COURSE OVERVIEW: A two day course for tactical teams on fundamental concepts for working in wooded or rural environments. Core tasks include various team formation and their application for varied terrain features, in addition to control and coordination tasks. The methods presented apply to searches for wanted suspects and can be modified for missing person event or evidence recovery. Two offsite exercises are included to provide experience operating in woodland areas.

Student Packing List:

Eye & Ear Protection	Carbine with Sling
Ammo Count: 100 rds	Field Uniform
Light Gloves	Binoculars – recommended
Compass – recommended	Foul Weather Gear
TEAM: Support Gear / Drone / Portable Aid Bag / Small Dry Erase Board	

Note– If you don't have some of this gear, come anyway and bring what you have. We don't expect everybody to have a Drone.

This is going to be a fun class. There is not enough room here for me to say everything about this course. We live and work in rural areas, knowing how to operate in wooded areas and corn fields is important for keeping ourselves and the communities safe. This is a good class for SWAT and patrol alike.
