Spring Updates are Here!

Bringing you up to date on KMA's unique architectural product collection!

Spring brings new growth in nature and fresh new products to invigorate your projects!

Our manufacturers have been doing double time on developing innovative solutions to adapt to the changing workplace. It amazes us the way products are being re-designed to adapt to solving problems and conform to new interests in the interior landscape.

People are working differently now and in our newsletter this month, we will highlight products that support the transforming workspace with increased emphasis on flexibility, convenience, and comfort.

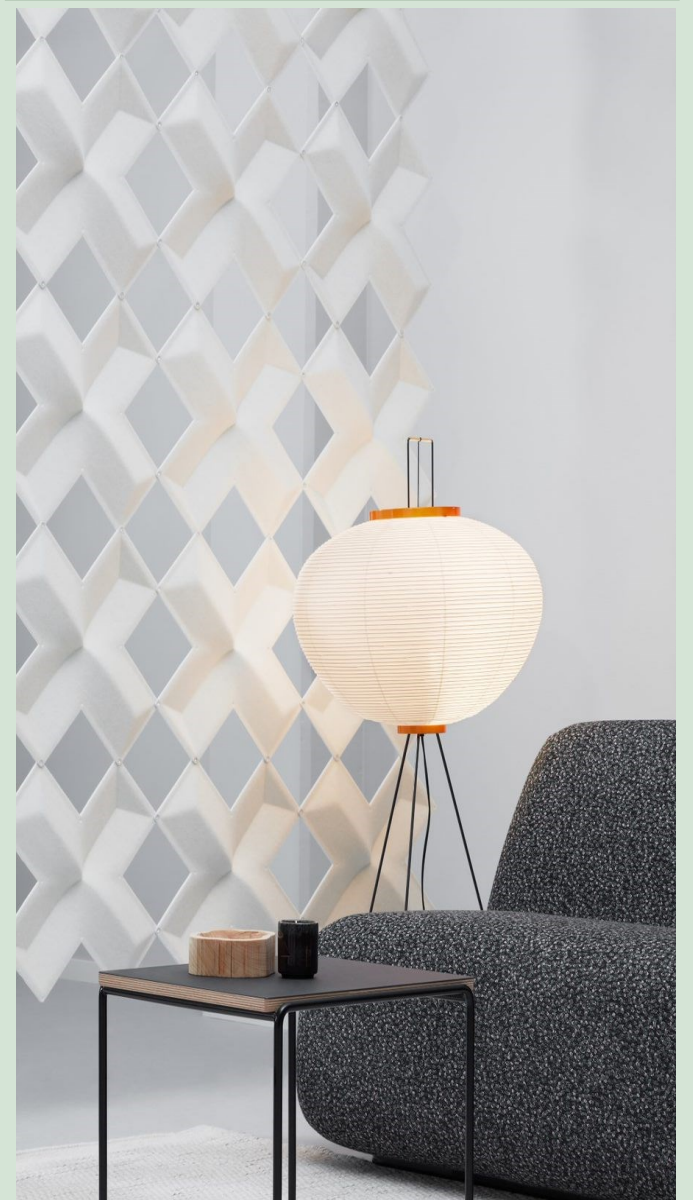

NEW FROM MECHOSHADE!

Motorized shades are now easier than ever!

The **UrbanShade** is now available completely wireless with built-in embedded battery operation.

The new convenient workspace! This is going to be a game-changer for motorized roller shades. The UrbanShade by Mechoshade is transformed with a re-chargeable lithium-ion battery that eliminates the need for wiring and will provide maximum convenience for the end-user. The battery is re-charged with a removable cable (sold separately). It's quiet, smooth operating, and is compatible with voice control such as Amazon Alexa or Google Assistant.

Introducing **Air-X acoustical screen** from **Unika Vaev**. Unika Vaev expands the Air Collection with Air-X, The Air series of products continues to be popular for pleasing both the ears and the eyes. Air-X enters the world of symbols, typography and letters and is constructed of molded felt and fabric creating excellent noise absorption for better workplace acoustics.

Inspired by nature! **From Arktura:** Two new Vapor panel products with names as fresh as spring itself. **Top photo: Vapor® Bloom**, brings life to spaces through biomorphic patterning that gently evokes images of scattered foliage or blossoming petals. Add visual depth and illumination to your space by incorporating our integrated InLine lighting or backlighting options. **Bottom photo: Vapor® Breeze**, creates an organic feel by echoing the flurry of air and the murmur of butterflies. Samples available!

Progressive companies are recognizing the workplace is expanding to outdoors. Working outdoors elevates mood and may boost productivity. **Sandler Seating / In-Spec** is now making outdoor site furnishings available by **Larus Design**. See the entire collection on the InSpec website at:

https://inspecfurniture.com/products/collection/site_furniture/

Above: The Oco Bench with backrest. This stylish public bench is made in Kambala wood on a stainless steel frame suitable for outdoors. **Left: The Y-Bench.** This modular bench adapts naturally into the landscape with practicality and sculptural modernity.

Left: New from Nienkamper, Ensemble. Ensemble is a collection of small to mid-sized tables that enhance workspaces by providing flexible configurations. This is a light and adaptable solution for the versatile office environment. Larger fixed versions of these tables for meeting room applications provide a cohesive aesthetic throughout the workplace. Available in both sitting and standing heights, Ensemble can be personalized to fit the space with a variety of color and finish options for the surface and the legs. If you're looking for work tables, this could be just the right fit!

Below: We just love this new stool from **Sandler Seating**. Meet "Apple", a polyethylene pouf. As part of the Et Al Collection, Apple is suitable for outdoors. Notice how they nest in groups! Pure fun and so functional in multiple environments!

Coming Attractions!

How would you like to go on a **FACTORY TOUR** without leaving your chair? We think it will be fun and educational too!

Since the beginning of the year, KMA & Associates have been busy planning educational webinars for you, our valued design community. We are in collaboration with the folks from Soft Touch Furniture to bring you a virtual field trip in the month of May! Our friends at Soft Touch Furniture will take us on a live webcam tour to show how restaurant furniture such as booths and banquettes are custom built at their manufacturing facility in Ohio. Watch your inbox for the invitation coming soon!

KMA & Associates strives to be your # 1 resource when it comes to specifying architectural products and furnishings.

In upcoming newsletters, we will be continuing the subject of shades focusing on automated shades. Please reach out if we can assist with your next project.
