Sweeping changes were made to all of Illinois Asset Forfeiture statutes which will take effect July 1, 2018. Notice requirements, filing deadlines, proof of service, seizure thresholds, awarding of property, and burdens of proof have all changed, and a new reporting requirement has been added. These changes impact how officers need to investigate cases in the field and how prosecutors litigate cases in the courtroom. Law enforcement officers and prosecutors will need to change the way these cases are handled if Asset Forfeiture will be a component in any cases your agency investigates or prosecutes after July 1, 2018.

In part one of the course, we will review the changes in the new law as compared to the old law and we will discuss how to best implement the new statutory requirements and develop best practices to deal with the changes. In part two of the course, we will discuss techniques for developing the financial component of your investigations to uncover more assets to apply the new law to and also develop methods to make Asset Forfeiture and Money Laundering cases more winnable.

We will explore various facets of financial drug investigations, including money laundering, asset forfeiture, and uncovering financial leads. We will show how to uncover, locate, document and seize drug proceeds, and add money laundering and conspiracy charges to a drug investigation. Also discussed will be FINCEN (Financial Crimes Enforcement Network) information such as SAR's and CTR's (Suspicious Activity Reports and Currency Transaction Reports), obtaining records from credit bureaus, credit card companies, banks and car dealerships, and finding real estate records.

Observed Mandates Include:
