A JOURNEY OF DISCOVERY

SINCE 1996

"I founded Native Trails with a dream of bridging cultures, of combining artisan heritage with innovative design and sustainable materials. Bringing the beautiful work of undiscovered artisans to homes all over the world is a passion I gratefully live out every day."

~Naomi Neilson Howard, Founder/CEO

NativeStone® kitchen

A masterful blend of contemporary artistry and innovation characterizes the groundbreaking NativeStone® Collection; exceptional in its lighter weight, one-of-a-kind coloration, and extraordinary stain, scratch, and crack resistance.

Concrete Done Better

A breakthrough combination of natural jute fiber and cement results in a material about 40 percent lighter than standard concrete that is incredibly durable and resistant to cracking. Our state-of-the-art nano sealer literally binds with the molecules in the concrete, resulting in an extraordinarily stain and scratch resistant product.

NativeStone® bath

The groundbreaking NativeStone® Collection is a mesmerizing combination of contemporary artistry and innovation; exceptional in its lighter weight, one-of-a-kind coloration, and extraordinary stain, scratch, and crack resistance.

NativeStone® Artisans

Artisans sustainably handcraft each NativeStone® sink from a breakthrough blend of natural materials, including cement and jute fiber. The sinks are formed, cured, and hand polished, then sealed with an exclusive nano sealer that creates a highly stain resistant surface.

copper kitchen

The distinctive texture and warm glow of hand hammered copper appeals to the senses, while the simple maintenance makes Native Trails copper kitchen sinks refreshingly practical.

Nature's Disinfectant

One more reason to fall in love with hand-hammered copper - its antimicrobial nature. Copper actually kills harmful bacteria.

Studies show that uncoated copper effectively fights the growth of many of the micro-organisms and bacteria that cause food poisoning, colds, and flu. This is why many hospitals are converting operating room surfaces to copper; why not your kitchen sink?

copper bar & prep

Native Trails bar and prep basins make a definitive design statement in a bar or food prep area. Whether you are entertaining or preparing a meal, these artisan crafted sinks are luxurious yet delightfully functional.

Consistently One-of-a-Kind

Native Trails is widely known for the superior quality of its products – a monumental feat which requires balancing the one-of-a-kind nature of our handmade creations with the need for consistency. We start the process early – partnering with artisans whose skill and expertise are unparalleled, using high-quality materials that meet our thoughtful criteria. Every product goes through multiple stages of inspection during and after production to ensure that they meet our strict standards. Of course, with handcrafted products, much of the beauty lies in those same variations that make each item completely individual.

Pinecones detail

copper bath sinks

An ingenious marriage of metallurgy, artistry, and tradition characterizes Native Trails. Crafted entirely from recycled copper, these sturdy sinks are visually inspiring and easy to care for.

Copper Craftsmanship

Each Native Trails copper sink comes to life through a handcrafted process that has been honed by centuries of tradition, skill, and expertise.

A typical sink takes several days and many thousands of hammer strikes to complete. The end result is a one-of-a-kind functional work of art that embodies the unique style and skilled technique of the artisan who created it.

Maestro Collection

The heavy 15 gauge basins of the Maestro Collection endure up to 30,000 strikes of the hammer to bring out the copper's exquisite splendor and distinctive texture, while a complex heating and cooling process creates the remarkable mottling of the unique Tempered finish.

sink accessories

Native Trails drains and accessories are designed to fit and perform seamlessly with their counterparts, adding to their utility and design. The highest quality craftsmanship and materials make these accessories an enduring partner for our artisan crafted basins and tubs.

Social Sustainability

At Native Trails, we firmly believe that sustainability is as much about people and communities as it is about preserving the environment; we are champions for indigenous people and fair practices. Every Native Trails piece is designed to support equitable working relationships and to have a positive, real impact on our artisans and their families. We provide reliable revenue streams to support our artisans and perpetuate the continuance of their cultural heritage; we provide loans and micro-finance for our artisans' capital improvements so they can grow and prosper with us.

DRAINS, TRAPS AND STRAINERS

Native Trails drains and strainers are designed for perfect fit while enhancing the luxurious look and feel of our basins. Their unparalleled quality matches the superior craftsmanship quality of their counterparts.

