## THE KMA SPEC

Architectural Products & Furnishings

Our Back to School Edition!

Bringing you up to date on KMA's unique architectural product collection!

This month we remember all those who are starting a new school year, a school year like no other, to be sure! Many students are participating in remote classes and some are in-person. We wish the best of success to all of your family and friends for a safe and healthy school year, no matter where they are learning from this year! This newsletter edition is to highlight our architectural products and furnishings you'll find well-suited for the learning environment.

If you are working with school projects for higher education or K-12, KMA & Associates has a busload of terrific products our manufacturers would like us to introduce to you!

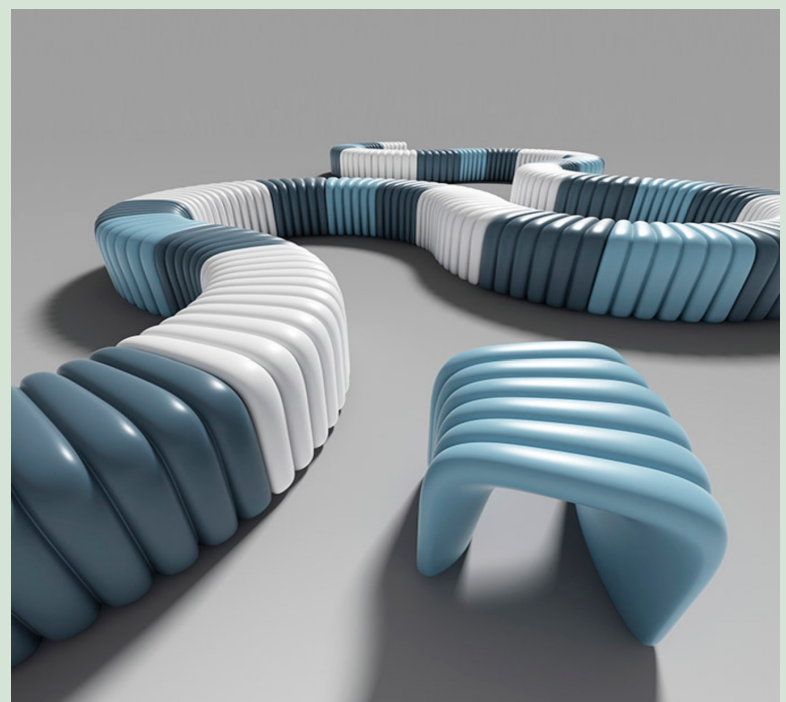

### GlassBOARDS & Screens by CARVART

Left: CARVART offers a multitude of choices in tempered glass writable surfaces with various mounting types to fit your desired aesthetic? You are sure to be impressed with the available options for magnetic glass and dry erase boards. Competitively priced!

Above: Carvart desk screens Add a measure of safety of your classroom.

**Below Left:** From Sandler Seating's Et Ai Collection, *The Pillow 1.1 Pouf* and *Pillow 1.2 Chair*. Add color and fun to the student lounge with this this go-anywhere, do anything steel framed seating!

**Below Right:** Sandler Seating's *River Snake Lounge*. Enjoy so many possibilities for re-configuration as shown in our video. Start with the stool and go from there! Manufactured in cleanable low density polyurethane with aluminum linking system. For both indoor and outdoor use. <https://www.sandlerseating.com/videos/river-snake-by-mac-stopa>

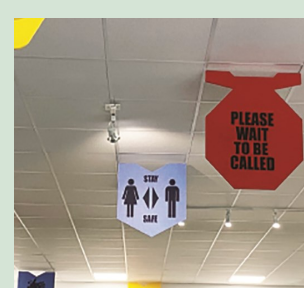

**Hear Yourself Think!** Sometimes learning requires concentration and keeping distractions at a minimum really helps! Below from the **Unika Vaev Fraster Collection: The MIXMAX**. This foldable screen is easily movable to wherever your need for acoustical comfort arises. Its 59" high frame is covered with 3 mm wool felt in colors that can be combined according to your desire. Multiples of its 7.9" width frame components can be combined to extend the aggregate length of MixMax from 47.2" - 94.5".

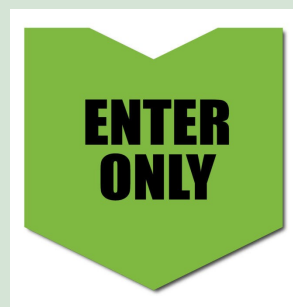

Some spaces in schools can be very loud. **Unika Vaev** has quick and easy options to absorb sound and help to improve speech intelligibility. Studies have shown students learn better when they can hear better! **Below: Matrix Acoustic tiles.** These 19.7" x 19.7" tiles made from 100% PET present a bold three-dimensional design that will add depth and modern beauty to any space. Create your own piece of art by mixing the 34 available colors and rotating tiles to create unique patterns. Matrix earns a NRC rating of 0.90 when specified with an optional infill. Sold in boxes of 8 tiles.

Most importantly of all, we want this to be a safe school year! **Unika Vaev** has developed a simple signage solution for providing reminders of safe behaviors while the pandemic still lingers on.

Keep facilities safe and secure with Unika Vaev's new Safe Building Signage package!

The package includes 7 important safety messages packaged into a comprehensive collection of 20 lightweight, 100% PET signs. This product is a part of the T-Grid Solutions collection of Unika Vaev. As shown in the Photo Left: These hang easily from a 2'x2' ceiling grid. No tools required!

Let's keep in touch!
