms Required by Little Seedlings:

- *Child Pick-Up to include all adults who have permission to pick your student up from school.
- *Allergies/Photo Release/Volunteer Interest Form
- *At-Enrollment Family Survey
- *Tuition Agreement
- *Parent Handbook Receipt

The Little Seedlings Parent Handbook is available on our website at www.littleseedlings.org under the Enrollment tab. Please review and become familiar with the Parent Handbook. We want Preschool and Kindergarten to be a positive spiritual, educational, and social experience for your child (and for you). The handbook addresses many questions you may have about our program. I would be happy to discuss any questions you have about the handbook.

Our 2025-2026 Student Forms can be found on our website www.littleseedlings.org on the home page under Preschool and Kindergarten Forms.

The staff at Little Seedlings looks forward to welcoming you and your student(s) to our program. We will be in touch!

God bless.

Georgia Gray,

Director

Please email or mail your forms to Little Seedlings postmarked by August 4th, 2025

HEALTH INVENTORY

Information and Instructions for Parents/Guardians

REQUIRED INFORMATION

The following information is required prior to a child attending a Maryland State Department of Education licensed, registered, or approved child care or nursery school:

- A physical examination by a health care provider per COMAR 13A.15.03.04, 13A.16.03.04, 13A.17.03.04, and 13A.18.03.04. A Physical Examination form designated by the Maryland State Department of Education and the Maryland Department of Health shall be used to meet this requirement (See COMAR 13A.15.03.02, 13A.16.03.02, 13A.17.03.02 and 13A.18.03.02).
- Evidence of immunizations. The immunization certification form (MDH 896) or a printed or a computer-generated immunization record form and the required immunizations must be completed before a child may attend. This form can be found at: https://earlychildhood.marylandpublicschools.org/child-care-providers/licensing/licensing-forms
 Select MDH 896.
- Evidence of Blood-Lead Testing for children younger than 6 years old. The blood-lead testing certificate (MDH 4620) or another written document signed by a Health Care Practitioner shall be used to meet this requirement. This form can be found at: https://earlychildhood.marylandpublicschools.org/child-care-providers/licensing/licensing-forms Select MDH 4620.
- Medication Administration Authorization Forms. If the child is receiving any medications or specialized health care services, the parent and health care provider should complete the appropriate Medication Authorization and/or Special Health Care Needs form. These forms can be found at: Select Forms OCC 1216 through OCC 1216D as appropriate. https://earlychildhood.marylandpublicschools.org/child-care-providers/licensing/licensing-forms

EXEMPTIONS

Exemptions from a physical examination, immunizations, and Blood-Lead testing are permitted if the parent has an objection based on their bona fide religious beliefs and practices. The Blood-Lead certificate must be signed by a Health Care Practitioner stating a questionnaire was done.

Children may also be exempted from immunization requirements if a physician, nurse practitioner, or health department official certifies that there is a medical reason for the child not to receive a vaccine.

The health information on this form will be available only to those health and child care providers or child care personnel who have a legitimate care responsibility for the child.

INSTRUCTIONS

Part I of this Physical Examination form must be completed by the child's parent or guardian. Part II must be completed by a physician or nurse practitioner, or a copy of the child's physical examination must be attached to this form.

If the child does not have health care insurance or access to a health care provider, or if the child requires an individualized health care plan or immunizations, contact the local Health Department. Information on how to contact the local Health Department can be found here: https://health.maryland.gov/Pages/Home.aspx#

