

BRB TV, LLC Nashua Public Television PROCEDURES

1 NPTV BROADCAST

The length of the NPTV Broadcast Day and the number of days per week that NPTV Broadcast occurs determine the amount of playback time available on the channel. The amount of available time may change as BRB TV, LLC grows and usage increases. Time availability will be determined by the Operations Manager. Shows are played on NPTV with consideration given to the Producer's request.

2 Technical Standards

There are minimum technical standards that must be met for a Program to be broadcasted on NPTV. All Programs should be free of any breakup, glitches or distortion of the audio or video portions of the signal. All Programs are subject to technical review.

The equipment at NPTV is capable of broadcasting the following formats: DVD, DV and MPG2, MPG3 and MPG4. Other formats may be able to be converted at the studio. Contact the BRB TV, LLC Operations Manager to schedule conversion time.

All Programs submitted for Broadcasting must be labeled with the Producer's name, the Program title, start time, length of play, and the date of submission at time of submission.

Technical standards may be waived in cases where the Program is of an event or a happening that cannot be repeated. In such cases, the Producer must make a special request to the Operations Manager and will add a short disclaimer to the beginning of the Program advising the viewers that portions of the following Program contain technical difficulties.