FINISH OPTIONS

BN - Brushed Nickel | CH - Chrome | ORB - Oil Rubbed Bronze | PC - Polished Copper

PN - Polished Nickel | WC - Weathered Copper | SC - Solid Copper* | PSC - Polished Solid Copper*

**Solid Copper has a living patina which will beautifully age over time. It cannot chip or peel; its durability is unsurpassed.*

LAVATORY

1.5" DOME DRAIN—DR120

BN, PN, CH, WC, ORB, PC

- Dome does not seal water in bowl; it is designed for basins without overflows
- Elegantly covers entire drain area of basin
- All exposed parts are plated

Shown in ORB

1.5" PUSH TO SEAL DOME DRAIN—DR130

BN, PN, CH, WC, ORB

- Easy operation – push to seal the drain and simply push again to release
- Compression seal closes the drain completely for excellent performance
- Elegantly covers entire drain area of basin while also providing for superior water flow
- All exposed parts are plated

Shown in PN

1.5" TEARDROP DRAIN—DR150

BN, PN, CH, WC, ORB

- 9 hole lavatory drain with maximum threading
- All exposed parts are plated
- Designed for basins without overflows

Shown in WC

1.5" LIFT & TURN DRAIN—DR160

BN, PN, CH, WC, ORB

- Maximum threading for easy installation
- Features a forged brass nut and heavy 17 gauge tube
- All exposed parts are plated

Shown in BN

DECORATIVE BOTTLE TRAP—DR550

BN, CH, ORB

- An elegant, fully plated trap perfect for exposed plumbing
- Features 16" long tail tube in heavy 17 gauge brass
- Includes Bell Flange

Shown in ORB

BATHTUB

TRIP LEVER BATH WASTE & OVERFLOW—DR280

BN, ORB

- Use for single-walled, raised-base tubs (Aurora)
- Features brass waste shoe with extended tube
- Fully plated for exposed plumbing

Shown in ORB

TRIP LEVER BATH WASTE & OVERFLOW—DR300

BN, ORB

- Use for double-walled tubs (Aspen)
- Only exposed parts are plated
- Brass tubing is enclosed inside the tub walls, once installed

Shown in PN

PUSH TO SEAL BATH WASTE & OVERFLOW—DR290

BN, ORB, PN, CH, PC

- Use for Santorini and thick-walled tubs (Avalon)
- Only exposed parts are plated
- Pivoting head ensures snug fit
- For use with sub-floor tub waste connection

Shown in PN

KITCHEN & BAR

2" JR. STRAINER—DR220

BN, PN, CH, WC, ORB, SC

- Features center post with double o-ring construction for a tight seal & durability

Shown in BN

3.5" BASKET STRAINER—DR320

BN, PN, CH, WC, ORB, SC, PSC

- Features center post with double o-ring construction for a tight seal & durability
- Coordinates with Disposer Trim DR340

Shown in PSC

3.5" BASKET STRAINER W/DISPOSER TRIM—DR340

BN, PN, CH, WC, ORB, SC, PSC

- Features durable o-ring construction for a tight seal
- Coordinates with Basket Strainer DR320

Shown in SC

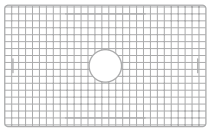

SINK BOTTOM GRIDS

Native Trails Bottom Grids fit neatly on the floor of the sink, offering added protection for the bottom and a cushion for fragile dishes. The Mocha finish beautifully complements our Antique finish copper sinks, while Stainless Steel coordinates nicely with our Brushed Nickel basins.

Both grid finishes work well with NativeStone, depending upon the faucet used.

USE WITH:
Cantina, Cantina Pro
& Ventana

GR913-SS Stainless Steel
GR913-M Mocha
13.25" x 11.25"

USE WITH:
Cabana & Manhattan

UK1426 26" Undermount Kit

Adjustable from 14" to 26" in length. Best for small (less than 27" wide) bathroom vanity installations. Also used for front-to-back installations of rimmed sinks in standard cabinets.

UK2547 47" Undermount Kit

Adjustable from 25" to 47" in length. Works well in cabinets 27"- 48" wide. Best for most kitchen and bathroom cabinet installations.

bathtubs

A restful retreat for the body and soul, Native Trails freestanding tubs are an impressive focal point for the bath; artisan crafted works of art that are functional as well as enticingly beautiful.

