Vehicle Information.....	Page 5
Community Directory.....	Page 5
Visitor History.....	Page 5

*Please note that this manual includes all available features, your community may not use all features, such as pass printing and SMS (Text) notification.*

Gate Key Plus is an Internet based resident and guest management system for gated communities. Gate Key Plus provides you with the ability to update your household's information, manage your guests, and create guest arrival notifications and reports. Your information is immediately available to the Gate House.

Access your account by visiting: [www.GateKeyPlusResident.com](http://www.GateKeyPlusResident.com) or by downloading the mobile app from the [Play Store](#) or the [App Store](#). You will need to enter your username and password (assigned by your community's administrator). If you do not know your login and password please contact your community manager or the Gate House. If you are using a phone number as your username, enter the numbers only, without spaces or symbols (ex: enter 1234567890, not (123) 456-7890).

This manual will address how to use the mobile app. For instructions on how to use the system through your browser, please reference the Gate Key Plus Resident Manual Ver 20.1.

**Quick Setup:** Click on **Menu** and then **My Account** to change your password, click on **My Contacts** to add or update your contact information, and Click on **Permanent Visitors** to add your approved visitors.

More detailed instructions and information is provided below:

### Resident & Contact Information

The **My Account** button is where you can update your login user name, and your account password. The account holder's name and property address are set by the Administrator; please contact the management office for your community to have your name changed. It is **critical** for your security to use a unique password for Gate Key Plus, and not a password you use to log into other systems.

The **Additional Residents** button is where you can list all the residents in your home, and describe what relationship they are. Residents will be allowed access to the community without restrictions.

Relationship options are: Spouse, Child, Family Member, Roommate, Care Giver, Property Owner, Tenant, and Other. To add a Resident to your account, please tap on the + icon in the top right corner and enter the information.

They will also have access to your Gate Key Plus account. You may select which privileges each user has. They will have their own **username** and **password** that is chosen when they are added as a Resident. You can choose whether they will be listed in the community directory, and set them to Active or Inactive. Be sure to Save. For iPhones, this button will be the word Save in the top right corner. For Android phones, there will be a ✓ icon.

To delete a Resident simply click on their name, and then Delete Resident. The Resident will immediately be deleted from the system.

The **My Contacts** button is where you can add additional land-line phone numbers, email addresses, and mobile (cell) phone numbers. This is the information Gate Key Plus, the Gate House, and the community will use to try to contact you. Please note that the First email address and the First Mobile number you enter will be the Primary ways you will be notified in the event of a problem or emergency. To change your Primary contact on Android phones, you can select the contact you would like to change it to and then tap the ★ icon. On iPhones, you need to swipe left on the entry and click the Make Primary button that appears. You can add additional contact information for yourself and each resident, if you add contact information for other residents make sure you indicate whose contact it is in the description field, such as: "Sally's Cell Phone". When you add guests, you can select arrival notification from this list of contacts.

If you want to be notified on guest arrival, be sure and list at least one mobile phone number and email address in Contacts!

**Call Restrictions**, this sets time limits on when the Gate House is allowed to contact you. If no restrictions are entered, the Gate House may contact you at any time. You can find this in the **My Account** tab.

**Call In Pin**, please enter a secret word or phrase, which needs to be verified to the Gate House personnel should anyone call the Gate House representing themselves as being from your residence. Another way to think of this is a "Pin Number" for the Gate Key system. You can find this in the **My Account** tab.

### Email & Text Message Notification

The **My Options and Settings** button contains Mobile, Email, SMS, and Push Notification Blast settings.

You can choose whether you would like to receive mobile notifications when your visitors arrive. You must be sure to give the Gate Key mobile app permission to display notifications within your phone settings for this function to work.

You can choose if you would like to receive blast notifications through email or text message when they are sent out by your community, and whether they would be received by only the primary contact or by all contacts. Select None, if you would like to turn this feature off.

You can choose whether you would like to receive push notification blasts through the mobile app when they are sent out by your community.

## Adding or Editing Visitors

There are four types of visitors to choose from:

- **Temporary Visitor** - Temporary visitors have date limits that will expire based upon what you specify. This would generally be a one time guest or service personnel such as Housekeeping, Pool/Yard Service, or Child/Healthcare. You can also set up specific days and times in which they are allowed access, and place any pertinent notes for the Gate House to view. When entering service personnel or contractors, please be sure to use the drop down box for Pass Type and select Service.
- **Permanent Visitor** - These are permanent visitors, such as relatives, care workers, or close friends that you always want to allow access to. You can later delete them if needed. You can set up specific days and times in which they are allowed access, and place any pertinent notes for the Gate House to view.
- **Event Guest** - More than four (4) people that have been invited into the community for a special event or party by a resident.
- **Denied Visitor** - Individuals or Companies that you do not want to allow access at any time. (Please note that neither Gate Key Plus, your community, nor your Gate House personnel can guaranty the safety of yourself, your residents, or your home).

