POLICE CARBINE INSTRUCTOR

A comprehensive four day course for firearms instructors to develop skills to teach the AR15 platform in a patrol rifle format. Instructor candidates participate in numerous student teaching exercises in a classroom setting and range operations. The course concludes with a graded half day range session run by the instructor candidates using trainees from outside agencies as students. The curriculum includes developing lesson plans and training syllabuses. Graduates will be competent to conduct initial entry level end-user training and department sustainment.

Student Packing List:

Eye Protection

Ear Protection

Pistol and duty belt

Patrol Rifle— 16" barrel Minimum

2 magazines

Note Pad and Pen

Foul Weather Gear

800 rounds rifle carbine

50 handgun rounds

The last day of this class is on a Saturday. It just worked out that way for range use. If you have a question about weapon usage or request a reconsideration of the barrel length, please reach out and I'll run it past the instructor. The problem is that short barreled rifle causes over pressure on the line and is very uncomfortable to the people on the firing line to the left and right of the shooter.
