

# June, 2022

## THE KMA SPEC

Architectural Products & Furnishings

KMA & Associates

Bringing you up to date on KMA's unique architectural product collection!

**Summer is Here!** June brings in the season of summer, and the season of Neocon! New product launches, and viewing the showrooms is always super exciting. But we all know the best part is testing out the furniture, while giving our legs and feet a bit of a rest.

In our newsletter this month we'll be highlighting some of our furniture products that we think will make a great addition to projects.

## nienkämper International Inc.

First we'll introduce some of our Nienkamper Products. This line is available in all of our territories, and is based out of Toronto.

### Brig Lounge:

Brig (pronounced BREEG) Lounge is luxury soft seating. Designed to create configurations that allow people to visualize their own personal space and with combinations facing in various directions. Brig seats are generous in scale and easily separated with tables to allow a natural physical distance. Available with integrated power and with a focus on people, materials and upholstery. Brig Lounge is a soft seating system that can respond to the ever evolving context of work.

### MagPower Tables:

People move. Furniture moves. Introducing MagPower Tables by renowned designer Carl Magnusson. Power and charging solutions for people and furniture on the move. The new MagPower is a versatile collection of mobile and stationery, multi-purpose tables ideally suited for focused individual, small groups and various training activities. This dynamic modular table system is designed to provide a functional, clutter-free work surface and charging station for work zones that require no hard wiring. Reimagine power and charging with the most flexible table collection for commercial spaces. MagPower features a battery-rechargeable wireless USB A + C power, cleverly mounted in the table leg where wire management is integrated in the design of the legs to maintain a seamless aesthetic. Optional surface mounted Simple Forums for power and data available pre-wired or site wired with cable conduits to bring cables to the floor.

### Vox Hex:

Designed to provide enhanced privacy in an open office world, Vox® Hex is a refined workstation that looks and feels more like a private office. With its unique Hexagon shape, Vox® Hex makes the most efficient use of available floor space. Without compromising the open office/work community ideal, Vox® Hex provides delineation of space and can be grouped in a multitude of space-efficient configurations all whilst providing maximum privacy between users.

**Martin  
/ Bratrud**

Martin Bratrud, Available in our Ohio territory.

Based in Gardena California.

**Heceta Stools:**

An efficient and timeless silhouette gets a modern mastering. Heceta stools meld faceted and smoothed forms to prove once again that the details make the design. Made of solid Ash or solid Walnut, Heceta's sculpted seat conceals a swivel that automatically returns to center. Opt for a natural cork seat for added softness and warm material mix. A tubular steel foot ring offers an opportunity for a dash of color. Available in bar, counter, and dining heights.

**Bloom:**

Exploring forms that feel familiar yet new, playful yet elegant, Ayse Birsel and Bibi Seck drew inspiration from the goblet drums of West Africa, champagne corks from dinner parties, and forest mushrooms from their kids' summer camps. Bloom distills these familiar, often celebratory forms with a soft, organic, and playful hand.

Bloom comes in 2 expressions—a monolithic built-to-the-floor version or a light and airy metal rod base. Both have a swivel seat. As an option, you can cap the bottom of the built-to-the-floor Bloom in powder-coated metal for a more layered material and color expression. Three heights are available, with the tallest two incorporating a circular metal foot ring. Bloom can be upholstered in two knitted fabrics from Kvadrat Febrik, each available in a wide range of colors.

**LELAND**

Leland Furniture, available in our Indiana and Kentucky territories.

Based in Grand Rapids, Michigan.

**Omena Side Chair:**

Inspired by nature in color, form, and spirit, Omena blends right into café spaces, private offices, casual lounge spaces, and collaborative settings. Between the rolling seat and the subtle curvature of the legs, the design has an unmistakably calming presence. Available as a chair and a stool, Omena takes tried-and-true construction, and reimagines it for today's preferred style of work—open, authentic, free.

When a person arrives at Omena, they find more than a place to sit. They find their element.

KMA & Associates strives to be your # 1 resource when it comes to specifying architectural products and furnishings.

Please reach out for assistance with your next project.