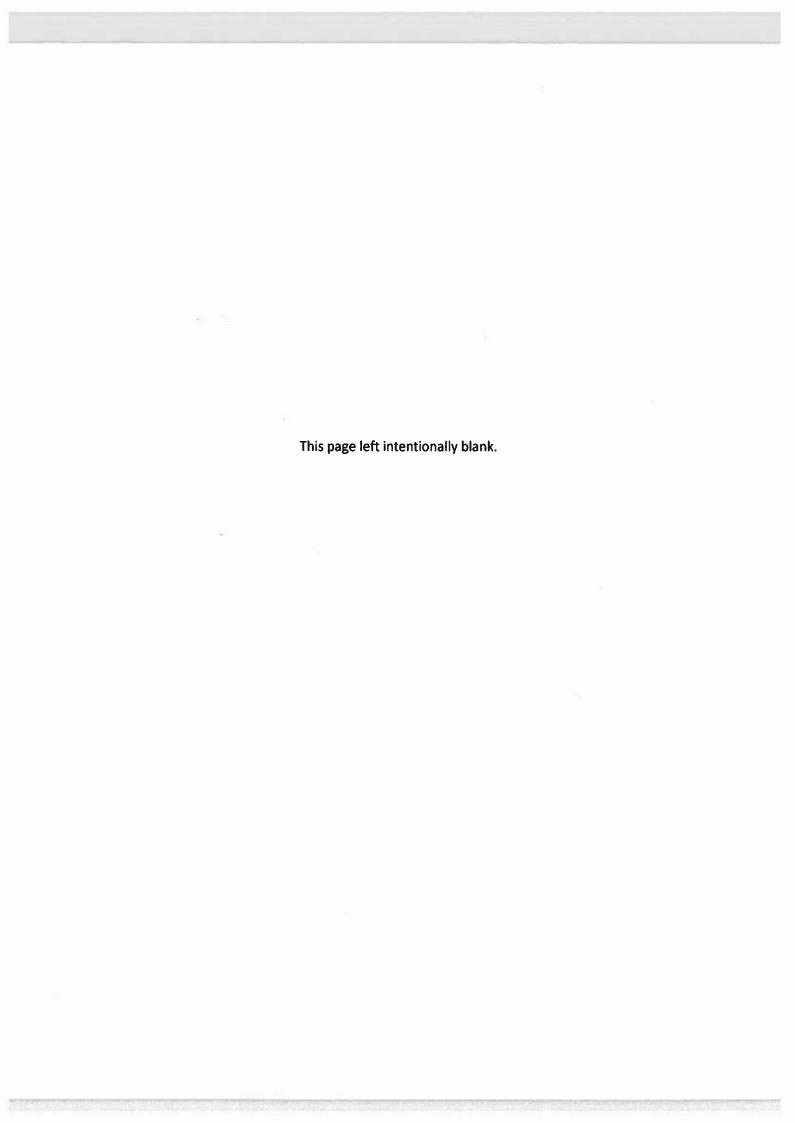

The Child Care Scholarship (CCS) Program provides financial assistance with child care costs to eligible working families in Maryland. Information on how to apply for the Child Care Scholarship Program can be found here: https://earlychildhood.marylandpublicschools.org/child-care-providers/child-care-scholarship-program

MARYLAND DEPARTMENT OF HEALTH BLOOD LEAD TESTING CERTIFICATE

For a copy of this form in another language, please contact the MDH Environmental Health Helpline at (866) 703-3266.

How To Use This Form

→ A health care provider may provide the parent/guardian with a copy of the child's blood lead testing results from ImmuNet as an alternative to completing this form (COMAR 10.11.04.05(B)).

Maryland requires all children to be tested at the 12 and 24 month well-child visits (at 12-14 and 24-26 months old respectively), and both test results should be included on this form (see COMAR 10.11.04). If the test at the 12-month visit was missed, then the results of the test after 24 months of age is sufficient. A child who was not tested at 12 or 24 months should be tested as early as possible.

A parent/guardian and a child's health care provider should complete this form when enrolling a child in child care, pre-kindergarten, kindergarten, or first grade. Completed forms should be submitted by the parent/guardian to the Administrator of a licensed child care, public pre-kindergarten, kindergarten, or first grade program prior to entry. The child's health care provider may record the test dates and results directly on this form and certify them by signing or stamping the signature sections. A school health professional or designee may transcribe onto this form and certify test dates from any other record that has the authentication of a medical provider, health department, or school. All forms are kept on file with the child's school health record.

Frequently Asked Questions

1. Who should be tested for lead?

All children in Maryland should be tested for lead poisoning at 12 and 24 months of age.

2. What is the blood lead reference value, and how is it interpreted?

Maryland follows the <u>CDC blood lead reference value</u>, which is 3.5 micrograms per deciliter (µg/dL). However, there is no safe level of lead in children.

3. If a capillary test (finger prick or heel prick) shows elevated blood lead levels, is a confirmatory test required?

Yes, if a capillary test shows a blood lead level of $\geq 3.5 \,\mu\text{g/dL}$, a confirmatory venous sample (blood from a vein) is needed. The higher the blood lead level is on the initial capillary test, the more urgent it is to get a confirmatory venous sample. See Table 1 (CDC) for the recommended schedule.

4. What kind of follow-up or case management is required if a child has a blood lead level above the CDC blood lead reference value?

Providers should refer to the CDC's Recommended Actions Based on Blood Lead Level (https://www.cdc.gov/nceh/lead/advisory/acclpp/actions-blls.htm).

5. What programs or resources are available to families with a child with lead exposure?

Maryland and local jurisdictions have programs for families with a child exposed to lead:

- Maryland Home Visiting Services for Children with Lead Poisoning
- Maryland Healthy Homes for Healthy Kids no-cost program to remove lead from homes

For more information about these and other programs, call the Environmental Health Helpline at (866) 703-3266 or visit: https://health.maryland.gov/phpa/OEHFP/EH/Pages/Lead.aspx.

Maryland Department of the Environment Center for Childhood Lead Poisoning Prevention: https://mde.maryland.gov/programs/LAND/LeadPoisoningPrevention/Pages/index.aspx

Families can also contact the Mid-Atlantic Center for Children's Health & the Environment Pediatric Environmental Health Specialty Unit – Villanova University, Washington, DC.

