 VT2PRIB = VT Double Pro® RIB Complete®, RR2 = Roundup Ready® Corn 2

## GRAZING

\* All NorthStar Genetics Silage Corn make excellent grazing products. We recommend keeping the planting population in the higher range to avoid too large of stalks to make the corn even more gentler on the cows' hooves, and to obtain the best cleanup.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. Glyphosate will kill crops that are not tolerant to glyphosate. Roundup Ready® is a registered trademark of Bayer Group. Used under license.