### To Add a Visitor:

1. Select the button for the appropriate type of visitor (**Temporary Visitors**, **Permanent Visitors**, or **Denied Visitors**) and tap the + icon in the top right corner to add a new visitor.
2. Enter Company name or full name (first and last) of an individual.
3. If the visitor is one you have previously entered their name will appear in a box as you start typing. You can click on this to autofill some of the fields based on their previous entry.
4. Select the Pass Type for this visitor. Visitor and Pass Types are set up by your community, and generally include: Guest, Event/Party, Resident, and Service. Additional types may include Real Estate, Golf, or Social, etc. depending on your community. (Does not apply to a Denied Visitor.)
5. Enter Start Date and End Date that you wish to allow access to the community. (Does not apply to Permanent or Denied Visitors.)
6. Enter Start Time and End Time that you wish to allow this guest access to the community.(Does not apply to Denied Guests).
7. Enter Visit Days, click on the box next to the appropriate day(s) temporary access is being granted (Does not apply to Denied Visitors.)
8. If you know the license plate of the vehicle your visitor will be driving, please enter it in under License Plate. This will help speed your visitor through the check in process.
9. If you know the Drivers License Number of your Visitor, please enter it in under Drivers License Number. This will also help speed your visitor through the check in process.
10. Enter Notes to Gate House if you want or need to, such as: "Plumber to repair sink".
11. For Temporary Visitors only, if you only want to allow the visitor to enter the community one time, tap "One time entry."
12. If you know the Visitor's E-Mail, enter it under Visitor E-Mail. With this an e-pass can be sent to the visitor via e-mail. This will also help speed your visitor through the check in process. (Does not apply to Denied Visitors.)
13. The contact information you listed under Contacts will be listed under Arrival Notifications; if your community uses these features, the system will notify you by sending a text message to your mobile phone, and/or by sending you an email when a pass is printed for your guest upon arrival. Please select all contacts you wish to be notified upon the guest's arrival.

14. Save using the ✓ icon (for Android devices) or the Save button (for iPhones) in the top right corner.

#### To Create an Event Guest List:

1. Click on the **My Event** button, tap the + icon in the top right corner to add a new event, if you have not already scheduled your event. If you have done so already, skip to step 6.
2. Name your event in under Event Name.
3. Choose Event/Party in the Pass Type drop down menu.
4. Select the Start Date and End Date, as well as the Start Time and End Time.
5. Save using the ✓ icon (for Android devices) or the Save button (for iPhones) in the top right corner.
6. Find your event entry and tap on it to see your guest list.
7. Tap the + icon in the top right corner to add a new guest.
8. Enter the first and last name of your guest.
9. If you know the license plate of the vehicle your guest will be driving, please enter it in under License Plate. This will help speed your guest through the check in process.
10. If you know the Driver's License Number of your guest, please enter it in under Driver License Number. This will also help speed your guest through the check in process.
11. Enter Notes to Gate House if you want or need to.
12. If you know the guest's E-Mail, enter it under Visitor E-Mail. With this an e-pass will be sent to the guest via e-mail. This will also help speed your guest through the check in process.
13. If you wish to be notified of a guest's arrival, select your preferred contacts under Arrival Notifications.

#### To Edit or Delete Guests:

1. Click on the appropriate type button (**Temporary Visitors**, **Permanent Visitors**, **Event**, or **Denied Visitors**).
2. To Edit a visitor, simply tap on their name.
3. To Delete the visitor on an Android device, tap the 🗑 icon in the top right of their edit visitor page. On an iPhone, you need to swipe left on the name you wish to delete and click the Delete button that appears.

When entering Visitors such as married couples or siblings, create a separate guest record for each person. By example, John & Mary Smith should be entered as two guests; John Smith, and Mary Smith.

The **My Information** button contains Health, Pets, your Emergency Contacts, and Notes for Guard.

**Health Information**, where you can list information regarding your health that the Gate House and administrators can have access to.

**Pet Information**, where you can list your pet's name, breed, and description.

**Emergency Contacts**, where you can list who you would like contacted in the event of an emergency or in the event you are not able to be reached. You may enter up to five emergency contacts.

**Resident Note for Guard**, where you can list information you would like the guards to be aware of, that may not fit into one of the defined categories. For example: "I'll be out of town until September 1<sup>st</sup>."

The **My Vehicles** button allows you to view the vehicles registered to your residence. Unless enabled by your community, you are not allowed to add, edit or delete vehicle information; only the Community Administrator has authorization to do this.

The **Community Directory** button allows you to view and search the online directory of residents.

- Search 🔍: You can use this to search by name or address. Partial name or address searches bring up everything containing what you search for.

**Note:** The Community Directory may be disabled for your community.

The **Previous Visitors** button allows you to see all visitors that you have entered in the past.

The **Access History** tab allows you to see all visitors that have entered. It lists the date and time that they were given access. You can click on an entry for further details.

Make sure to **save** any changes!
