

TOTO®

ECOPOWER®  
BROCHURE

# ECOPOWER<sup>®</sup>

In today's fast paced world, the need for superior performance and reliability means everything. EcoPower is a state-of-the-art, eco-friendly technology that helps you save water, energy and money without sacrificing an ounce of performance.

## REDUCING WASTE. SAVING ENERGY.

A commercial fixture that performs better and requires less time, money and effort is TOTO's main goal. Since EcoPower products use the energy of running water to operate, there's no need for external power or routine battery change. This results in minimized maintenance and costs associated with expensive battery recycling programs, and a reduction of hazardous battery waste in our landfills.

Helix® M EcoPower Faucet  
Atherton™ Undercounter Lavatory  
Sensor Operated Soap Dispenser

# ECOPOWER® SENSOR FAUCET

Harness the Power of Water

Engineered to require no wired installation or routine battery replacement, EcoPower faucets are the perfect marriage of hands-free operation, low maintenance, easy installation and ecology.

## PERFECTLY RESPONSIVE

### Smart Sensor Technology

Strategically located at the tip of the spout, the sensor is in an ideal location for the most effective response time.

### SMART SENSOR

An instant response time ensures the most efficient use of water. When a hand approaches, water instantly starts flowing, and when the hand withdraws, it instantly stops.

### CONVENTIONAL FAUCET

Conventional sensors are located at the base of the faucet, causing erratic water flow.

## EASY AS 1, 2, 3

### Hassle-free Installation

The EcoPower faucet controller box can be installed in three simple steps: screw, set and connect. No wires nor electricians needed.

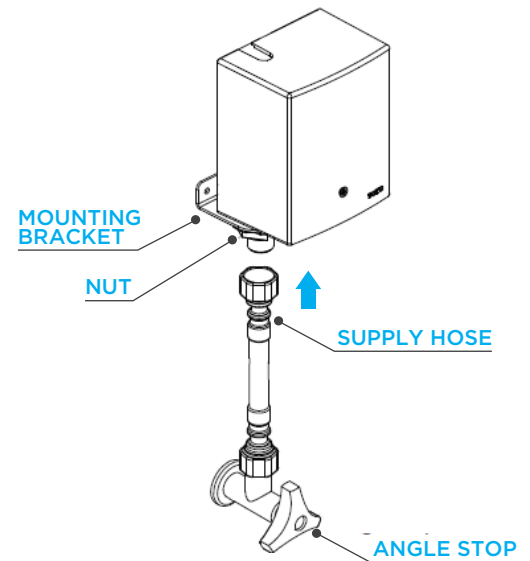

**1** SCREW THE MOUNTING BRACKET ON TO THE WALL.

**2** SET THE CONTROLLER ONTO THE MOUNTING BRACKET AND SECURE IT WITH A NUT.

**3** CONNECT THE WATER SUPPLY HOSE.

## ECOPOWER FAUCET FEATURES

Sustainable Energy, Powered By Water

EcoPower Faucets feature technologies that conserve water and energy and reduce maintenance costs.
