TIE- BREAKERS : In the event of a tie for any of the low net awards, the winner will be determined by comparing **net scores** on the #1 hdcp hole. If there is still a tie, net scores will be compared for the #2 hdcp hole, etc. "Net scores" are easily determined by the individual's handicap. For example, Phil has a 2 course hdcp, so he will get one stroke on the #1 & #2 hdcp holes. Tiger has a 20 course handicap, so he gets one stroke on all 18 holes and an additional stroke on the #1 & #2 hdcp holes. So, if both had net 70 for 18 holes, and both had a gross 5 on the #1 hdcp hole, Tiger would win with a net 3 compared to Phil's net 4.
