

THE AURORA INTERSTELLAR COLLECTIVE

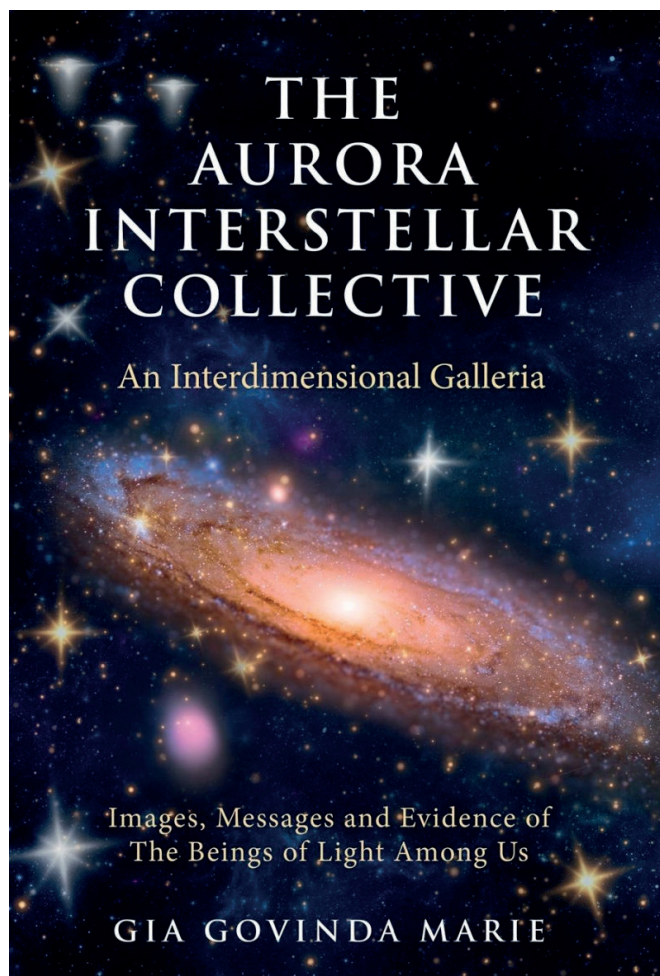

An Interdimensional Galleria

In this powerful Ascension Guide, author Gia Govinda Marie shares her incredible journey with AURORA and the Beings of Light, uniquely and beautifully bridging science and spirituality.

Compiled with over 4 years of close encounters and interstellar experiences, Gia offers a stunning, awe-inspiring *Interdimensional Galleria*, with more than 60 color images of AURORA and her Collective, and their “Messages of Hope” for humanity, opening the doorway for humankind to understand their INTERCONNECTEDNESS with All That Is.

AURORA and her Collective come as Star Fleets of Light from a Sister Galaxy of Crystalline Unity Consciousness, ever vigilant in their crusade to assist Planet Earth. These beautiful Benevolent Star Beings are not just extraterrestrials; they are *Ultraterrestrials*, higher dimensional Light Beings, Star People, who vibrate at or above the frequency of the Angelic Realm. They are here on a Mission of Love and Peace, answering the call to assist Mother Earth and her inhabitants with the Planetary Ascension, and to bring forth Messages of Truth, which shall set us free. They change form and appear as plasma crafts, flying saucers, huge pastel orbs, crystalline orbs, opalescent orbs, rainbow orbs, sparkling lights, orbs that shapeshift into crafts with exquisite sacred geometrical healing tools, and ethereal humanesc light beings. They also sometimes appear in the beautiful shades of the Aurora Borealis, or “inter-dimensional resonant tone”. And though they can and DO travel in their crafts, they do not *require* them... They travel in their LIGHT BODIES and Orbs.

The Aurora Interstellar Collective is a must-read for all who wish to raise their frequency, merge with their Merkabic Chariot, and re-ignite their Body of Light, as humanity journeys beyond the veil, into The Golden Age.
