# CLARKE One

The ClarkeOne is a new accessible shower/bath design made with the reliability of solid surface. A product that is built to last for generations.

- Patent Pending safety electro-magnetic outward opening door
- Wide entry with a low threshold
- Sleek design with no visible hardware
- Available with or without integral seat
- Whirlpool, Air Massage, Rejuvenation, and Total Massage with LED lighting therapy options
- Optional shower walls comprised of a three panel kit
- Offered in four colors – White, Black, Whisper (light grey), and Ghost (dark grey)
- Solid Surface construction with a 30 year warranty
- Made entirely in the USA.

# OUR STORY

Clarke Architectural offers a line of products that integrates input of accomplished designers and architects to contribute designs worthy of international recognition. Imaginative designs that utilize the very best materials, innovative manufacturing techniques, and made in the USA by skilled craftsmen. These solid surface products are constructed using OMOXO™, a proprietary formulation distinctive to Clarke Architectural. OMOXO™ products will maintain their sculptural elegance over time. The products we make go beyond simple expectations of a bath; they are viewed as sculptural, functional art that is both timeless in design and built for life.
