

Warcrimes

Fucken drew the short straw here
For once why couldn't I have a personnel job
Aren't the MPs supposed to look after crime evidence

"Nope Bargearse"
Not when the evidence is gathered using classified means
"Guess who has that classification"

I look around the empty office
"I suppose that would be me then"
Was always going to be any way

Fucking war crimes
143 dead bodies
Old men, women, children, priests and nuns

Dead from gunshots
Not single ones though
Ratatatatatatatatata Ratatatatata

And petrol fuelled flames
How many were dead?
Before the flames got to them

How many stopped praying
Nosso pai que é art
Wooooooosh

Except Christ was nowhere to be seen
He must have been busy helping
Someone find a car key

Black body bags crammed
Liked overstuffed xmas stockings
Into barely coping refrigerated containers

All for evidence
So that someone could go to Gaol
But he hasn't and won't

26 men 39 women 78 children
Died by BBQ praying for a god
Who doesn't exist or give a fuck