MARYLAND DEPARTMENT OF HEALTH IMMUNIZATION CERTIFICATE

MDH Form 896 (Formally DHMH 896) Rev. 5/21

How To Use This Form

The medical provider that gave the vaccinations may record the dates (using month/day/year) directly on this form (check marks are not acceptable) and certify them by signing the signature section. Combination vaccines should be listed individually, by each component of the vaccine. A different medical provider, local health department official, school official, or child care provider may transcribe onto this form and certify vaccination dates from any other record which has the authentication of a medical provider, health department, school, or child care service.

Only a medical provider, local health department official, school official, or child care provider may sign 'Record of Immunization' section of this form. This form may not be altered, changed, or modified in any way.

Notes:

- 1. When immunization records have been lost or destroyed, vaccination dates may be reconstructed for all vaccines except varicella, measles, mumps, or rubella.
- 2. Reconstructed dates for all vaccines must be reviewed and approved by a medical provider or local health department no later than 20 calendar days following the date the student was temporarily admitted or retained.
- 3. Blood test results are NOT acceptable evidence of immunity against diphtheria, tetanus, or pertussis (DTP/DTaP/Tdap/DT/Td).
- 4. Blood test verification of immunity is acceptable in lieu of polio, measles, mumps, rubella, hepatitis B, or varicella vaccination dates, but revaccination may be more expedient.
- 5. History of disease is NOT acceptable in lieu of any of the required immunizations, except varicella.

Immunization Requirements

The following excerpt from the MDH Code of Maryland Regulations (COMAR) 10.06.04.03 applies to schools:

- "A preschool or school principal or other person in charge of a preschool or school, public or private, may not knowingly admit a student to or retain a student in a:
- (1) Preschool program unless the student's parent or guardian has furnished evidence of age appropriate immunity against Haemophilus influenzae, type b, and pneumococcal disease;
- (2) Preschool program or kindergarten through the second grade of school unless the student's parent or guardian has furnished evidence of age-appropriate immunity against pertussis; and
- (3) Preschool program or kindergarten through the 12th grade unless the student's parent or guardian has furnished evidence of age-appropriate immunity against: (a) Tetanus; (b) Diphtheria; (c) Poliomyelitis; (d) Measles (rubeola); (e) Mumps; (f) Rubella; (g) Hepatitis B; (h) Varicella; (i) Meningitis; and (j) Tetanus-diphtheria-acellular pertussis acquired through a Tetanus-diphtheria-acellular pertussis (Tdap) vaccine."

Please refer to the "Minimum Vaccine Requirements for Children Enrolled in Pre-school Programs and in Schools" to determine age-appropriate immunity for preschool through grade 12 enrollees. The minimum vaccine requirements and MDH COMAR 10.06.04.03 are available at www.health.maryland.gov. (Choose Immunization in the A-Z Index)

Age-appropriate immunization requirements for licensed childcare centers and family day care homes are based on the Department of Human Resources COMAR 13A.15.03.02 and COMAR 13A.16.03.04 G & H and the "Age-Appropriate Immunizations Requirements for Children Enrolled in Child Care Programs" guideline chart are available at www.health.maryland.gov. (Choose Immunization in the A-Z Index)

Vaccine Requirements for Children Enrolled in Preschool Programs and in Schools Maryland School Year 2024 – 2025 (Valid 9/1/24 - 8/31/25)

FOOTNOTES

Requirements for the 2024-25 school year are:

2 doses of Varicella vaccine for entry into kindergarten, 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, and 10th grades.

Instructions: On the chart locate the student's age or grade and read from left to right on the chart to determine the NUMBER requirement is met, only count the number of doses needed. MMR and Varicella vaccination dates should be evaluated (See of required vaccinations by age or grade. Dosing or spacing intervals should not be considered when determining if the

- 1. If DT vaccine is given in place of DTP or DTaP, a physician documented medical contraindication is required.
- 2. Proof of immunity by positive blood test is acceptable in lieu of vaccine history for hepatitis B, polio, and measles, mumps, rubella and varicella, but revaccination may be more expedient.
- Hib and PCV (PrevnarTM) are not required for children older than 59 months (5 years) of age. ω,
- recordreview for students in preschool through 12th grade, a preschool or school may count as valid vaccine doses administered All doses of measles, mumps, rubella, and varicella vaccines should be given on or after the first birthday. However, upon less than or equal to four (4) days before the first birthday. 4
- grades and for previously unvaccinated students 13 years of age or older. Medical diagnosis of varicella disease is acceptable in lieu of vaccination. Medical diagnosis is documented history of disease provided by a health care provider. Documentation Two doses of varicella vaccine are required for students entering Kindergarten, 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, and 10th must include month and year. 2
- Four (4) doses of DTP/DTaP are required for children less than 7 years old. Three (3) doses of tetanus and diphtheria containing One dose of Tdap vaccine received prior to entering 7th grade is acceptable and should be counted as a dose that fulfills the Tdap vaccine (any combination of the following — DTP, DTaP, Tdap, DT or Td) are required for children 7 years of age and older. 6
- 7. Polio vaccine is not required for persons 18 years of age and older.