Artisan Tools

It takes specialized tools to create such beautiful products by hand. Native Trails artisans have a deep knowledge of their craft; they actually forge many of their own tools.

Various types of hammers are created for different functions. Some are used to shape the copper while others are used to polish the surface, give the final texture, and create a timeless finish.

bath furniture

When it comes to bathroom furniture, ours is built to last. Handmade by artisans who employ age-old traditions and expert craftsmanship from high-quality sustainable materials, every piece goes beyond exterior beauty and functionality, leaving a legacy of endurance and character.

Our Sustainable Promise

Respect for the environment is our passion at Native Trails. We use high quality natural materials, such as NativeStone®, a unique blend of concrete and jute fiber; FSC certified bamboo; repurposed wood; and recycled copper as the primary materials of our hand crafted designs.

When you purchase a Native Trails product, you can feel confident that you are making an ecologically responsible decision.

Helping Gain Green Certification

Native Trails' sustainably made products earn points toward green certification programs, including the USGBC's LEED certification program, a recognized standard for measuring building sustainability in the United States and around the world.

CHARDONNAY VANITY

36"w x 21.5"d x 34"h
VNW361

Features four full-extension drawers and easily removable front panel for plumbing access and hidden storage.

Chardonnay Vanity and Mirror are made from salvaged, wine-stained oaking staves used to flavor wine during the fermentation process. Their finish is a result of the oak staves soaking in wine for months, infusing tannins and aroma into the wine while absorbing the color of the grapes. A low-VOC finish is applied for extra protection.

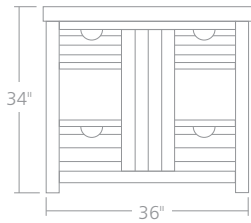

Order suite as shown: BNDV01
Chardonnay Vanity VNW361
36" Carrara Vanity Top VNT366
Hana in Antique CPS242
Chardonnay Mirror MR131
1.5" Dome Drain DR120-ORB

Featuring winemaking materials salvaged from the heart of California's wine country, the Vintner's Collection reincarnates oak barrels and staves into beautifully functional furniture and mirrors with a unique history.

Vintner's Collection

CABERNET VANITY36"w x 21.5"d x 34"h
VNW364

Features four full-extension drawers and easily removable front panel for plumbing access and hidden storage.

Cabernet Vanity and Mirror are made from salvaged, wine-stained oaking staves used to flavor wine during the fermentation process. Their finish is a result of the oak staves soaking in wine for months, infusing tannins and aroma into the wine while absorbing the color of the grapes. Finally, custom blended wax is hand rubbed into the oak to further enhance and protect the wood.

Order suite as shown: BNDV02

For Bordeaux Wall Mount

This extremely dense granite is an igneous stone, one of the hardest surfaces on earth. The lightly polished finish and rich black color convey a natural look of raw beauty and create striking contrast with our sinks.

Natural Stone Vanity Tops

*Choose cut-out configuration and optional backsplash from Price List or www.nativetrails.net/cut-outs

mirrors

Native Trails copper, metal, and wood mirrors reflect well on their surroundings. Artisan crafted of the highest quality sustainable materials, these mirrors are an inspirational finishing touch – or focal point – of any space.

Artisan Workshops

Our artisan workshops reflect the rich and natural environments that provide the inspiration to create truly unique works of functional art.

Native Trails products are primarily made in small, family owned workshops. For our artisans, the sound of hammering is music to the ears and the physical combination of natural materials is solace for the soul. These are a reflection of prosperity, and are symbolic of the continuation of their family legacies and traditions.

Our Values

We are a passionate bunch here at Native Trails. Here are the values that drive us to put our hearts into our work each and every day.

Artisan Traditions

We celebrate the culture and humanity that our handcrafted goods embody.

Thoughtful Design

We focus on innovation, sustainability, and quality.

Care of the Environment

We influence the health of our planet through our actions, words, and deeds; we infuse sustainability into the products we create.

Collaboration & Integrity

We put these first in our relationships, with both business partners and employees.

Making an Impact

We improve our community, both globally and locally, through our Community Trails program and our everyday way of doing business.

Shared Prosperity

We have done our job well when we provide value to the consumer while everyone involved thrives – from the artisan who crafts the product to our dealers who sell them.

For more information about Native Trails' philanthropic initiatives visit www.nativetrails.net/communitytrails
